Ogbar,2019-03-19 Exploring the profound impact of the Black Power movement on African Americans Outstanding Academic Title Choice In the 1960s and 70s the two most important black nationalist organizations the Nation of Islam and the Black Panther Party gave voice and agency to the most economically and politically isolated members of black communities outside the South Though vilified as fringe and extremist these movements proved to be formidable agents of influence during the civil rights era ultimately giving birth to the Black Power movement Drawing on deep archival research and interviews with key participants Jeffrey O. G. Ogbar reconsiders the commingled stories of and popular reactions to the Nation of Islam Black

Panthers and mainstream civil rights leaders Ogbar finds that many African Americans embraced the seemingly contradictory political agenda of desegregation and nationalism Indeed black nationalism he demonstrates was far more favorably received among African Americans than historians have previously acknowledged It engendered minority pride and influenced the political cultural and religious spheres of mainstream African American life for the decades to come This updated edition of Ogbar s classic work contains a new preface that describes the book s genesis and links the Black Power movement to the Black Lives Matter movement A thoroughly updated essay on sources contains a comprehensive review of Black Power related scholarship Ultimately Black Power reveals a black freedom movement in which the ideals of desegregation through nonviolence and black nationalism marched side by side **Pareign's Nurturing Rhymes**

Sovern,2014-02-25 Columbia University began the second half of the twentieth century in decline bottoming out with the student riots of 1968 Yet by the close of the century the institution had regained its stature as one of the greatest universities in the world According to the New York Times If any one person is responsible for Columbia s recovery it is surely Michael Sovern In this memoir Sovern who served as the university s president from 1980 to 1993 recounts his sixty year involvement

with the institution as well as his experiences growing up poor in the South Bronx and attending Columbia. Sovern addresses key debates in academia such as how to make college available to all, whether affirmative action is fair, whether great researchers are paid too much and valuable teachers too little, what are the strengths and weaknesses of lifetime tenure, and what is the government's responsibility for funding universities. A labor law specialist, Sovern also discusses his personal and professional accomplishments off campus, particularly his work to compensate victims of racial exploitation and his recommendations as chairman of the Commission on Integrity in Government.

Most Dope Paul Cantor, 2022-01-18 The first biography of rapper Mac Miller, the Pittsburgh cult favorite turned rap superstar who touched the lives of millions before tragically passing away at the age of 26. *Most Dope* works as a reminder of Mac's passion for hip hop and his gifts as a MC. But the new book from music journalist Paul Cantor absolutely soars as a cautionary tale about drug addiction.

Esquire Malcolm James McCormick was born on January 19, 1992. He began making music at a young age and by 15 was already releasing mixtapes. One of the first true viral superstars, his early records earned him a rabid legion of die-hard fans as well as a few noteworthy detractors. But despite his undeniable success, Miller was plagued by struggles with substance abuse and depression, which fueled his raw and genre-defying music yet ultimately led to his demise. Through detailed reporting and interviews with dozens of Miller's confidants, Paul Cantor brings you to leafy Pittsburgh, seductive Los Angeles, and frenzied New York, where you will meet Miller's collaborators, producers, business partners, best friends, and even his roommates. Traveling deep into Miller's inner circle, behind the curtain, the velvet ropes, and studio doors, this is the story of a passionate, gifted young man who achieved his life's ambition only to be undone by his personal demons. *Most Dope* is part love letter, part cautionary tale, never shying away from the raw, visceral way Mac Miller lived his life.

The Birth of Cool Carol Tulloch, 2016-01-28 It is broadly recognized that black style had a clear and profound influence on the history of dress in the twentieth century, with black culture and fashion having long been defined as cool. Yet despite this high profile, in-depth explorations of the culture and history of style and dress in the African diaspora are a relatively recent area of enquiry. *The Birth of Cool* asserts that cool is seen as an arbiter of presence and relates how both iconic and ordinary black individuals and groups have marked out their lives through the styling of their bodies. Focusing on counter and sub-cultural contexts, this book investigates the role of dress in the creation and assertion of black identity. From the gardenia corsage worn by Billie Holiday to the work wear of female African Jamaican market traders, through to the home dressmaking of black Britons in the 1960s and the meaning of a polo neck jumper as depicted in a 1934 self-portrait by African American artist Malvin Gray Johnson, this study looks at the ways in which the diaspora experience is expressed through self-image. Spanning the late nineteenth century to the modern day, the book draws on ready-made and homemade fashion, photographs, paintings, and films, published and unpublished biographies, and letters from Britain, Jamaica, South Africa, and the United States to consider how personal style statements reflect issues of racial and cultural difference. *The Birth of Cool* is a powerful exploration of how

style and dress both initiate and confirm change and the ways in which they express identity and resistance in black culture *The Best of Emerge Magazine* George E. Curry, Brenda L.
