The Spirit Is Moving: New Pathways in Pneumatology

, 2019-02-26 The work of the Spirit of God is a vibrant and much discussed topic in many contemporary Christian communities worldwide Apparently the Spirit is moving Theological reflection on this phenomenon has even given rise to what is often called a pneumatological renaissance This volume not only takes stock of these remarkable developments but also probes some of their hidden aspects and highlights avenues for future exploration It contains a wide ranging but coherent assortment of essays covering the five relations of the Holy Ghost distinguished already in the Nicene Constantinopolitan Creed how does the Spirit of God relate to the Bible to the Christ to the human person to the church and to the world These essays are written as a tribute to the many inspiring theological contributions of prof Cornelis van der Kooi on the occasion of his retirement as Professor of Systematic Theology at the Faculty of Religion and Theology Vrije Universiteit Amsterdam where he taught from 1992 until 2018 Contributors are Henk A Bakker Abraham van de Beek Erik A de Boer Carl J Bosma Gijsbert van den Brink Martien E Brinkman Gerard C den Hertog Arnold Huijgen Gerrit C van de Kamp Miranda Klaver Akke van der Kooi Margriet van der Kooi Dijkstra Bruce L McCormack Richard J Mouw Bert Jan Lietaert Peerbolte Eveline van Staalduine Sulman Eep Talstra Benno van den Toren Jan Veenhof Willem van Vlastuin Pieter Vos Michael Welker Cory Willson Maarten Wisse

Evangelicals, Worship and Participation

Alan Rathe, 2016-04-22 In discussions of worship the term participation covers a lot of ground It refers not only to concrete acts in gathered liturgy but also to some of the loftiest claims of Christian theology In this book Alan Rathe probes the ways in which North American evangelicals have in recent years regarded the landscape of participation Rathe presents a broad review of evangelical worship literature through a lens borrowed from medieval theology This brings into surprising focus not only evangelical understandings but also evangelical identities and the historical traditions they reflect and offers fresh perspectives on such

current theological concerns as God's triunity *missio Dei* and the practical theology of participation. Offering a fresh contribution to a young but important discipline, the liturgically informed study of evangelical worship practice, this book reconnects the evangelical tradition to the Great Tradition and in the process reappropriates classic concepts that are full of promise for contemporary ecumenical dialogue.

Practical Sacramental Theology Bruce T. Morrill, 2021-09-09 What motivates practice of the liturgy and sacramental rites of the church? Does the worship of God begin and end within each ritual enactment or does the truth and value of sacramental celebration reside in the broader context of Christian life in church and society? For more than two decades prominent Jesuit sacramental liturgical theologian Bruce Morrill has explored the promise and problems inherent in the Second Vatican Council's call to renew liturgy's basic purpose: namely, the glorification of God and the sanctification of people. Morrill's fundamental argument is that this ancient Christian principle is of a piece: that divine glory and human holiness are so to speak two sides of a single coin. The value of liturgy and sacraments is depleted if not lost unless they function within a holistic practice of faith that seeks the upbuilding of ethical lives, personal and social. With numerous real-life examples plus references to current sociological studies, the chapters address both modern challenges to and biblical and traditional resources for the celebration of sacramental rites today.

Understanding the Sacraments of Initiation Randy Stice, 2017-11-21 Guiding readers through the rites of Baptism Confirmation and Eucharist Understanding the Sacraments of Initiation explores the way in which the sacraments of Initiation affect and influence one's daily Christian life

Participation and Covenant Dick Moes, 2024-03-13 In Participation and Covenant Moes develops a theological framework that has participation in the life of God in Christ through the Spirit as its integrative center In doing so he enters into conversation with covenant or federal theology particularly as it has been presented by Michael Horton in which the integrative center is the concept of the covenant He argues that God's fundamental relationship with humanity does not entail a covenant ontology a fundamentally legal and ethical relationship to God as we find in Horton's presentation but rather an ontology of participating in God's loving presence in Christ through the Holy Spirit For this relationship we were created and this participation is therefore natural to us Accordingly a theodramatic framework that incorporates a reframed understanding of divine human covenants and that has participation in the life of God in Christ by the Spirit as its integrative center is better able to give direction for clearly communicating the gospel in our secular culture and for properly shaping our Christian identity and practice in the face of the secularism that affects the church too than Horton's framework of covenant theology

Reclaiming Participation Cynthia Peters Anderson, 2014-11-01 In an era that oscillates regularly between nihilism and the erosion of moral vision on the one hand and pseudo gnostic myths of self apotheosis on the other the classical Christian claim of human participation in the divine as the story of the transformation of human life in its physical moral spiritual and eschatological dimensions takes on radical counter cultural color It is an affirmation that offers hope and meaning for humanity secured by God's participation in human life through Jesus Christ The Christological ground of this claim is crucial to secure and animate the argument of this text The author performs in this a retrieval of the Christological vision of the unification of the divine and the human in the single subject of Jesus Christ as the programmatic center point of human transformation and participation articulated particularly by Cyril of Alexandria The patristic pattern is used as a lens through which to examine and assess modern iterations those of Karl Barth and Hans Urs von Balthasar In this the author provides a critical updating of this vital classical theme annotating a vision of divine life opened up for created participation that can foster hope in the climes of contemporary life

Toward a Trinitarian Theology of Liturgical Participation R. Gabriel Pivarnik, 2013-01-01 Half a century after the Second Vatican Council called for the active participation of the laity in the liturgy a comprehensive theology of what liturgical participation actually means remains elusive While most sacramental studies have highlighted the role and action of Christ the conciliar reform and the theology that emanated from it call for a deeper trinitarian understanding of the liturgy and sacraments In this fascinating new work Gabriel Pivarnik identifies the major theological developments in the concept of active participation of the last century most notably in *Mediator Dei* and the Vatican II documents He also considers the reception of those developments Drawing especially on the work of Cipriano

Vagaggini and Edward Kilmartin Pivarnik offers a lucid demonstration of how liturgical participation can be viewed in metaphysical soteriological and ecclesiological terms through the lens of a trinitarian narrative **Faith, Reason, and Theosis** Aristotle Papanikolaou, George E. Demacopoulos, 2023-10-03 Theosis shapes contemporary Orthodox theology in two ways positively and negatively In the positive sense contemporary Orthodox theologians made theosis the thread that bound together the various aspects of theology in a coherent whole and also interpreted patristic texts which experienced a renaissance in the twentieth century even in Orthodox theology In the negative sense contemporary theologians used theosis as a triumphalistic club to beat down Catholic and Protestant Christians claiming that they rejected theosis in favor of either a rationalistic or fideistic approach to Christian life The essays collected in this volume move beyond this East West divide by examining the relation between faith reason and theosis from Orthodox Catholic and Protestant perspectives A variety of themes are addressed such as the nature grace debate and the relation of philosophy to theology through engagement with such diverse thinkers as Thomas Aquinas John Wesley Meister Eckhart Dionysius the Areopagite Symeon the New Theologian Panayiotis Nellas Vladimir Lossky Martin Luther Martin Heidegger Sergius Bulgakov John of the Cross Delores Williams Evagrius of Pontus and Hans Urs von Balthasar The essays in this book are situated within a current thinking on theosis that consists of a common albeit minimalist affirmation amidst the flow of differences The authors in this volume contribute to the historical theological task of complicating the contemporary Orthodox narrative but they also continue the theological achievement of thinking about theosis so that all Christian traditions may be challenged to stretch and shift their understanding of theosis even amidst an ecumenical celebration of the gift of participation in the life of God **Julian of Norwich** Philip Sheldrake, 2018-09-21 A noted scholar examines the work of the English mystic Julian of Norwich Julian of Norwich is the late fourteenth century and early fifteenth century English woman theologian With her mystical writings she has become one of the most popular and influential spiritual figures of our times In Julian of Norwich In God's Sight the eminent scholar Philip Sheldrake offers a study of the theology that Julian expresses in her writings The author examines what is known about Julian's mystical experience or mystical consciousness discusses what can be surmised about Julian's likely identity and places her writings in historical cultural and spiritual contexts Julian of Norwich In God's Sight is based on a faithful reading of Julian's texts especially the Long Text as well as on her own declared theological spiritual purpose This compelling book Presents a contextually grounded and text related study of the key elements of Julian's theology Offers a scholarly work by a well known expert in the field Unlocks an ever richer understanding of Julian's writings Includes an examination of the key texts attributed to Julian Written for students of theology and those interested in learning more about this popular mystic Julian of Norwich In God's Sight offers a scholarly review of Julian's most important writings A Wounded Innocence Alejandro R. Garcia-Rivera, 2015-03-15 What is the theological significance of art Why has the Church always encouraged the arts What is so profoundly human about the arts In A Wounded Innocence Alejandro R Garcia Rivera

answers these questions in a series of sketches that are mixed spiritual and theological reflections on various works of art written in a poetic style These reflections explore the relationship between the multi dimensional spiritual and the arts The first sketch The Beginning of Art introduces the rest that go on to explore further the human artistic and theological implications of a wounded innocence Each sketch reflects on a particular human work of art Some are conventional works of art Others may never find their way into a museum but then that is one of the implications coming out of this book A museum does not define what a work of art is its human depth does In these deeply studied yet spiritually written reflections on each work of art it is hoped that the reader will find his and her own creative depth described perhaps even revealed A Wounded Innocence is both inspiring and informative Readers will learn about art spirituality and theology and will find themselves inspired to look at works of art and even to produce a work of art It sets a new way of doing theology that is at the same time spiritual More importantly Garcia Rivera describes a theology of art Chapters are The Beginning of Art The End of Art Human Freedom and Artistic Creativity Heaven with Us The Human Aspect of Atonement The Tyger and the Lamb and A Wounded Innocence Includes black and white art Alejandro R Garcia Rivera PhD is associate professor of systematic theology at the Jesuit School of Theology at Berkeley The author of numerous articles he also wrote a Catholic Press Association award winning book on theology and aesthetics titled The Community of the Beautiful The Liturgical Press

Paul Tillich and Pentecostal Theology Nimi Wariboko, Amos Yong, 2015-11-17 Paul Tillich 1886 1965 is widely regarded as one of the most influential theologians of the 20th century By bringing his thought together with the theology and practices of an important contemporary Christian movement Pentecostalism this volume provokes active productive critical and creative dialogue with a broad range of theological topics These essays stimulate robust conversation engage on common ground regarding the work of the Holy Spirit and offer significant insights into the universal concerns of Christian theology and Paul Tillich and his legacy

Sacraments of Initiation, Second Edition Liam G. Walsh OP, 2022-01-07 This title is no longer available The original edition of this book presented a theology of sacraments that emerged out of a Church stirred into new life by the Second Vatican Council It is a theology that can claim to have been continuously received in the Catholic Church since then It is the theology that has been widely practiced and preached in pastoral life has been given catechetical shape in the Catechism of the Catholic Church However during the past 23 years some trends developed in pastoral theology and practice that were taking directions that seemed hard to reconcile with the decisions of the Council This new edition examines the way some theological counter currents have developed over those years both in theory and in practice The sacramental theology contained in this study maintains the broad ongoing agreement between what it proposes and mainstream Church teaching and practice The book examines the tradition of sacramental practice and teaching Biblical and historical studies continue to uncover new riches of the tradition and recent findings are discussed A careful listening to the tradition of rite and word is truly indispensable for sacramental theology It was out of such listening that Vatican II teaching

on sacraments emerged and provision was made for recovering the full richness of the tradition Not all of the recent theological speculations and pastoral strategies given an equally serious acknowledgement to the tradition The liturgies that are studied in this book have been given to the Church in the wake of Vatican II The historical chapters will show the liturgies to be a contemporary expression of fidelity to core values of the Apostolic Tradition The chapters on the rite of each sacrament are mainly descriptive and historical but also include anthropological reflections that unveil the human significances of the various rites The chapters on the word examine the biblical and traditional word spoken in the churches about each sacrament and conclude with what is called a systematic essay The bibliography has updated to reflect the development in the field
