Tractatus de divinitate et canonicitate sacrorum Bibliorum. With a dedication by C. Marchini, and a life of the author. F.P.** Giovanni Francesco MARCHINI,1874      **Biblical Scholarship in Louvain in the 'Golden' Sixteenth Century** Antonio Gerace,2019-07-15 Antonio Gerace dealt with the development of biblical scholarship in Louvain by analysing with seven authors who worked in the first part of the Sixteenth century and who are strictly linked to the Louvain milieu In chronological order they include Nicholas Tacitus Zegers c 1495 1559 John Henten 1499 1566 Cornelius Jansenius of Ghent Adam Sasbout John Hessels 1522 1566 Thomas Stapleton and Francis Lucas of Bruges Each author offered key contributions that can effectively show the development of Catholic biblical scholarship in that period This can be divided into three main thematic areas 1 Text criticism of the Latin Vulgate 2 Exegesis of the Scriptures and 3 Preaching of the Bible Somehow these three areas represent the study flow of the Scriptures the emendation of the Vulgate aimed at restoring the text to a hypothetical original and the philological approach to the Greek and Hebrew sources allowing for a better comprehension of the Bible Such comprehension becomes the basis of commentaries made with the intention of explaining the meaning of the Scriptures to the faithful in the light of the Tradition Furthermore the Church needed to preach the Scriptures and their contents to the Catholic flock in order to safeguard them from any heretical influence Therefore several homiletic works appeared so that priests could prepare their sermons appropriately Therefore Gerace divided his work into three parts each devoted to one of the three research areas following the study flow of the Scriptures

John Trevisa's Information Age Emily Steiner,2021-08-20 What would medieval English literature look like if we viewed it through the lens of the compendium In that case John Trevisa might come into focus as the major author of the fourteenth century Trevisa d 1402 made a career of translating big informational texts from Latin into English prose These included Ranulph Higden s Polychronicon an enormous universal history Bartholomaeus Anglicus s well known natural encyclopedia

De proprietatibus rerum and Giles of Rome's advice for princes manual De regimine principum These were shrewd choices accessible and on trend De proprietatibus rerum and De regimine principum had already been translated into French and copied in deluxe manuscripts for the French and English nobility and the Polychronicon had been circulating England for several decades This book argues that John Trevisa's translations of compendious informational texts disclose an alternative literary history by way of information culture Bold and lively experiments these translations were a gamble that the future of literature in England was informational prose This book argues that Trevisa's oeuvre reveals an alternative literary history more culturally expansive and more generically diverse than that which we typically construct for his contemporaries Geoffrey Chaucer and William Langland Thirteenth and early fourteenth century European writers compiled massive reference books which would shape knowledge well into the Renaissance This study maintains that they had a major impact on English poetry and prose In fact what we now recognize to be literary properties emerged in part from translations of medieval compendia with their inventive ways of handling vast quantities of information

**Dante's Enigmas** Richard Kay, 2024-10-28 Dante's Comedy is a puzzling poem because the author wanted to lead his readers to understanding by engaging their curiosity While many obscure matters are clarified in the course of the poem itself others have remained enigmas that have fascinated Dantists for centuries Over the last thirty five years Richard Kay has proposed original solutions to many of these puzzles these are collected in the present volume Historical context frames Kay's readings which relate the poem to such standard sources as the Bible Aristotle Aquinas and the Latin classics but he also goes beyond these Scholastic sources to exploit Dante's use of less familiar aspects of Latin clerical culture including physiognomy Vitruvian proportions and optics and most especially astrology Kay explores new ways to read the Comedy For instance he argues that Dante has embedded references to his authorities in a continuous series of acrostics formed by the initial letters of each tercet Again he shows how Dante returns to the theme of each infernal canto and develops it in the parallel cantos of Purgatorio and Paradiso Particularly worthy of note are four essays on the poem's finale in the Empyrean
