Religion in Late Modernity Robert C. Neville, 2002-07-17 Religion in Late Modernity runs against the grain of common suppositions of contemporary theology and philosophy of religion Against the common supposition that basic religious terms have no real reference but are mere functions of human need the book presents a pragmatic theory of religious symbolism in terms of which the cognitive engagement of the Ultimate is of a piece with the cognitive engagement of nature and persons Throughout this discussion Neville develops a late modern conception of God that is defensible in a global theological public Against the common supposition that religion is on the retreat in late modernity except in fundamentalist forms the author argues that religion in our time is a stimulus to religiously oriented scholarship a civilizing force among world societies a foundation for obligation in politics a source for healthy social experimentation and the most important mover of soul

Traditional Religion and Culture in a New Era Reimon Bachika, Where will postmodern culture lead us in the twenty first century Will it destroy traditional cultures together with the old established religions that were its foundation These questions and the new concerns they evoke are explored in this important collection of original essays Contributors challenge entrenched assumptions about what many social scientists consider irreversible cultural trends These include cultural differentiation emphasis on individual identity movement toward religion as a private act rather than a community commitment and above all emphasis on the relativity of all knowledge and values The volume asserts three lines of argument in opposition to these trends The first is the teleological significance of traditional religions and archaic knowledge History can be said to have no goal but the same must not follow for human culture One can conceive individually of a hundred goals to live for However the quality of life cannot be that diverse Taken to the extreme cultural particularity and philosophical nihilism are insults to the life that emerged on our planet eons ago Second this volume emphasizes moral concern and the importance of universal values Ideas of human well being have been formulated from ancient times Religious beliefs invariably contain statements of value in the form of commandments and exhortations that express fundamental goals for a quality of life Third the nature of religion and spirituality is discussed Religion today has become controversial socially and marginal sociologically The role of religion in society is sometimes problematic or abused but it is also underestimated and misunderstood The authors suggest that contemporary religion might best be viewed as non ideological spiritual culture This in turn looks to a future in which religion and culture coalesce This volume includes an international cast of scholars from Japan the United States Canada the United Kingdom Germany Greece Italy New Zealand and Belgium All have engaged in research outside their own countries Taken as a whole this volume addresses issues of interest to those in the fields of futures studies religion and philosophy and in particular those concerned with human agency personal responsibility and public choice Reimon Bachika is professor of the sociology of religion at Bukkyo University Kyoto and president of the Research Committee of Futures Studies RC07 of the International

Nonreligion in Late Modern Societies Anne-Laure Zwingli, Helge Årsheim,2022-06-14 This volume presents results from new and ongoing research efforts into the role of nonreligion in education politics law and society from a variety of different countries Featuring data from a wide range of quantitative and qualitative studies the book exposes the relational dynamics of religion and nonreligion Firstly it highlights the extent to which nonreligion is defined and understood by legal and institutional actors on the basis of religions and often replicates the organisation of society and majority religions At the same time it displays how essential it is to approach nonreligion on its own by freeing oneself from the frameworks from which religion is thought The book addresses pressing questions such as How can nonreligion be defined and how can the nones be grasped and taken into account in studies on religion How does the sociocultural and religious backdrop of different countries affect the regulation and representation of nonreligion in law and policymaking Where and how do nonreligious individuals and collectives fit into institutions in contemporary societies How does nonreligion affect notions of citizenship and national belonging Despite growing scholarly interest in the increasing number of people without religion the role of nonreligion in legal and institutional settings is still largely unexplored This volume helps fill the gap and will be of interest to students researchers policymakers and others seeking deeper understanding of the changing role of nonreligion in modern societies

The Mainline in Late Modernity Maren Freudenberg,2017-12-21 In the last fifty years religion in America has changed dramatically and Mainline Protestantism is following suit This book reveals a fundamental transformation taking place in the Evangelical Lutheran Church in America The ELCA is looking to postdenominational Christianity for inspiration on how to attract people to the pews but is at the same time intent on preserving its confessional liturgical tradition as much as possible in late modernity As American religion grows increasingly experiential and individualistic the ELCA is caught between its church heritage and a highly innovative culture that demands participative structures and a personal relationship with the divine In the midst of this tension the ELCA is deflating its church hierarchy and encouraging people to become involved in congregations on their own terms while it continues to celebrate its confessional liturgical identity But can this balance between individual and institution be upheld in the long run Or will the democratization and pluralization of the faith ultimately undermine the church This book explores how the ELCA attempts to resist the forces of Americanization in late modernity even as it slowly but surely comes to resemble mainstream American religion more and more

Tamney,2002-02-11 The recent growth and popularity of conservative churches contradicts the idea that late modern societies have outgrown the need for such relics of the past as traditionalist religions In this book Joseph Tamney offers an explanation for this this apparent incongruity by looking at the case of growing popular conservative Protestant congregations in the United States His findings represent a synthesis of ideas from supporters of secularization theory and from those who stress the competitive market of churches in America as a factor in church growth Theology, Fantasy, and the Imagination Austin M.
