The Conversion of Britain

Barbara Yorke, 2014-05-22 The Britain of 600 800 AD was populated by four distinct peoples the British Picts Irish and Anglo Saxons They spoke 3 different languages Gaelic Brittonic and Old English and lived in a diverse cultural environment In 600 the British and the Irish were already Christians

In contrast the conversion of the Anglo Saxons and Picts occurred somewhat later at the end of the 6th and during the 7th century Religion was one of the ways through which cultural difference was expressed and the rulers of different areas of Britain dictated the nature of the dominant religion in areas under their control This book uses the Conversion and the Christianisation of the different peoples of Britain as a framework through which to explore the workings of their political systems and the structures of their society Because Christianity adapted to and affected the existing religious beliefs and social norms wherever it was introduced it is the perfect medium through which to study various aspects of society that are difficult to study by any other means

Early Peoples of Britain and Ireland: H-Z Christopher Allen Snyder, 2008

The Cross Goes North Martin Carver, 2005 37 studies of the adoption of Christianity across northern Europe over 1000 years and the diverse reasons that drove the process In Europe the cross went north and east as the centuries unrolled from the Dingle Peninsula to Estonia and from the Alps to Lapland ranging in time from Roman Britain and Gaul in the third and fourth centuries to the conversion of peoples in the Baltic area a thousand years later These episodes of conversion form the basic narrative here History encourages the belief that the adoption of Christianity was somehow irresistible but specialists show the underside of the process by turning the spotlight from the missionaries who recorded their triumphs to the converted exploring their local situations and motives What were the reactions of the northern peoples to the Christian message Why would they wish to adopt it for the sake of its alliances In what way did they adapt the Christian ethos and infrastructure to suit their own community How did conversion affect the status of farmers of smiths of princes and of women Was society wholly changed or only in marginal matters of devotion and

superstition These are the issues discussed here by thirty eight experts from across northern Europe some answers come from astute re readings of the texts alone but most are owed to a combination of history art history and archaeology working together MARTIN CARVER is Professor of Archaeology University of York **Early Peoples of Britain and Ireland: A-G** Christopher Allen Snyder,2008 Cult Places and Cultural Change in Republican Italy Tessa Dieder Stek,2009 Summary This study throws new light on the Roman impact on Italic religious structures in the last four centuries BC and more generally on the complex processes of change and accommodation set in motion by the Roman expansion in Italy Cult places had a pivotal function among the various Italic tribes known to us from the ancient sources which had been gradually conquered and subsequently controlled by Rome Through an analysis of archaeological literary and epigraphic evidence from rural cult places in Central and Southern Italy including a case study on the Samnite temple of San Giovanni in Galdo the authors investigate the fluctuating function of cult places in among the non Roman Italic communities before and after the establishment of Roman rule **The Routledge Handbook of the Bioarchaeology of Human Conflict** Christopher Knüsel,Martin Smith,2013-12-17 If human burials were our only window onto the past what story would they tell Skeletal injuries constitute the most direct and unambiguous evidence for violence in the past Whereas weapons or defenses may simply be statements of prestige or status and written sources are characteristically biased and incomplete human remains offer clear and unequivocal evidence of physical aggression reaching as far back as we have burials to examine Warfare is often described as senseless and as having no place in society Consequently its place in social relations and societal change remains obscure The studies in The Routledge Handbook of the Bioarchaeology of Human Conflict present an overview of the nature and development of human conflict from prehistory to recent times as evidenced by the remains of past people themselves in order to explore the social contexts in which such injuries were inflicted A broadly chronological approach is taken from prehistory through to recent conflicts however this book is not simply a catalogue of injuries illustrating weapon development or a narrative detailing progress in warfare but rather provides a framework in which to explore both continuity and change based on a range of important themes which hold continuing relevance throughout human development

Christians and Pagans Malcolm D. Lambert,2010-06-29 *Christians and Pagans* offers a comprehensive and highly readable account of the coming of Christianity to Britain its coexistence or conflict with paganism and its impact on the lives of both indigenous islanders and invading Anglo Saxons The Christianity of Roman Britain so often treated in isolation is here deftly integrated with the history of the British churches of the Celtic world and with the histories of Ireland Iona and Pictland Combining chronicle and literary evidence with the fruits of the latest archaeological research Malcolm Lambert illuminates how the conversion process changed the hearts and minds of early Britain **Christianity in Roman Britain** David Petts,2003 Using the latest archaeological evidence David Petts traces the growth of Christianity in Roman Britain from its earliest beginnings to the end of Roman rule in the province and beyond
