News journalists and religious leaders reflect on their interactions with one another and their experiences of creating news. Through a series of original contributions leading practitioners shed light on how religious stories emerge into the public domain. Experienced journalists and religious representatives from different faith traditions critically consider their role in a rapidly evolving communicative environment. Aimed at journalists, faith representatives, religious leaders, academics and students, this book offers a timely exploration of the current state of religious news coverage and makes an original contribution to the emerging media, religion and culture literature as well as to media and communication studies. Religion and the News presents insights from leading journalists and religious leaders, many well known figures writing openly about their experiences. Contributors include Jolyon Mitchell, Director of the Centre for Theology and Public Issues, Edinburgh University; Christopher Landau, Religious Affairs Correspondent, BBC World Service; Andrew Brown, The Guardian Professor; Lord Harries of Pentregarth, former Bishop of Oxford; Dr Indarjit Singh, Director of the Network of Sikh Organisations; Rabbi Dr Jonathan Romain, Director Jewish Information and Media Service; Imam Monawar Hussain, Muslim Tutor, Eton College; Charlie Beckett, Director, Polis; Ruth Gledhill, Religion Correspondent, The Times; Catherine Pepinster, Editor, The Tablet; Riazat Butt, Religious Affairs Correspondent, The Guardian; Professor the Worshipful Mark Hill, QC, Barrister and Fellow, Centre for Law and Religion, Cardiff University.

Media and Religion Daniel Stout, 2013-06-17. This text examines the history, theory, cultural context and professional aspects of media and religion. While religion has been explored more fully in psychology, sociology, anthropology and the humanities, there is no clear bridge of understanding to the communication discipline. Daniel A. Stout tackles this issue by providing a roadmap for examining this understudied area so that discussions about media and religion can more easily proceed. Offering great breadth, this text covers key concepts and historical highlights, world religions, denominations and cultural religion, and religion and specific media genres. The text also includes key terms and questions to ponder for every chapter and concludes with an in-class learning activity that can be used to encourage students to explore the media-religion interface and review the essential ideas presented in the book. *Media and Religion* is an ideal introduction for undergraduate students in need of a foundation for this emerging field.

The Oxford Handbook of Religion and the American News Media Diane Winston, 2012-09-06. Whether the issue is the rise of religiously inspired terrorism, the importance of faith-based NGOs in global relief and development, or campaigning for evangelical voters in the U.S., religion proliferates in our newspapers and magazines, on our radios and televisions, on our computer screens and increasingly on our mobile devices. Americans who assumed society was becoming more and more secular have been surprised by religion's rising visibility and central role in current events. Yet this is hardly new: the history of American journalism has deep religious roots, and religion has long been part of the news mix. Providing a wide-ranging examination of how religion interacts with the news by applying the insights of history, sociology and cultural studies to an analysis of media, faith and the points at which they meet, *The Oxford Handbook of Religion and the American News Media* is the go-to volume for both secular and religious

journalists and journalism educators scholars in media studies journalism studies religious studies and American studies
Divided into five sections this handbook explores the historical relationship between religion and journalism in the USA how religion is covered in different media how different religions are reported on the main narratives of religion coverage and the religious press Publisher's website **Religion, Media, and Social Change** Kennet Granholm, Marcus Moberg, Sofia Sjö, 2014-09-19 In an era of heightened globalization macro level transformations in the general socioeconomic and cultural makeup of modern societies have been studied in great depth Yet little attention has been paid to the growing influence of media and mass mediated popular culture on contemporary religious sensibilities life and practice Religion Media and Social Change explores the correlation between the study of religion media and popular culture and broader sociological theorizing on religious change Contributions devote serious attention to broadly defined media including technologies institutions and social and cultural environments as well as mass mediated popular culture such as film music television and computer games This interdisciplinary collection addresses important theoretical and methodological questions by connecting the study of media and popular culture to current perspectives approaches and discussions in the broader sociological study of religion

Encyclopedia of American Journalism Stephen L. argues that television and newspapers remain key sources of popular information about religion. They are particularly significant at a time when religious participation in Europe is declining yet the public visibility and influence of religions seems to be increasing. Based on analysis of mainstream media, the book is set in the context of wider debates about the sociology of religion and media representation. The authors draw on research conducted in the 1980s and 2008-10 to examine British media coverage and representation of religion and contemporary secular values and to consider what has changed in the last 25 years. Exploring the portrayal of Christianity and public life, Islam and religious diversity, atheism and secularism, and popular beliefs and practices, several media events are also examined in detail: the Papal visit to the UK in 2010 and the ban of the controversial Dutch MP Geert Wilders in 2009. Religion is shown to be deeply embedded in the language and images of the press and television and present in all types of coverage, from news and documentaries to entertainment, sports reporting and advertising. A final chapter engages with global debates about religion and media.

Media Bias Wm. David Sloan, Jenn Burleson Mackay, 2016-03-24 In this book, scholars examine the many prevailing arguments about media bias from a non-polemical perspective. Essays cover individual forms of bias, including ideology, politics, television, photography, religion, abortion, homosexuality, gender, race, crime, environment, region, military, corporate ownership, labor, and health. Each essay introduces the topic, presents arguments for and against, the specific bias, assesses the evidence for all arguments, and includes a list of suggested readings. Two additional essays discuss the broader aspects of the bias debate and give a personal perspective on reporting the controversial Israeli-Palestinian conflict. [Evangelical News](#) Anja-Maria Bassimir, 2022-05-24 This work is an innovative treatise on the evangelical magazine market during the 1970s and 1980s and how it sustained religious community and ideology. Bassimir argues that community can be produced in discourse, especially when shared rhetoric, concepts, and perspectives signal belonging. The 1970s and 1980s were a tumultuous period in United States history. In spite of a dramatic political shift to the right, evangelicalism also entered the public discourse as a distinct religious movement and was immediately besieged by cultural appropriations and internal fragmentations. This was also a time when Americans in general and evangelicals in particular grappled with issues and ideas such as feminism and legal abortion, restructuring traditional roles for women and the family, the Watergate Crisis, and the newly emerging Christian Right, all of which threw politics into turmoil. During this time, there was a surge of readership for evangelical magazines such as *Christian Today*, *Moody Monthly*, *Eternity*, and *Post Americans*. Sojourners. While each of these magazines and many other publications contributes to and participates in the overall dissemination of evangelical ideology, they all also have their own outlooks and political leanings when it comes to hot-button issues. *Evangelical Visions* through a thoroughly researched lens makes important correctives to common understandings of evangelical discourse, particularly regarding the key political initiatives of the religious right. Bassimir demonstrates that within the pages of these periodicals, evangelicals hashed out a number of competing views on feminism.

abortion reproductive technologies and political involvement itself To accomplish this Evangelical Visions traces the emergence of evangelical social and political awareness in the 1970s to the height of its power as a political program The chapters in this monograph also delve into such topics as how evangelicals re envisioned gender norms and relations in light of the feminist movement and the use of childhood as a symbol of unspoiled innocence and the pure potential of humanity Presently most accounts of evangelicalism cite evangelical magazines only very selectively and virtually no studies make substantive use of those magazines as objects of investigation Bassimir s Evangelical Visions makes a much needed contribution to our understanding of evangelicalism in the late twentieth century by providing a nuanced picture of a religious subculture that is too often reduced to caricature This study is located at the intersection of history religious studies and media studies and will appeal to scholars and students of all of these fields **The Media and Religious Authority**

Stewart M. Hoover,2016-09-01 As the availability and use of media platforms continue to expand the cultural visibility of religion is on the rise leading to questions about religious authority Where does it come from How is it established What might be changing it The contributors to The Media and Religious Authority examine the ways in which new centers of power and influence are emerging as religions seek to brand themselves in the media age Putting their in depth incisive studies of particular instances of media production and reception in Asia Africa Latin America and North America into conversation with one another the volume explores how evolving mediations of religion in various places affect the prospects aspirations and durability of religious authority across the globe An insightful combination of theoretical groundwork and individual case studies The Media and Religious Authority invites us to rethink the relationships among the media religion and culture The contributors are Karina Kosicki Bellotti Alexandra Boutros Pauline Hope Cheong Peter Horsfield Christine Hoff Kraemer Joonseong Lee Alf Linderman Bah yyah Maroon Montr Aza Missouri and Emily Zeamer with an afterword by Lynn Schofield Clark **Religion and Politics in the Contemporary United States**

R. Marie Griffith,Melani McAlister,2008-06-09 This collection of essays from a special issue of American Quarterly explores the complex and sometimes contradictory ways that religion matters in contemporary public life Religion and Politics in the Contemporary United States offers a groundbreaking cross disciplinary conversation between scholars in American studies and religious studies The contributors explore numerous modes through which religious faith has mobilized political action They utilize a variety of definitions of politics ranging from lobbying by religious leaders to the political impact of popular culture Their work includes the political activities of a very diverse group of religious believers Christians Jews Muslims Hindus Buddhists and others In addition the book explores the meanings of religion for people who might contest the term those who are spiritual but not religious for example as well as activists who engage symbols of faith and community but who may not necessarily consider themselves members of a specific religion Several essays also examine the meanings of secular identity humanist politics and the complex evocations of civil religion in American life No other book on religion and politics includes anything like the diversity

of religions ethnicities and topics that this one does from Mormon political mobilization to attempts at Americanizing Muslims in the post 9 11 United States from C sar Ch vez to James Dobson from interreligious cooperation and conflict over Darfur to the global politics surrounding the category of Hindus and South Asians in the United States **Teaching**

Religion and Film Gregory J Watkins,2008-08-22 In a culture increasingly focused on visual media students have learned not only to embrace multimedia presentations in the classroom but to expect them Such expectations are perhaps more prevalent in a field as dynamic and cross disciplinary as religious studies but the practice nevertheless poses some difficult educational issues the use of movies in academic coursework has far outpaced the scholarship on teaching religion and film What does it mean to utilize film in religious studies and what are the best ways to do it In *Teaching Religion and Film* an interdisciplinary team of scholars thinks about the theoretical and pedagogical concerns involved with the intersection of film and religion in the classroom They examine the use of film to teach specific religious traditions religious theories and perspectives on fundamental human values Some instructors already teach some version of a film and religion course and many have integrated film as an ancillary to achieving central course goals This collection of essays helps them understand the field better and draws the sharp distinction between merely watching movies in the classroom and comprehending film in an informed and critical way *The ^ADisappearing God Gap?* Corwin Smidt, Kevin den Dulk, Bryan Froehle, James

Penning, Stephen Monsma, Douglas Koopman, 2010-02-08 In this book a team of well regarded scholars digs deeper to examine the role religion played in the 2008 campaign They take a long view placing the election in historical context and looking at the campaign as a whole from the primaries through all the way through election day At the heart of their analysis is data gleaned from a national survey conducted by the authors in which voters were interviewed in the spring of 2008 and then re interviewed after the election *Reading Religion in Text and Context* Elisabeth Arweck, Peter Jeffrey Collins, 2006

To what extent is religion inherently textual What might the term textual mean in relation to religious faith and practice These are the two key questions addressed by the eleven thought provoking essays collected in this volume Accounts of the content and structure of sacred texts are commonplace The rather more adventurous aim of this book is to disclose within the context of religion the various ways in which meaning can be read of more or less obviously sacred writing and from discourses such as the body the built and natural environment drama and ritual **Media, Home and Family** Stewart M.

Hoover, Lynn Schofield Clark, Diane F. Alters, 2012-09-10 Based on extensive fieldwork this book examines how parents make decisions regulating media use and how media practices define contemporary family life **Mass Media** James B.

Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature
