Remaking American Communities David C.

Soule, 2007-11-01 Urban sprawl has gained much national attention in recent years. Sprawl involves not only land use issues but also legal, political, and social concerns. It affects our schools, the environment, and race relations. Comprehensive enough for high school students and also appropriate for college undergraduates, *Remaking American Communities* delves into the challenges of urban sprawl by turning to some of America's top thinkers on the problem, including Robert Yaro, president of the Regional Plan Association. Other cutting-edge essays include a foreword about the emergence of sprawl by nationally syndicated columnist Neal Peirce, views about race and class by former mayor of Albuquerque David Rusk, and a discussion of transportation dynamics by Curtis Johnson, president of the CitiStates Group. The essays in this collection explore the core issues of sprawl and the agenda for dealing with it. Complete with a glossary, resources, and contact information for smart growth alliances, this book is extremely user-friendly. David C. Soule offers an unbiased viewpoint of this national phenomenon in a way that will be accessible to students and those with little background in the issue.

Remaking America Sven R.

Larson, 2010-09-02 Despite the American left's admiration of the Swedish welfare state, no one has told its true story yet. Until now, Sven R. Larson reveals the dark side of the welfare state: how government-run health care turns patients into budget items and corpses; how government defaults on promise after promise; crime is rampant; 500 schools are burned to the ground every year; and children grow up with no loyalty to their country. Larson explains how politicians turn to fiscal fascism to save the welfare state from the people who depend on it.

Remaking America Joe Soss, Jacob S. Hacker, Suzanne Mettler, 2007-11-08

Over the past three decades, the contours of American social, economic, and political life have changed dramatically. The post-war patterns of broadly distributed economic growth have given way to stark inequalities of income and wealth. The GOP and its allies have gained power and shifted U.S. politics rightward, and the role of government in the lives of Americans has changed fundamentally. *Remaking America* explores how these trends are related, investigating the complex interactions of economics, politics, and public policy. *Remaking America* explains how the broad restructuring of government policy has both reflected and propelled major shifts in the character of inequality and democracy in the United States. The contributors explore how recent political and policy changes affect not just the social standing of Americans but also the character of democratic citizenship in the United States today. Lawrence Jacobs shows how partisan politics, public opinion, and interest groups have shaped the evolution of Medicare but also how Medicare itself restructured health politics in America. Kimberly Morgan explains how highly visible tax policies created an opportunity for conservatives to lead a grassroots tax revolt that ultimately eroded the revenues needed for social welfare programs. Deborah Stone explores how new policies have redefined participation in the labor force as opposed to fulfilling family or civic obligations as the central criterion of citizenship. Frances Fox Piven explains how low-income women remain creative and vital political actors in an era in which

welfare programs increasingly subject them to stringent behavioral requirements and monitoring Joshua Guetzkow and Bruce Western document the rise of mass incarceration in America and illuminate its unhealthy effects on state social policy efforts and the civic status of African American men For many disadvantaged Americans who used to look to government as a source of opportunity and security the state has become increasingly paternalistic and punitive Far from standing alone their experience reflects a broader set of political victories and policy revolutions that have fundamentally altered American democracy and society Empirically grounded and theoretically informed *Remaking America* connects the dots to provide insight into the remarkable social and political changes of the last three decades **Remaking America** John E.

Bodnar,1994-01-16 In a compelling inquiry into public events ranging from the building of the Vietnam Veterans Memorial through ethnic community fairs to pioneer celebrations John Bodnar explores the stories ideas and symbols behind American commemorations over the last century Such forms of historical consciousness he argues do not necessarily preserve the past but rather address serious political matters in the present Publisher description **Remaking American Power** John

Theater Scott T. Cummings,2006-08-17 Publisher description *Making and Remaking America: Immigration into the United States* , During the 1980s and 1990s the U S Congress responded to growing gaps between immigration policy and immigration reality by making major changes in immigration laws and their administration In 1986 the United States enacted the world s largest legalization program for unauthorized foreigners and introduced sanctions on employers who knowingly hired illegal foreign workers Instead of slowing illegal immigration however this program allowed more foreigners to arrive legally and illegally which prompted another round of reforms in 1996 aimed at ensuring that new arrivals would not receive welfare payments On September 11 2001 foreigners in the United States hijacked four commercial planes Two were flown into the World Trade Center towers in New York City bringing them down and killing 3 000 people President George W Bush declared war on terrorists and the countries that harbor them and Congress enacted legislation to fight terrorism This includes new measures for tightening procedures for issuing visas to foreign visitors tracking foreign students and visitors while they are in the United States and giving immigration authorities new power to arrest and detain foreigners suspected of ties to terrorism The Immigration and Naturalization Service was abolished and its functions of preventing illegal immigration and providing services to foreign visitors and immigrants were separated in the new Department of Homeland

Security However anti terrorism measures have not slowed immigration to the United States America is poised to remain the world s major destination for immigrants and as patterns in U S history suggest most of the newcomers will soon become Americans However past success in integrating immigrants does not guarantee that integrating newcomers will be easy or automatic As immigrants continue to make and remake the country the United States must develop an immigration policy for the twenty first century BOOK JACKET *Women Remaking American Judaism* Riv-ElLEN Prell,2007-08-20 The rise of Jewish feminism a branch of both second wave feminism and the American counterculture in the late 1960s had an extraordinary impact on the leadership practice and beliefs of American Jews *Women Remaking American Judaism* is the first book to fully examine the changes in American Judaism as women fought to practice their religion fully and to ensure that its rituals texts and liturgies reflected their lives In addition to identifying the changes that took place this volume aims to understand the process of change in ritual theology and clergy across the denominations The essays in *Women Remaking American Judaism* offer a paradoxical understanding of Jewish feminism as both radical in the transformational sense and accomodationist in the sense that it was thoroughly compatible with liberal Judaism Essays in the first section Reenvisioning Judaism investigate the feminist challenges to traditional understanding of Jewish law texts and theology In Redefining Judaism the second section contributors recognize that the changes in American Judaism were ultimately put into place by each denomination their law committees seminaries rabbinic courts rabbis and synagogues and examine the distinct evolution of women s issues in the Orthodox Conservative Reform and Reconstructionist movements Finally in the third section Re Framing Judaism essays address feminist innovations that in some cases took place outside of the synagogue An introduction by Riv Ellen Prell situates the essays in both American and modern Jewish history and offers an analysis of why Jewish feminism was revolutionary *Women Remaking American Judaism* raises provocative questions about the changes to Judaism following the feminist movement at every turn asking what change means in Judaism and other American religions and how the fight for equality between men and women parallels and differs from other changes in Judaism *Women Remaking American Judaism* will be of interest to both scholars of Jewish history and women s studies **Publications of Members and Graduates of the Department of History, Political Economy and Political Science, 1915** Johns Hopkins University,1915 **The Making of an American School-teacher** Forrest Crissey,1906 **Noncitizen Voting and American Democracy** Stanley A. Renshon,2009-08-16 Continuing large scale migration to the United States raises the question of how best to integrate new immigrants into the American national community Traditionally one successful answer has been to encourage immigrants to learn our language culture history and civic traditions New immigrants would then be invited become citizens and welcomed as full members of the community However a concerted effort is underway to gain acceptance for and implement the idea that the United States should allow new immigrants to vote without becoming citizens It is mounted by an alliance that brings together progressive academics law professors local and state political leaders and community

activists all working to decouple voting from American citizenship Their effort show signs of success but is it really in America s best interests to allow new immigrants to have the vote Their proposals have been much advocated but little analyzed Neither a polemic nor a whitewash Stanley A Renshon provides a careful analysis of the arguments put forward by advocates of this position on the basis of fairness increasing democracy civic learning and moral necessity and asks Do they really help immigrants become Americans *Remaking American Values* Neil W. Chamberlain,1977 The Immigration Crisis Armando Navarro,2008-11-16 Immigration remains one of the most pressing and polarizing issues in the United States In *The Immigration Crisis* the political scientist and social activist Armando Navarro takes a hard look at 400 years of immigration into the territories that now form the United States paying particular attention to the ways in which immigrants have been received The book provides a political historical and theoretical examination of the laws personalities organizations events and demographics that have shaped four centuries of immigration and led to the widespread social crisis that today divides citizens non citizens regions and political parties As a prominent activist Navarro has participated broadly in the Mexican American community s responses to the problems of immigration and integration and his book also provides a powerful glimpse into the actual working of Hispanic social movements In a sobering conclusion Navarro argues that the immigration crisis is inextricably linked to the globalization of capital and the American economy s dependence on cheap labor **Making an American Festival** Chiou-ling Yeh,2023-11-15 This provocative history of the largest annual Chinese celebration in the United States the Chinese New Year parade and beauty pageant in San Francisco opens a new window onto the evolution of one Chinese American community over the second half of the twentieth century In a vividly detailed account that incorporates many different voices and perspectives Chiou ling Yeh explores the origins of these public events and charts how from their beginning in 1953 they developed as a result of Chinese business community ties with American culture business and politics What emerges is a fascinating picture of how an ethnic community shaped and was shaped by transnational and national politics economics ethnic movements feminism and queer activism This provocative history of the largest annual Chinese celebration in the United States the Chinese New Year parade and beauty pageant in San Francisco opens a new window onto the evolution of one Chinese American community over the second half of the two *National Geographic Almanac of American History* John Thompson,James Miller,2007 Uses images maps historic facts and concise analysis to provide an in depth resource on United States history **Vida Americana - Mexican Muralists Remake American Art, 1925-1945** Barbara Haskell,Mark A. Castro,2020-01-01 An in depth look at the transformative influence of Mexican artists on their U S counterparts during a period of social change The first half of the 20th century saw prolific cultural exchange between the United States and Mexico as artists and intellectuals traversed the countries shared border in both directions For U S artists Mexico s monumental public murals portraying social and political subject matter offered an alternative aesthetic at a time when artists were seeking to connect with a public deeply affected by the Great

Depression The Mexican influence grew as the artists Jos Clemente Orozco Diego Rivera and David Alfaro Siqueiros traveled to the United States to exhibit sell their work and make large scale murals working side by side with local artists who often served as their assistants and teaching them the fresco technique Vida Americana examines the impact of their work on more than 70 artists including Marion Greenwood Philip Guston Isamu Noguchi Jackson Pollock and Charles White It provides a new understanding of art history one that acknowledges the wide ranging and profound influence the Mexican muralists had on the style subject matter and ideology of art in the United States between 1925 and 1945 The Making of an American Jacob August Riis,1922 **Monuments and Memory-Making** M. Rebecca Livingstone,Kelly McFall,Abigail Perkiss,2022-12-20 Monuments and Memory Making immerses students in the conversations and controversies that emerged as the nation grappled with how best to memorialize what was at the time the longest military conflict in US history As students engage in the historical process of memory making they will work to reconcile the varied and often contradictory voices that rose up after the fall of Saigon Students will tackle questions such as How do we create a national memory of the past How do we reckon with a war that was widely understood as a defeat for the United States How do we remember the dead while honoring the living How do we reunite a fractured nation How do public opinion and public consciousness shape our understanding of the past and whose voices are privileged over others Working with primary and secondary sources students will take command of the subject matter as they immerse themselves in their individual roles as historical actors in the debate of how best to remember and honor American participation and sacrifice in the Vietnam War A World Remaking Clarence Walker Barron,1920
