Commentaries on European Contract Laws Nils Jansen, Reinhard

Zimmermann, 2018-07-12 The book provides rule by rule commentaries on European contract law general contract law

consumer contract law the law of sale and related services dealing with its modern manifestations as well as its historical and comparative foundations After the collapse of the European Commission's plans to codify European contract law it is timely to reflect on what has been achieved over the past three to four decades and for an assessment of the current situation In particular the production of a bewildering number of reference texts has contributed to a complex picture of European contract laws rather than a European contract law The present book adopts a broad perspective and an integrative approach All relevant reference texts from the CISG to the Draft Common European Sales Law are critically examined and compared with each other As far as the *acquis commun* ie the traditional private law as laid down in the national codifications is concerned the Principles of European Contract Law have been chosen as a point of departure The rules contained in that document have however been complemented with some chapters sections and individual provisions drawn from other sources primarily in order to account for the quickly growing *acquis communautaire* in the field of consumer contract law In addition the book ties the discussion concerning the reference texts back to the pertinent historical and comparative background and it thus investigates whether and to what extent these texts can be taken to be genuinely European in nature ie to constitute a manifestation of a common core of European contract law Where this is not the case the question is asked whether and for what reasons they should be seen as points of departure for the further development of European contract law

Principles of European Contract Law Commission on European Contract Law, 2000-01-01 This text provides a comprehensive guide to the principles of European contract law They have been drawn up by an independent body of experts from each Member State of the EU under a project supported by the European Commission and many other organizations The principles are stated in the form of articles with a detailed commentary explaining the purpose and operation of each article and its relation to the remainder Each article also has extensive comparative notes surveying the national laws and other international provisions on the topic
