Tuḥfah Yi- 'Abbāsī Muḥammad 'Alī Sabzvārī, 2008 This book is one of the oldest and most important sources written on the esoteric teachings of Islam from a Shi'ite perspective. It demonstrates the Qur'anic origins of Sufism and its close relationship with Shi'ism. The book is based mainly on the teachings of the Qur'an, Hadith, narrations of Shi'ite Imams and the teachings of earlier Sufi masters. In this lies the uniqueness, authenticity and strength of the book. *Tuḥfah yi Abbasi* is written in a typical prose style of the Safavid period and is replete with Arabic words and phrases. The difficulty and dryness of the style, however, is properly compensated by timely quotation of Prophetic traditions, narrations of the Shi'ite Imams and Sufi poetry composed by Attar, Rumi, Hafiz, Mansur, Hallaj as well as the author. This work conveys a universal message for all human beings, particularly at a time when Sufism and Shi'ism are misrepresented by pseudo Sufis and extremist Shi'ites and misunderstood by many readers in the Muslim world and in the West.

Religion and the Specter of the West Arvind-Pal S. Mandair, 2009-10-22 Arguing that intellectual movements such as deconstruction, postsecular theory and political theology have different implications for cultures and societies that live with the debilitating effects of past imperialisms, Arvind Mandair unsettles the politics of knowledge construction in which the category of religion continues to be central. Through a case study of Sikhism, he launches an extended critique of religion as a cultural universal. At the same time, he presents a portrait of how certain aspects of Sikh tradition were reinvented as religion during the late nineteenth and early twentieth centuries. India's imperial elite subtly recast Sikh tradition as a *sui generis* religion which robbed its teachings of their political force. In turn, Sikhs began to define themselves as a nation and a world religion that was separate from but parallel to the rise of the Indian state and global Hinduism. Rather than investigate these processes in isolation from Europe, Mandair shifts the focus closer to the political history of ideas, thereby recovering part of Europe's repressed colonial memory. Mandair rethinks the intersection of religion and the secular.

in discourses such as history of religions postcolonial theory and recent continental philosophy Though seemingly unconnected these discourses are shown to be linked to a philosophy of generalized translation that emerged as a key conceptual matrix in the colonial encounter between India and the West In this riveting study Mandair demonstrates how this philosophy of translation continues to influence the repetitions of religion and identity politics in the lives of South Asians and the way the academy state and media have analyzed such phenomena
