Religious Conviction:

An Essay on the Profession of Personal Religious Conviction and Upon the Separation of Church & State Alexandre Rodolphe Vinet, 1843 *Religious Conviction in Liberal Politics* Christopher J. Eberle, 2002-05-02 What role should a citizen's religious convictions play in her political activities Is she for example permitted to decide on the basis of her religious convictions to support laws that criminalize abortion or discourage homosexual relations Christopher Eberle is deeply at odds with the dominant orthodoxy among political theorists about the relation of religion and politics His argument is that a citizen may responsibly ground her political commitments on religious beliefs even if her only reasons for her political commitments are religious in nature His ideal of citizenship allows citizens to engage in politics without privatizing their religious commitments and yet does not license mindless and intransigent sectarianism An inherently controversial book that offers a substantial challenge to political liberalism it will be read by students and professionals in philosophy political science law and religious studies and general readers seeking insight into the relationship between religious commitments and liberal politics Religious Convictions and Political Choice Kent Greenawalt, 1991 How far may Americans properly rely on their religious beliefs when they make and defend political decisions Are decisions based on religious convictions compatible with liberal democratic premises Kent Greenawalt dissects such issues as abortion and animal rights to illustrate secular and religious bases for decision making concluding that citizens cannot be expected to rely exclusively on rational secular grounds **Shakespeare and the Theater of Religious Conviction in Early Modern England** Walter S H Lim, 2023-12-19 This book analyzes Shakespeare's use of biblical allusions and evocation of doctrinal topics in Hamlet Measure for Measure The Winter's Tale Richard II and The Merchant of Venice It identifies references to theological and doctrinal commonplaces such as sin grace confession damnation and the Fall in these plays affirming that Shakespeare's literary imagination is very much influenced by his familiarity with the Bible and also with matters of church doctrine This theological and doctrinal subject matter also derives its significance from genres as diverse as travel narratives sermons political treatises and royal proclamations This study looks at how Shakespeare's deployment of religious topics interacts with ideas circulating via other cultural texts and genres in society It also analyzes how religion enables Shakespeare's engagement with cultural debates and political developments in England absolutism and law radical political theory morality and law and conceptions of nationhood *Religious Belief and Science* Glenn H. Death Anxiety and Religious Belief Jonathan Jong, Jamin Halberstadt, 2016-08-25 There are no atheists in foxholes or so we hear The thought that the fear of death motivates religious belief has been around since the earliest speculations about the origins of religion There are hints of this idea in the ancient world but the theory achieves prominence in the works of Enlightenment critics and Victorian theorists of religion and has been further developed by contemporary cognitive scientists Why do people believe in gods Because they fear death Yet despite the abiding appeal of this simple hypothesis there has not been a systematic attempt to evaluate its central claims and the assumptions underlying them Do human beings fear death If so who fears death more religious or nonreligious people Do reminders of our mortality really motivate religious belief Do religious beliefs actually provide comfort against the inevitability of death In *Death Anxiety*

and Religious Belief Jonathan Jong and Jamin Halberstadt begin to answer these questions drawing on the extensive literature on the psychology of death anxiety and religious belief from childhood to the point of death as well as their own experimental research on conscious and unconscious fear and faith In the course of their investigations they consider the history of ideas about religion s origins challenges of psychological measurement and the very nature of emotion and belief
