Religious Aesthetics A Theological Study Of Making And Mea:

Religious Aesthetics Frank Burch Brown, 1993-05-09 In this groundbreaking work Brown shows how aesthetics no less than ethics can play a central role in the study of religion and in the practice of theology An important book wide ranging often very witty showing an impressive grasp of the current state of aesthetics and possible new directions Nick McAdoo British Journal of Aesthetics

Theological Aesthetics Richard Viladesau, 1999 This book explores the role of aesthetic experience in our perception and understanding of the holy Richard Viladesau's goal is to articulate a theology of revelation examined in relation to three principal dimensions of the aesthetic realm feeling and imagination beauty or taste and the arts After briefly considering ways in which theology itself can be imaginative or beautiful Viladesau concentrates on the theological significance of aesthetic data provided by each of the three major spheres of aesthetic perception and response Throughout the work the underlying question is how each of these spheres serves as a source however ambiguous of revelation Although he frames much of his argument in terms of Catholic theology from the Church Fathers to Karl Rahner Hans Urs von Balthasar Bernard Lonergan and David Tracy Viladesau also makes extensive use of ideas from the Protestant theologian of the arts Gerardus van der Leeuw and draws insights from such diverse thinkers as Hans Georg Gadamer Wolfhart Pannenberg and Iris Murdoch His analysis is enlivened by the artistic examples he selects the music of Mozart as contemplated by Karl Barth Schoenberg's opera Moses und Aron the sculptures of Chartres Cathedral poems by Rilke and Michelangelo and many others What emerges from this study is what Viladesau terms a transcendental theology of aesthetics In Thomistic terms he finds that beauty is not only a perfection but a transcendental That is any instance of beauty rightly perceived and rightly understood can be seen to imply divinely beautiful things as well In other words Viladesau argues God is the absolute and necessary condition for the possibility of beauty

Music as Theology Maeve Louise Heaney, 2012-09-01 The conversation between music and theology dormant for too long in recent years is at last gathering pace And rightly so There will always be theologians who will regard music as a somewhat peripheral concern too trivial to trouble the serious scholar and in any case almost impossible to engage because of its notorious resistance to words and concepts But an increasing number are discovering again what many of our forbears realized centuries ago that the kinship between this pervasive feature of human life and the search for a Christian intelligence of faith is intimate and ineradicable Maeve Heaney's ambitious wide ranging and energetic book pushes the conversation further forward still Her approach is unapologetically theological grounded in the passions and concerns of mainstream doctrinal theology And yet she is insisting that music must be given its due place in the ecology of theology Although convinced that music should not be set up as a rival to linguistic or conceptual articulation let alone swallow up traditional modes of theological language and thought she is equally convinced that music is an irreducible means of coming to terms with the world a unique vehicle of world disclosure and as such can generate a particular form of understanding there are things which God may only be saying through music If

this is so it is incumbent on the theologian to listen Jeremy Begbie from the Foreword

The Oxford Handbook of Religion and the Arts Frank Burch Brown, 2018 This volume offers 37 original essays from leading scholars on the crucial topics issues methods and resources for studying and teaching religion and the arts

The Aesthetics of Discipleship Adrian Coates, 2021-09-30 Discipleship is embodied Formation in the Christian life is not an otherworldly exercise but one that plays out in this world interwoven with everyday sensory experience in ordinary life The Aesthetics of Discipleship explores this dynamic through Kierkegaard's framing of aesthetic existence the sensory experience of being in the moment further developed by Bonhoeffer as operating within a realm of freedom encompassing not only art but play friendship and cultural formation In addition to Kierkegaard and Bonhoeffer the work of Iain McGilchrist Graham Ward and Nicholas Wolterstorff is employed to offer a fresh perspective on discipleship from below Everyday sensory experiences are integral not only to being human but to the practice of discipleship such that discipleship integrates aesthetic ethical and religious existence Aesthetic existence unhinged from a life of faith or fueled by distorted Christendom creates and sustains aestheticized pseudorealities centered on the self Mature aesthetic existence however anchored in love for God plays a fundamental role in the Christian life both as the incarnational celebration of being fully human and also through the preconscious formation of imaginaries by which we live

The Oxford Handbook of Natural Theology Russell Re Manning, 2013-01-17 The Oxford Handbook of Natural Theology is the first collection to consider the full breadth of natural theology from both historical and contemporary perspectives and to bring together leading scholars to offer accessible high level accounts of the major themes The volume embodies and develops the recent revival of interest in natural theology as a topic of serious critical engagement Frequently misunderstood or polemicized natural theology is an under studied yet persistent and pervasive presence throughout the history of thought about ultimate reality from the classical Greek theology of the philosophers to twenty first century debates in science and religion Of interest to students and scholars from a wide range of disciplines this authoritative handbook draws on the very best of contemporary scholarship to present a critical overview of the subject area Thirty eight new essays trace the transformations of natural theology in different historical and religious contexts the place of natural theology in different philosophical traditions and diverse scientific disciplines and the various cultural and aesthetic approaches to natural theology to reveal a rich seam of multi faceted theological reflection rooted in human nature and the environments within which we find ourselves

Theology and the Arts Richard Viladesau, 2000 In recent years the topic of beauty has come into increasing prominence in a number of fields including theology This book explores several aspects of the relation between theology and aesthetics in both the pastoral and academic realms The underlying motif of the book is that beauty is a means of divine revelation and that art is the human mediation that both enables and limits its revelatory power Using examples from music pictorial art and rhetoric the five chapters explore different aspects of the ways that art enters into theology and theology into art both in pastoral practice for

example liturgical music sacred art and preaching and in the realm of systematic reflection where the author contends art must be recognized as a genuine theological text The central chapters are followed by a discography of illustrative musical works and lists of Internet sites of sacred art and art history resources that will complement the text BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Grace of Playing* Courtney T.

Goto,2016-02-10 Believers and teachers of faith regularly know the in breaking of God s Spirit in their midst when revelatory experiencing unexpectedly shifts habits of thinking feeling and doing toward more life giving ways of being and becoming When the moment is right Spirit breathes new life into dry bones Though religious educators have much practical wisdom about facilitating learning that is creative and transformative sharper concepts cases and theory can help them do it more critically and assist learners to practice openness to wonder surprise and authenticity The Grace of Playing explains how we can create the conditions for revelatory experiencing by understanding it in light of playing The notion of playing as if can be powerfully reclaimed from ecclesial ambivalence casual speech and commercial interests that often lead playing to be associated with childishness frivolity or entertainment This book theorizes adults playing for the sake of faith drawing on D W Winnicott s psychoanalytic theory a revision of Jurgen Moltmann s theology of play biblical texts medieval devotional practices as well as art and aesthetics that help local faith communities engage in theological reflection Communal forms of playing in at God s new creation provide insights into pedagogies in which learners are creating and are created anew

Visual Piety David Morgan,1999-09-25 Drawing from the fields of music sociology theology philosophy psychology and aesthetics VISUAL PIETY is the first book to bring to specialist and lay reader alike an understanding of religious imagery s place in the social formation and maintenance of everyday American life from Warner Sallman s Head of Christ to velvet renditions of DaVinci s Last Supper to prayer card illustrations and much more 69 illustrations **Images of Redemption**

Patrick Sherry,2003-05-01 After discussing the arts of redemption and their rivals and introducing soteriology the theology of salvation Patrick Sherry argues that the Christian Drama of Redemption has three Acts The next five chapters discuss the three Acts namely salvation history our present human life and the life to come In each case Sherry explains how art and literature can lead to an understanding of what is at stake here His main concern is with the present life hence three of those chapters deal with that phase of redemption one of them specifically with novels of redemption The last substantial chapter of the book takes up the general issue of how art and literature contribute to religious understanding Sherry argues that they may be primary expressions of religious belief as well as illustrations and that as such they may criticise or complement theology or in turn be open to criticism themselves from that quarter Finally he summarises the main theme and briefly discusses some of the particular problems of assessing the arts of redemption The book s most distinctive feature is the way in which it uses art and literature as a means of religious and theological understanding It is not a survey of the arts of redemption though it uses a wide variety of examples including ancient Greek drama Flemish and Italian painting religious

music and 19th 20th century novels These examples are used as a tool for understanding what is one of the most difficult areas of theology

Shaping Public Theology Max L. Stackhouse, 2014-01-30 Max L Stackhouse is one of the most prolific and influential American theologians of the last half century and he has been widely recognized for his contributions to the emerging field of public theology This volume compiles some of Stackhouse s most significant shorter writings These selections make clear his central role in the development of public theology as a distinct disciplinary perspective in the fields of Christian theology and theological ethics Shaping Public Theology serves as an introduction to Stackhouse s extensive corpus readers will see the depth and breadth of his comprehensive public theology while also gaining insight into his singular importance for the field

A Sense of the Sacred R. Kevin Seasoltz, 2005-04-13 There have been many histories of Christian art and architecture but none written by a theologian such as Kevin Seasoltz Following a chapter on culture as the context for theology liturgy and art Seasoltz surveys developments from the early church up through the conventional artistic styles and periods Comprehensive illuminating ecumenical

Sense and Spirituality James McCullough, 2015-06-02 There is growing interest in the relationship between the arts and Christian faith Much has been written about the arts and theology and the place of the arts in church life Not as much has been written however about how the arts might actually advance spiritual formation in terms of the cumulative effect of religious experience and intentional practices This book provides a modest step forward in that conversation a conversation between theological aesthetics and practical theology Understanding aesthetics as the realm of sense perception and spiritual formation as growing capacities to participate in God s purposes James McCullough suggests how these dynamics can mutually enhance each other with the arts as an effective catalyst for this relationship McCullough proposes an analysis of artistic communication and explores exciting examples from music poetry and painting which render theoretical proposals in concrete terms This book will engage both those new to the arts and those already deeply familiar with them

Living Poetically Sylvia Walsh, 2012-04-30 Living Poetically is the first book to focus primarily on Kierkegaard s existential aesthetics as opposed to traditional aesthetic features of his writings such as the use of pseudonyms literary techniques and figures and literary criticism Living Poetically traces the development of the concept of the poetic in Kierkegaard s writings as that concept is worked out in an ethical religious perspective in contrast to the aesthetics of early German romanticism and Hegelian idealism Sylvia Walsh seeks to elucidate what it means in Kierkegaard s view to be an authentic poet in the form of a poetic writer and to clarify his own role as a Christian poet and writer as he understood it Walsh shows that in spite of strong criticisms made of the poetic in some of his writings Kierkegaard maintained a fundamentally positive understanding of the poetic as an essential ingredient in ethical and religious forms of life Walsh thus reclaims Kierkegaard as a poetic thinker and writer from those who would interpret him as an ironic practitioner of an aestheticism devoid of and detached from the ethical religious as well as from those who view him as rejecting the poetic and aesthetic on ethical or religious grounds Viewing contemporary postmodern feminism and

deconstruction as advocating a romantic mode of living poetically Walsh concludes with a feminist reading of Kierkegaard that affirms both individuality and relatedness commonalities and differences between the self and others men and women for the fashioning of an authentic mode of living poetically in the present age **Divine Beauty** Daniel A. Dombrowski,2004 Offers the first detailed explication of Charles Hartshorne s aesthetic theory and its place within his theocentric philosophy

The Oxford Handbook of Religion and Emotion John Corrigan,2008 This volume collects essays under four categories religious traditions religious life emotional states and historical and theoretical perspectives They describe the ways in which emotions affect various world religions and analyse the manner in which certain components of religious represent and shape emotional performance **Sor Juana** Gonzalez, Michelle A.,2014-04-10 Sor Juana In s de la Cruz a seventeenth century

Mexican nun is one of the most compelling figures of her age A prolific writer a learned scholar and the first woman theologian of the Americas she was also a defender of the dignity and rights of women in the midst of a fiercely patriarchal culture In this study Michelle Gonzalez examines Sor Juana s contributions as a foremother of many currents of contemporary theology In particular in joining aesthetics with the quest for truth and justice her work and witness suggest new avenues for Hispanic feminist and other liberation theologies *Companion Encyclopedia of Theology* Peter

Byrne,Leslie Houlden,Rev Prof Leslie Houlden,2002-09-11 In 48 separately authored self contained articles by an international team of both Christian and Jewish theologians and practitioners this Companion provides a thorough examination of the place of Christianity in the modern world **Encyclopedia of Love in World Religions** Yudit Kornberg

Greenberg,2007-11-15 This is the first comprehensive resource on the subject of love in the teachings of the world s major religions cultures and philosophies Encyclopedia of Love in World Religions is the first reference work to offer a comprehensive portrait of love in the context of the classic and contemporary literature of Judaism Christianity Islam Buddhism and Hinduism as well as other cultures and philosophies Like no volume published to date it reveals the full richness of religious teachings on love in all its many forms exploring an extensive range of topics that offer philosophical psychological and religious perspectives to guide the quest for the meaning of love Encyclopedia of Love in World Religions features approximately 300 subject entries as well as insightful biographic sketches of preeminent thinkers all written by a multidisciplinary team of some of the foremost scholars on the subject Entries examine both general and culture specific interpretations of love not just the dichotomy of spiritual and physical love but the full emotional spectrum of love in relationships and practices Collectively they encompass love s integral and sometimes conflicting role in shaping beliefs and behavior in a vastly diverse world **Musicology of Religion** Guy L. Beck,2023-05-01 For generations religion and music

have been regarded as universals yet despite the fact that they have been frequently linked throughout history and topography and despite the importance of music in the early stages of religious studies their combined presence has not until now been considered a separate area of study and research While there are well developed fields of anthropology of religion

psychology of religion and philosophy of religion the widely recognized connections between religion and sound chant and music warrant comparable study Drawing upon theories and methods in the study of both religion and music referencing examples from world religious traditions and addressing challenges posed by critics this book envisions a unified field for religion and music musicology of religion Grounded in the scope and methods of phenomenology and comparative analysis musicology of religion represents an innovative direction in interdisciplinary study enriched by the social sciences ethnomusicology philosophy theology liturgical studies and cognitive studies As conceived musicology of religion will spearhead new and creative paths in the study of religion
