Poverty and Wealth in Judaism, Christianity, and Islam Nathan R. Kollar, Muhammad Shafiq, 2016-07-27 This book gathers scholars from the three major monotheistic religions to discuss the issue of poverty and wealth from the varied perspectives of each tradition It provides a cadre of values inherent to the sacred texts of Jews Christians and Muslims and illustrates how these values may be used to deal with current economic inequalities Contributors use the methodologies of religious studies to provide descriptions and comparisons of perspectives from Judaism Christianity and Islam on poverty and wealth The book presents citations from the sacred texts of all three religions The contributors discuss the interpretations of these texts and the necessary contexts both past and present for deciphering the stances found there Poverty and Wealth in Judaism Christianity and Islam identifies and details a foundation of common values upon which individual and institutional decisions may be made **Wealth, Poverty, and Human Destiny** Doug Bandow, David Schindler, 2014-05-06 The rapid spread of the liberal market order across the globe poses a host of new and complex questions for religious believers indeed for anyone

concerned with the intersection of ethics and economics Is the market economy particularly as it affects the poor fundamentally compatible with Christian moral and social teaching Or is it in substantial tension with that tradition In *Wealth Poverty and Human Destiny* editors Doug Bandow and David L Schindler bring together some of today s leading economists theologians and social critics to consider whether the triumph of capitalism is a cause for celebration or concern Michael Novak Richard John Neuhaus Max Stackhouse and other defenders of democratic capitalism marshal a number of arguments in an attempt to show that among other things capitalism is more Christian in its foundation and consequences than is conceded by its critics that as Stackhouse and Lawrence Stratton write the roots of the modern corporation lie in the religious institutions of the West and that as Novak contends globalization is the natural ecology of Christianity The critics of liberal economics argue on the other hand that it is historically and theologically shortsighted to consider the global capitalist order and the liberalism that sustains it as the only available option Any system which has as its implicit logic that stable and preserving relationships among people places and things do not matter and are of no worth in the words of Wendell Berry should be regarded with grave suspicion by religious believers and all men and women of goodwill Bandow and Schindler take up these arguments and many others in their responses which carefully consider the claims of the essayists and thus pave the way for a renewed dialogue on the moral status of capitalism a dialogue only now re emerging from under the Cold War rubble The contributors fresh insightful examinations of the intersection between religion and economics should provoke a healthy debate about the intertwined issues of the market globalization human freedom the family technology and democracy *Religion and Life with Christianity and Islam* Ina Taylor,2005 At the right depth for Religion and Life options Religion and Life with Christianity and Islam provides everything you need for Unit A of the Edexcel specification without any redundant material *The Problem of Wealth* Hinson-Hasty, Elizabeth L.,2017-09-14 The problem is wealth not poverty Introducing the problem of wealth The centrality of economics in Christian theology Economism and the ethic of scarcity When why and how The boundary between economics and theology The current dominant forms of wealth creation and the ethic of scarcity Digging for roots to nourish an ethic of enough Social trinity love and the ethic of enough Extensive roots ecocentric and theocentric visions of economy from a wider variety of the world s great faith traditions Increasing the theological and moral imagination of the U S middle class Real people embodying different values Parables for sharing Concluding observations and a call to action **Religion, Wealth and Poverty** James V. Wealth Creation William Luckey, 2017-10-09 Care for the poor has been a hallmark of Christianity since its beginning Yet the economic world that provides the context for both Christianity and poverty has changed dramatically since the time of Christ Professor William Luckey helps us to understand that context by tracing the history of Christian thought on poverty and wealth as well as the history of wealth creation The creation of wealth requires not only technical expertise and innovation but also social and cultural support By fostering the attitudes and institutions that provide the context for wealth creation the Church can make a special contribution to care for the poor Luckey offers an informed reflection on how Catholics and other Christians might more effectively promote this wealth creative culture one that will in turn more effectively lift our brothers and sisters in need out of poverty and desperation If Catholics are serious about improving the lives of the poor he insists we must be serious about understanding the sources of wealth creation
