scholarship downplaying these aspects of modern works as uncanny hauntings or symptoms of capitalism's or anthropocentrism's destructiveness or within a blanket rubric of magical realism Hilary Thompson rejects this partitioning of them as products of an exotic East or global South By contrast this book builds a new critical framework for analysis of worldly spirits drawing on anthropological discussions of animism the newly recovered 1930s boundary crossing art movement Dimensionism and multispecies theories of animals diverse perceptual worlds Taking stock of novels published from 2018-2020 by such writers as Amitav Ghosh Andr Alexis Yongsze Choo Azareen Van der Vliet Oloomi Zeyn Joukhadar and Tanya Tagaq Thompson illuminates how these works extend an ecological call to decentre the human and align with multidimensional theories of art and literature to provide ways to read for rather than reduce the extra human dimensions emerging in contemporary fiction A refreshing rejection of ecological apocalypticism this book unsettles typical conceptualizations of both anglophone and Anthropocene literatures by invoking European art theory philosophy and non Western ideas on animism and spirits to put forward perceptions of the extra human as a form of dealing with the many uncertainties of today's different crises
