that for most of this period I was not so much stepping to meet Hathor as dawdling on the way. A religion for the modern world. The concept of maat also translates readily into the field of ecology. Ecological balance is a matter of balance between species and between those species and the environments in which they live. This clearly has a kinship with the balance between the stars which is most certainly a matter of maat. Ecology is not in itself an ancient Egyptian concept but the way in which it slots so readily into Kemetic ideas demonstrates how adaptable those conceptions are. It may also form another example of the ease with which Kemetic religion fits with rationalism.
