Remains Historical Literary Connected With the Palatine Counties of Lancaster and Chester, Vol. 9 (Classic Reprint) Chetham Society,2015-07-21 Excerpt from Remains Historical Literary Connected With the Palatine Counties of Lancaster and Chester Vol 9 The MSS here printed are a portion of a much larger collection made by several generations of the family of Norris of Speke These documents are said to have been distributed when the estate fifty years ago passed into the hands of Mr Watt They have since fallen into the hands of auctioneers booksellers and virtuosi and are now diminished in number and separated beyond the possibility of ever again being collected so as to form a connected

series Fortunately the Corporation of Liverpool and Mr Norris of Manchester are the possessors of many of the Papers and the Chetham Society have to acknowledge the very liberal manner with which these MSS have been placed at their disposal for publication A few of the earlier documents are printed but the great interest of the book is the insight which it affords into the characters and actions of the men who at the close of the seventeenth and the beginning of the succeeding century founded Liverpool Defoe whose visit is alluded to in the following correspondence 1705 has left on record his surprise at the change which this little community of merchants had effected though opposed by what appeared to him almost insurmountable natural difficulties About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Remains, Historical and Literary, Connected with the Palatine Counties of Lancaster & Chester Chetham Society, 2019-02-23 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Remains, Historical and Literary, Connected with the Palatine Counties of Lancaster and Chester* Chetham Society, 2016-05-07 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We
