Religious Quest:

The Religious Quest Whitfield Foy, 1988 *Africa's Social and Religious Quest* Randee Ijatuyi-Morphé, 2014-01-30 This well crafted book probes the key dimensions of Africa's existential predicament. It constitutes an intellectual response to a gnawing African situation, the starting point for grasping Africa's social and religious quest. Beyond split explanations of external versus internal factors, e.g. colonization, slavery vs. leadership, cultural values, this study accounts more comprehensively for emergent issues shaping this situation. The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality, politics and destinies vis-à-vis the cosmos and nature. Thus African religion and communities, each with its own attendant values, do not operate by critical engagement with larger issues of society and civilization, especially those shaped by the advent of post-modernity. Rather, they operate via adaptation. The communal drive for natural and social harmony inevitably produces a preservationist view of culture, leaving things as they are. This study takes an integrative approach to religion, society and civilization, eschews dichotomies and broadly defines and re-signifies life and wholeness as a true end of Africans' quest today. **Man's Religious Quest** Whitfield Foy, 1977

The Sacred Quest, 1991 *Is the Quest for Meaning the Quest for God?* Wessel Stoker, 1993 **The Religious Quest** Joyce Kenrick, 1955 *The Gospel of John and the Religious Quest* Johannes Nissen, 2013-09-24 The Gospel of John and the Religious Quest argues that at its origin the Fourth Gospel was part of a dialogue with various religious traditions and that to this day it is being used in active dialogue with those who live in traditions other than the Christian. In the first part of the book, Johannes Nissen analyzes a number of texts selected both for their central importance to John's theology and for their special relevance in today's religious quests and encounters. These texts focus on John's images of Life, water, bread, light, way and tree, but also treat concepts that are crucial to the Fourth Gospel: Word, Truth and Love. In the second part, Nissen focuses on significant issues for current readers of the Gospel: the relation between incarnation and inculturation, models for dialogue with other religions, images of Christ, truth and love as criteria for dialogue and the experience of faith in the light of the Fourth Gospel. *Rousseau and the Religious Quest* Ronald Grimsley, 1968 *The Religious Quests of the Graeco-Roman World* Samuel Angus, 1929 **Man's Religious Quest**, 1977 *the religious quest of india* J.N. Farquhar, 1923 **Is the Quest for Meaning the Quest for God?** W. Stoker, 1996 Traditionally, religion was the supplier of meaning. It is often said that the quest for meaning is at bottom a quest for God, a quest that can only find an adequate answer in religion. But then what is the alternative for those who reject religion? Emptiness and meaninglessness, as Nietzsche succinctly formulated it. We have killed God. Are we not straying as through an infinite nothing? In the meantime, non-believers have found a solution for the crisis in meaning. People are not usually nihilists but live their lives and consider them to be meaningful without religion. This study is concerned with determining once again the place of the ascription of meaning from the perspective of the Christian faith in its relation to the non-religious ascription of meaning. For this purpose, an analysis is given of contemporary

theological and philosophical views of the problem of meaning The crisis of meaning as it has arisen in Nietzsche and the theatre of the absurd is examined Stoker also discusses contemporary forms of the ascription of meaning without religion such as self actualization and functional rationality as sources of meaning Stoker rejects an apologetics of need He posits that the Christian faith does not have an exclusive right to the ascription of meaning but this obtains also for secular forms of the ascription of meaning such as humanism Is God then the ultimate concern of each person From the perspective of the Christian faith yes but this does not mean that the non religious ascription of meaning as such must be viewed negatively Stoker illustrates how the religious and the non religious ascriptions of meaning are similar and how they differ Both are intended to be the source of meaning for human questions of life and death With respect to their differences the author demonstrates that the ascription of meaning from the perspective of the Christian faith does not entail a disqualification of a non religious worldview but is intended to make people more human

John Wesley's Religious Quest Thomas Reed Jeffery, 1960 *Malthus, Medicine & Morality* Brian Dolan, 2000 Thomas Robert Malthus's reputation has lately been rehabilitated in the fields of social biology demography environmentalism and economics In the midst of this current interest and with the chance to mark the occasion of the bicentenary of the first edition of the *Essay on Population* 1798 the contributors to this volume take this timely opportunity to examine the historical conditions in which Malthus constructed his theory and in which the concept of a Malthusian and Neo Malthusian philosophy first emerged The essays redress the balance between Malthus's original argument the immediate responses to Malthus by medics and theologians in Britain and on the Continent and some of the ways that his ideas were later attacked appropriated or misrepresented Included here are essays that not only re evaluate the development of Malthus's theory but also offer critical perspectives on the generation of the Malthusian league and debates about birth control in Britain and on the Continent and Malthus's influence on the emergence of social science and Darwinian evolutionary biology

The Quest Mircea Eliade, 1984-05-15 In *The Quest* Mircea Eliade stresses the cultural function that a study of the history of religions can play in a secularized society He writes for the intelligent general reader in the hope that what he calls a new humanism will be engendered by a confrontation of modern Western man with unknown or less familiar worlds of meaning Each of these essays contains insights which will be fruitful and challenging for professional students of religion but at the same time they all retain the kind of cultural relevance and clarity of style which makes them accessible to anyone seriously concerned with man and his religious possibilities

Joseph M Kitagawa Religious Education **The Science of Religion, Spirituality, and Existentialism** Kenneth E. Vail III, Clay Routledge, 2020-04-04 *The Science of Religion Spirituality and Existentialism* presents in depth analysis of the core issues in existential psychology their connections to religion and spirituality e.g. religious concepts beliefs identities and practices and their diverse outcomes e.g. psychological social cultural and health Leading scholars from around the world cover research exploring how fundamental existential issues are both cause and consequence of religion and spirituality

Mark Richardson, 2002 Addressing fundamental questions about life this unique volume examines the way in which distinguished scientists of different faiths explore the connections between science ethics spirituality and the divine *The Religious Quest of India (Classic Reprint)* J. N. Farquhar, 2015-07-02 Excerpt from The Religious Quest of India The writers of this series of volumes on the variant forms of religious life in India are governed in their work by two impelling motives I They endeavour to work in the sincere and sympathetic spirit of science They desire to understand the perplexingly involved developments of thought and life in India and dispassionately to estimate their value They recognize the futility of any such attempt to understand and evaluate unless it is grounded in a thorough historical study of the phenomena investigated In recognizing this fact they do no more than share what is common ground among all modern students of religion of any repute But they also believe that it is necessary to set the practical side of each system in living relation to the beliefs and the literature and that in this regard the close and direct contact which they have each had with Indian religious life ought to prove a source of valuable light For until a clear understanding has been gained of the practical influence exerted by the habits of worship by the practice of the ascetic devotional or occult discipline by the social organization and by the family system the real impact of the faith upon the life of the individual and the community cannot be estimated and without the advantage of extended personal intercourse a trustworthy account of the religious experience of a community can scarcely be achieved by even the most careful student II

They seek to set each form of Indian religion by the side of Christianity in such a way that the relationship may stand out clear About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
