*The Russians in Germany* Norman M. Naimark, 1995 In 1945 when the Red Army marched in eastern Germany was not occupied but liberated This until the recent collapse of the Soviet Bloc is what passed for history in the German Democratic Republic Now making use of newly opened archives in Russia and Germany Norman Naimark reveals what happened during the Soviet occupation of eastern Germany from 1945 through 1949 His book offers a comprehensive look at Soviet policies in the occupied zone and their practical consequences for Germans and Russians alike and ultimately for postwar Europe In rich and lucid detail Naimark captures the mood and the daily reality of the occupation the chaos and contradictions of a period marked by rape and repression the plundering of factories the exploitation of German science and the rise of the East German police state Never have these practices and their place in the overall Soviet strategy particularly the political development of the zone received such thorough treatment Here we have our first clear view of how the Russians regarded the postwar settlement and the German question how they made policy on issues from reparations to technology transfer to the acquisition of uranium how they justified their goals how they met them or failed and how they changed eastern Germany in the process *The Russians in Germany* also takes us deep into the politics of culture as Naimark explores the ways in which Soviet officers used film theater and education to foster the Bolshevization of the zone Unique in its broad comparative approach to the Soviet military government in Germany this book fills in a missing and ultimately fascinating chapter in the history of modern Europe

*Trapped in the Russian Zone* Lorena Lefor Golke, 2015-03-03 Fear overwhelms Ferdinand Golke having been charged with treason for deserting the military at the peak of the war The young Polish boy's only hope of escaping death by firing squad is to flee west *Trapped in the Russian Zone* takes readers back to Ferdinand's

childhood and the peaceful times before World War II began Due to the Hitler Stalin agreement in 1939 the Golke children are among hundreds taken from their parents and detained in a camp in western Poland where they experience hunger cold and depravation The infamous resettlement continues throughout the escalating war In 1944 fifteen year old Ferdinand is drafted into the military After inhumane treatment he flees his unit without leave but is caught and charged within hours of his escape While awaiting trial Ferdinand has a weighty decision to make Based on true events eight members of the Golke family slip through a gated border point where escapees were routinely hunted down by dogs and shot This amazing tale of love hope and survival against all odds makes the war years come alive at a time when most survivors are no longer here to tell their stories

The Soviet zone of Germany Germany. Federal Government. Federal Ministry for All-German Affairs,1960 Civil Affairs in Occupied and Liberated Territory United States. War Department. Public Relations Division,1947 Postwar Migration Policy and the Displaced of the British Zone in Germany, 1945-1951 Imogen Bayley,2024-11-08 This book examines the experiences of refugees who populated the Displaced Persons DP camps in the British Zone of Allied occupied Germany after the Second World War With a specific focus on Polish and Jewish communities it explores the interaction between migration policy and the migration strategy of refugees or in other words the relationship between DP policy and individual choices and how these evolved over time The book aims to harmonize often contradictory images of displaced persons in the British Zone of occupation by taking a comparative approach and analysing conflicting identifications and state individual relations Drawing on the records of the International Tracing Service refugee memoirs DP publications distributed in the camps themselves and personal petitions and correspondences the author sheds light on the experiences of displaced persons and illustrates the difficulty of making clear cut distinctions between forced and voluntary migration Today as in the post war period refugees access to social rights and welfare settlement rights and the possibility of family reunification can all be determined by the same labels that were so fiercely contested after 1945 A dichotomy between so called economic and political migration endures and many claims to asylum are today rejected on the grounds of applicants not being formally recognized as genuine refugees and recipients of aid This book therefore adds to our growing understanding of the plight of refugees and the need to ensure access to justice for all through the ongoing building of an effective accountable and inclusive refugee regime

may be described as a tour de force Belfast News Letter First published in 1958 Montgomery's memoirs cover the full span of his career first as a regimental officer in the Royal Warwickshire Regiment and then as a Staff Officer His choice of the Warwickshires was due to his lack of money He saw service in India before impressing with his courage tactical skill and staff ability in the Great War Despite his tactless uncompromising manner his career flourished between the wars but it was during the retreat to Dunkirk that his true brilliance as a commander revealed itself The rest is history but in this autobiography we can hear Monty telling his side of the story of the great North African Campaign followed by the even more momentous battles against the enemy and sadly the Allies as he strove for victory in North West Europe His interpretation of the great campaign is of huge importance and reveals the deep differences that existed between him and Eisenhower and other leading figures His career ended in disappointment and frustration being temperamentally unsuited to Whitehall and the political machinations of NATO
