Ruthless Compassion Wrathful Deities In Early Indotibetan Esoteric Buddhist Art:

Ruthless Compassion Robert N. Linrothe, 1999 He has assembled hundreds of works of art analyzing them formally and stylistically to determine the chronology of their iconographic themes BOOK JACKET Ruthless Compassion offers a visual history of esoteric Buddhism centered on the changing representations of the wrathful deity BOOK JACKET **Ruthless Compassion** Robert N. Linrothe, 1999 The historical development of Esoteric Buddhism in India is still known only in outline A few verifiably early texts do give some insight into the origin of the ideas which would later develop and spread to East and Southeast Asia and to Tibet However there is another kind of evidence which can be harnessed to the project of reconstructing the history of Esoteric Buddhist doctrines and practice This evidence consists of art objects mainly sculpture which survive in significant numbers from the 6th to the 13th century **Esoteric Buddhism and the Tantras in East Asia** Charles Orzech, Henrik Sørensen, Richard Payne, 2011 This volume the result of an international collaboration of forty scholars provides a comprehensive resource on Esoteric Buddhism and the Tantras in their Chinese Korean and Japanese contexts from the first few centuries of the common era to the present *Esoteric Buddhism in Mediaeval Maritime Asia* Andrea Acri, 2016-09-05 This volume advocates a trans regional and maritime focused approach to studying the genesis development and circulation of Esoteric or Tantric Buddhism across Maritime Asia from the seventh to the thirteenth centuries ce The book lays emphasis on the mobile networks of human agents Masters textual sources Texts and images Icons through which Esoteric Buddhist traditions spread Capitalising on recent research and making use of both disciplinary and area focused perspectives this book highlights the role played by Esoteric Buddhist maritime networks in shaping intra Asian connectivity In doing so it reveals the limits of a historiography that is premised on land based transmission of Buddhism from a South Asian homeland and advances an alternative historical narrative that overturns the popular perception regarding Southeast Asia as a periphery that passively received overseas influences Thus a strong point is made for the appreciation of the region as both a crossroads and rightful terminus of Buddhist cults and for the re evaluation of the creative and transformative force of Southeast Asian agents in the transmission of Esoteric Buddhism across mediaeval Asia

Receptacle of the Sacred Jinah Kim, 2013-04-12 In considering medieval illustrated Buddhist manuscripts as sacred objects of cultic innovation Receptacle of the Sacred explores how and why the South Asian Buddhist book cult has survived for almost two millennia to the present A book manuscript should be understood as a form of sacred space a temple in microcosm not only imbued with divine presence but also layered with the memories of many generations of users Jinah Kim argues that illustrating a manuscript with Buddhist imagery not only empowered it as a three dimensional sacred object but also made it a suitable tool for the spiritual transformation of medieval Indian practitioners Through a detailed historical analysis of Sanskrit colophons on patronage production and use of illustrated manuscripts she suggests that while Buddhism's disappearance in eastern India was a slow and gradual process the Buddhist book cult played an important role in

sustaining its identity In addition by examining the physical traces left by later Nepalese users and the contemporary ritual use of the book in Nepal Kim shows how human agency was critical in perpetuating and intensifying the potency of a manuscript as a sacred object throughout time

Protectors and Predators Bernard

Faure, 2015-12-31 Written by one of the leading scholars of Japanese religion *Protectors and Predators* is the second installment of a multivolume project that promises to be a milestone in our understanding of the mythico ritual system of esoteric Buddhism specifically the nature and roles of deities in the religious world of medieval Japan and beyond Bernard Faure introduces readers to medieval Japanese religiosity and shows the centrality of the gods in religious discourse and ritual Throughout he engages theoretical insights drawn from structuralism post structuralism and Actor Network Theory to retrieve the implicit pantheon as opposed to the explicit orthodox pantheon of esoteric Japanese Buddhism Mikkyō His work is particularly significant given its focus on the deities multiple and shifting representations overlappings and modes of actions rather than on individual characters and functions In *Protectors and Predators* Faure argues that the wild gods of Japan were at the center of the medieval religious landscape and came together in complex webs of association not divisible into the categories of Buddhist indigenous or Shinto Furthermore among the most important medieval gods certain ones had roots in Hinduism others in Daoism and Yin Yang thought He displays vast knowledge of his subject and presents his research much of it in largely unstudied material with theoretical sophistication His arguments and analyses assume the centrality of the iconographic record as a complement to the textual record and so he has brought together a rich and rare collection of more than 170 color and black and white images This emphasis on iconography and the ways in which it complements supplements or deconstructs textual orthodoxy is critical to a fuller comprehension of a set of medieval Japanese beliefs and practices and offers a corrective to the traditional division of the field into religious studies which typically ignores the images and art history which oftentimes overlooks their ritual and religious meaning *Protectors and Predators* and its companion volumes should persuade readers that the gods constituted a central part of medieval Japanese religion and that the latter cannot be reduced to a simplistic confrontation parallelism or complementarity between some monolithic teachings known as Buddhism and Shinto Once these reductionist labels and categories are discarded a new and fascinating religious landscape begins to unfold

The Cambridge World History: Volume 5, Expanding Webs of Exchange and Conflict, 500CE-1500CE Benjamin Z. Kedar, Merry E. Wiesner-Hanks, 2015-04-09 Volume 5 of the Cambridge World History series uncovers the cross cultural exchange and conquest and the accompanying growth of regional and trans regional states religions and economic systems during the period 500 to 1500 CE The volume begins by outlining a series of core issues and processes across the world including human relations with nature gender and family social hierarchies education and warfare Further essays examine maritime and land based networks of long distance trade and migration in agricultural and nomadic societies and the transmission and exchange of cultural forms scientific knowledge technologies and text based religious systems that accompanied these The final section surveys the development of centralized regional states and empires in both the eastern and western hemispheres Together these essays by an international team of leading authors show how processes furthering cultural commercial and political integration within and between various regions of the world made this millennium a proto

global era Rage and Ravage Bernard Faure, 2021-12-31 Written by one of the leading scholars of Japanese religion *Rage and Ravage* is the third installment of a milestone project in our understanding of the mythico ritual system of esoteric Buddhism specifically the nature and roles of deities in the religious world of medieval Japan and beyond Bernard Faure introduces readers to medieval Japanese religiosity and shows the centrality of the gods in religious discourse and ritual in doing so he moves away from the usual textual historical and sociological approaches that constitute the method of current religious studies Throughout he engages theoretical insights drawn from structuralism post structuralism and Actor Network Theory to retrieve the implicit pantheon as opposed to the explicit orthodox pantheon of esoteric Japanese Buddhism Mikkyō In volumes one and two *The Fluid Pantheon* and *Protectors and Predators* Faure argued against a polarity or dichotomy between buddhas and kami by emphasizing the existence of deities that did not belong to either category and he rejected the retrospective notion of hybridity The present work makes a similar case about the reified distinction between gods and demons to show that due to the fluid nature of the Japanese pantheon these terms do not represent stable identities Gods can become demons and demons are sometimes deified Divine protectors were often former predators and in some instances they retained their predatory features even after being converted After emphasizing the demonic aspects of devas as gods or spirits of obstacles in the earlier volumes Faure now focuses on the deva like or divine aspects of deities that have been described as demonic *Rage and Ravage* and its companion volumes persuade readers that the gods constituted a central part of medieval Japanese religion and that the latter cannot be reduced to a simplistic confrontation parallelism or complementarity between some monolithic teachings known as Buddhism and Shinto Once these reductionist labels and categories are discarded a new and fascinating religious landscape begins to unfold **Buddhist Symbolism in Tibetan**

Wang, 2017-12-18 The first scholarly monograph on Buddhist maṇḍalas in China this book examines the Maṇḍala of Eight Great Bodhisattvas This iconographic template in which a central Buddha is flanked by eight attendants flourished during the Tibetan 786-848 and post Tibetan Guiyijun 848-1036 periods at Dunhuang A rare motif that appears in only four cave shrines at the Mogao and Yulin sites the maṇḍala bore associations with political authority and received patronage from local rulers Attending to the historical and cultural contexts surrounding this iconography this book demonstrates that transcultural communication over the Silk Routes during this period and the religious dialogue between the Chinese and Tibetan communities were defining characteristics of the visual language of Buddhist maṇḍalas at Dunhuang **Tantric Buddhist Practice in India** Anthony Tribe, 2016-06-03 Using a commentary on
