Bernstein, 2024-11-13 This book is Volume III of a three volume book plus accompanying website www.bookaboutbooks.com which adds to subjects already in the book or presents some books and subjects not contained in the books The other volumes are available from the same booksellers as this volume *A Book about Books* discusses what nonfiction books and subjects the author believes are important to know about This book tries to point to problems in how we live and to see if books have any answers Even though the books are complete the author will update the website periodically in the future E H Bernstein is a former librarian turned author The subtitle of the book describes the author's objective A handbook in three volumes to a choice of essential books writers and subjects in order to understand the world we live in about big questions and possible answers about books and writers that may improve people's lives about neglected writers and other books and subjects *A Book about Books* attempts to share what the author has learned from nearly 50 years of nonfiction reading and to provide the reader with samples of the most important authors and subjects from that reading While the book is based on research it is intended to be a handbook or guide by trying to make that research understandable to the general reader and to students and for teachers by pointing to what the author believes is missing from today's education A curriculum proposal for college teachers is on the author's website Note about how the volumes are related each chapter is on a separate subject So the chapters can be read individually but the full message requires reading all the volumes Volume I is important but preliminary to the more important Volumes II and III Note also that the book is not just about books since other sources are also mentioned The author believes we should listen to many voices so the book draws on many types of writers from different times and countries The author says A contemporary writer once said that one of the purposes of writing is that books should be useful I hope that my book will be of use *Russian Philosophy, Volume 2* James M. Edie, 2025-03-14 The second half of the nineteenth century in Russian philosophy sees it more or less definitive triumph of Westernizing currents over the Slavophiles There is no doubt that both Nihilism and Populism as successive schools of Russian philosophy are the authentic progeny of the senior Westernizers though in the development of their philosophical doctrine they owe much less to German Romanticism than to British utilitarianism French positivism and the socialism of left wing Hegelians Toward the end of the century these philosopher come increasingly under the influence of the scientific socialism of Karl Marx **Russian Philosophy** James M. Edie, 1965 [Russian Religious Thought](#) Judith Deutsch Kornblatt, Richard F. Gustafson, 1996 Contains 11 essays on four seminal thinkers from the modern Russian tradition Vladimir Soloviev 1853 1900 Pavel Florensky 1882 1937 Sergei Bulgakov 1871 1944 and Semen Frank 1877 1950 Despite their various approaches they all share the predominant dual focus of most Russian religious thought on the doctrines of Incarnation and Deification and the attendant stress on moral and social issues the philosophy of history and the relation of religion and culture Paper edition unseen 21 95 Annotation copyright by Book News Inc Portland OR **Russia and**

Western Civilization Russell Bova, 2015-02-12 This volume introduces readers to an age old question that has perplexed both Russians and Westerners Is Russia the eastern flank of Europe Or is it really the heartland of another civilization In exploring this question the authors present a sweeping survey of cultural religious political and economic developments in Russia especially over the nineteenth and twentieth centuries Based on the inter disciplinary Russian studies program at Dickinson College this splendid collection will complement many curricula The text features highlight boxes and selected illustrations Each chapter ends with a glossary study questions and a reading list

Russian Modernism Stephen C. Hutchings, 1997-12-11 This book explores the unique way in which Russian culture constructs the notion of everyday life or byt and offers the first unified reading of Silver age narrative which it repositions at the centre of Russian modernism Drawing on semiotics and theology Stephen C Hutchings argues that byt emerged from a dialogue between two traditions one reflected in western representational aesthetics for which daily existence figures as neutral and normative the other encapsulated in the Orthodox emphasis on iconic embodiment Hutchings identifies early Decadent formulations of byt as a milestone after which writers from Chekhov to Rozanov sought to affirm the iconic potential hidden in Russian realism s critique of representationalism Provocative yet careful textual analyses reveal a consistent urge to redefine art s function as one not of representing life but of transfiguring the everyday

Faith and Science in Russian Religious Thought Teresa Obolevitch, 2019-05-09 Faith and Science in Russian Religious Thought provides a comprehensive analysis of the relationship between science and faith in Russian religious thought Teresa Obolevitch offers a synthetic approach on the development of the problem throughout the whole history of Russian thought starting from the medieval period and arriving in contemporary times She considers the relationship between science and religion in the eighteenth century the so called academic philosophy of the 19th and 20th century the thought of Peter Chaadaev the Slavophiles and in the most influential literature figures such as Fedor Dostoevsky and Lev Tolstoy The volume also analyses two channels of the formation of philosophy in the context of the relationship between theology and science in Russia The first is connected with the attempt to rationalize the truths of faith and is exemplified by Vladimir Soloviev and Nikolai Lossky the second with the apophatic tradition is presented by Pavel Florensky

and Semen Frank The book then describes the relation to scientific knowledge in the thought of Lev Shestov Nikolai Berdyaev Sergius Bulgakov and Alexei Losev as well as the original project of Russian Cosmism on the examples of Nikolai Fedorov Konstantin Tsiolkovsky and Vladimir Vernadsky Obolevitch presents the current state of the discussion on this topic by paying attention to the Neopatristic synthesis Fr Georges Florovsky and his followers and offers the brief comparative analyse of the relationship between science and religion from the Western and Russian perspectives **Russian Nationalism Since 1856** Astrid S. treatment of literary genres such as drama fiction and essays *Philosophical Sovietology* Helmut Dahm,J.E. Blakeley,George L. Kline,2012-12-06 On February 24 25 1956 in a closed session of the 20th Congress of the Communist Party of the Soviet Union Nikita S Khrushchev made his now famous speech on the crimes of the Stalin era That speech marked a break with the past and it marked the end of what J M Bochenski dubbed the dead period of Soviet philosophy Soviet philosophy changed abruptly after 1956 especially in the area of dialectical materialism Yet most philosophers in the West neither noticed nor cared For them the resurrection of Soviet philosophy even if believable was of little interest The reasons for the lack of belief and interest were multiple Soviet philosophy had been dull for so long that subtle differences made little difference The Cold War was in a frigid period and reinforced the attitude of avoiding anything Soviet Phenomenology and existentialism were booming in Europe and analytic philosophy was king on the Anglo American philosophical scene Moreover not many philosophers in the West knew or could read Russian or were motivated to learn it to be able to read Soviet philosophical works The launching of Sputnik awakened the West from its self complacent slumbers Academic interest in the Soviet Union grew **Mathematics and the Divine** Teun Koetsier,Luc Bergmans,2004-12-09 Mathematics and the Divine seem to correspond to diametrically opposed tendencies of the human mind Does the mathematician not seek what is precisely defined and do the objects intended by the mystic and the theologian not lie beyond definition Is mathematics not Man s search for a measure and isn t the Divine that which is immeasurable The present book shows that the domains of mathematics and the Divine which may seem so radically separated have throughout history and across cultures proved to be intimately related Religious activities such as the building of temples the telling of ritual stories or the drawing of enigmatic figures all display distinct mathematical features Major philosophical systems dealing with the Absolute and theological speculations focussing on our knowledge of the Ultimate have been based on or inspired by mathematics A series of chapters by an international team of experts highlighting key figures schools and trains of thought is presented here Chinese number mysticism the views of Pythagoras and Plato and their followers Nicholas of Cusa s theological geometry Spinozism and intuitionism as a philosophy of mathematics are treated side by side among many other themes in an attempt at creating a global view on the relation of mathematics and Man s quest for the Absolute in the course of history Mathematics and man s quest for the Absolute A selective history highlighting key figures schools and trains of thought An international team of historians presenting specific new findings as well as general overviews Confronting and uniting otherwise compartmentalized information Ideology in Russian Literature Richard Freeborn,Jane Grayson,2016-01-15 The contributions in this volume which is part of a series examine the connection between literature and ideas in important 19th century instances The editor contends that they demonstrate that Russian literature often subverts the ideology to suit its own autonomous needs *A History of Russian Christianity, Vol. III* Daniel H. Shubin,2004 From Apostle Andrew to the conclusion of Soviet authority in 1990 Daniel Shubin presents the entire history of Christianity in

Russia in a 3 volume series The events people and politics that forged the earliest traditions of Russian Christianity are presented objectively and intensively describing the rise and dominance of the Russian Orthodox Church the many dissenters and sectarian groups that evolved over the centuries and their persecution the presence of Catholicism and the influx of Protestantism and Judaism and other minority religions into Russia The history covers the higher levels of ecclesiastical activity including the involvement of tsars and princes as well as saints and serfs and monks and mystics This the first volume deals with the period from Apostle Andrew to the death of Tsar Ivan the Terrible just prior to the election of the first Russian Patriarch a period of almost 1600 years **Russia's Plato** Frances Nethercott,2019-07-31 This title was first published in 2000 This work identifies the differences between the Russian intellectual approach to reading Plato and that of other European countries This study offers a complex perspective on Russian philosophical learnings up to 1930 The book contains five chapters with the first aiming to provide the general institutional context in which Russian 19th century Plato scholarship developed caught as it were between the rise of the historical sciences and the heavy hand of state interference in standardizing the educational system in the name of nation building and modernization The second chapter attempts to illustrate how Plato served as a reference in Russian philosophical culture and the third deals with aspects of Russian philosophy of law In the fourth chapter the author shifts his approach to compare and contrast a number of reactions to a single dialogue the Republic and in the final concluding chapter addresses the question of whether it is legitimate to speak of a Russian Platonism The Lyric Poetry of A.K.
