section containing 60 images which support the text and provide the reader researcher with invaluable pictorial references to Kyushu's history from earliest times to the present day *Unpredictable Agents* Mari Yoshihara, 2021-10-31 In *Unpredictable Agents* twelve Japanese scholars of American studies tell their stories of how they encountered America and came to dedicate their careers to studying it People in postwar Japan have experienced America in a number of ways through literature material goods popular culture foodways GIs missionaries art political figures celebrities and business As the Japanese public wrestled with a complex mixture of admiration and confusion yearning and repulsion closeness and alienation toward the US Japanese scholars specializing in American studies have become interlocutors in helping their compatriots understand the country In scholarly literature these intellectuals are often understood as complicit agents in US Cold War liberalism By focusing on the human dimensions of the intellectuals' lives and careers *Unpredictable Agents* resists such a deterministic account of complicity while recognizing the relationship between power and knowledge and the historical and structural conditions in which these scholars and their work emerged How did these scholars encounter America in the first place and what exactly constitutes the America they have experienced How did they come to be Americanists and what does being Americanists mean for them In short what are the actual experiences of Japan's Americanists and what are their relationships to America Reflecting both the interlocked web of politics economics and academics as well as the evolving contours of Japan's Americanists the essays highlight the diverse paths through which these individuals have come to be Americanists and the complex meanings that identity carries for them The stories reveal the obvious yet often neglected fact that Japanese scholars neither come from the same backgrounds nor occupy similar identities solely because of their shared ethnicity and citizenship The authors were born in the period ranging from the 1940s to the 1980s in different parts of Japan from Hokkaido to Okinawa and raised in diverse familial and cultural environments which shaped their identities as Japanese and their encounters with America in quite different ways Together the essays illustrate the complex positionalities fluid identities ambivalent embrace and unpredictable agency of Japan's Americanists who continue to chart their own course in and across the Pacific **The Boundless Sea** Gary Y. Okihiro, 2019-09-24 The last book in a trilogy of explorations on space and time from a preeminent scholar *The Boundless Sea* is Gary Y Okihiro's most innovative yet Whereas Okihiro's previous books *Island World* and *Pineapple Culture* sought to deconstruct islands and continents tropical and temperate zones this book interrogates the assumed divides between space and time memoir and history and the historian and the writing of history Okihiro uses himself from Okinawan roots growing up on a sugar plantation in Hawai'i researching in Botswana and teaching in California to reveal the historian's craft involving diverse methodologies and subject matters Okihiro's imaginative narrative weaves back and forth through decades and across vast spatial and societal differences theorized as historical formations to critique history's conventions Taking its title from a translation of the author's surname *The Boundless Sea* is a deeply personal and reflective volume that challenges how we

think about time and space notions of history *Monumenta Nipponica* ,2000 Includes section Reviews **Guide to Reprints** ,2009 **Guide to Reprints 2007** K. G.
