Chant and its Origins ThomasForrest Kelly,2017-07-05 The Latin liturgical music of the medieval church is the earliest body of Western music to survive in a more or less complete form It is a body of thousands of individual pieces of striking beauty and aesthetic appeal which has the special quality of embodying of giving voice to the words of the liturgy itself Plainchant is the music that underpins essentially all other music of the middle ages and far beyond and is the music that is most abundantly preserved It is a subject that has engaged a great deal of research and debate in the last fifty years and the nature of the complex issues that have recently arisen in research on chant are explored here in an overview of current issues and problems

Embellishing the Liturgy Alejandro Enrique Planchart,2017-07-05 After the imposition of Gregorian chant upon most of Europe by the authority of the Carolingian kings and emperors in the eighth and ninth centuries a large number of repertories arose in connection with the new chant and its liturgy Of these repertories the tropes together with the sequences represent the main creative activity of European musicians in the ninth tenth and eleventh centuries Because they were not an absolutely official part of the liturgy as was Gregorian chant they reflect local traditions particularly in terms of melody and more so than the new pieces that were composed at the time In addition the earlier layers of tropes represent in many cases a survival of the

pre local pre Gregorian melodic traditions This volume provides an introduction to the study of tropes in the form of an extensive anthology of major studies and a comprehensive bibliography and constitutes a classic reference resource for the study of one of the most important musico liturgical genres of the central middle ages **Early Music History** Iain Fenlon, 2009-03-19 Early Music History is devoted to the study of music from the early Middle Ages to the end of the seventeenth century It demands the highest standards of scholarship from its contributors all of whom are leading academics in their fields It gives preference to studies pursuing interdisciplinary approaches and to those developing novel methodological ideas The scope is exceptionally broad and includes manuscript studies textual criticism iconography studies of the relationship between words and music and the relationship between music and society The office of the cantor in early Western monastic rules and customaries a preliminary investigation Montecassino and the Old Beneventan chant and Music and ceremonial in the Low Countries Philip the fair and the Order of the Golden Fleece *Medieval Scholarship* Helen Damico, 2015-12-22 This is the third of a three volume set on medieval scholarship that presents original biographical essays on scholars whose work has shaped medieval studies for the past four hundred years A companion to Volume 1 History and Volume 2 Literature and Philology Volume 3 Philosophy and the Arts covers the lives of twenty eminent individuals from Victor Cousin 1792 1867 to Georges Chehata Anawati 1905 1994 in Philosophy from H J W Tillyard 1881 1968 to Gustave Reese 1899 1977 in Music and from Alois Riegl 1858 1905 to Louis Grodecki 1910 1982 in Art History whose subjects were the art music and philosophical thought of Europe between 500 1500 The scholars of medieval philosophy strove to identify the nexus of philosophical truth whether they were engaged in the clash of the Christian church and secular republicanism as reflected in the tension between theology and philosophy in addressing the conflicting perceptions of Muslim identity or in defining Jewish philosophical theology in non Jewish culture Medieval musicologists who are included as the subjects of the essays pioneered or recontextualized traditional views on the definition of music as subject matter on the relationship between music and philosophical concepts on interpretative distinctions between secular and sacred music monophony and polyphony and concepts of form and compositional style The art historians treated in this volume not only overturn the view of medieval art as an aesthetic decline from classical art but they demonstrate the continual development of form and style inclusive of minor and major arts in textiles architecture and architectural sculpture manuscripts ivory carvings and stained glass The philosophers musicologists and art historians who appear in Volume 3 worked in three newly emerging disciplines largely of nineteenth century origin In their distinguished and extraordinary output of energy in scholarly and academic arenas they contributed significantly to the emergence and formation of medieval studies as the prime discipline of historical inquiry into and hence the key to understanding of the human experience
