Brown, 2001-12-06 In 1801 the United Kingdom was a semi confessional State and the national established Churches of England Ireland and Scotland were vital to the constitution They expressed the religious conscience of the State and served as guardians of the faith Through their parish structures they provided religious and moral instruction and rituals for common living This book explores the struggle to strengthen the influence of the national Churches in the first half of the nineteenth century For many the national Churches would help form the United Kingdom into a single Protestant nation state with shared beliefs values and a sense of national mission Between 1801 and 1825 the State invested heavily in the national Churches But during the 1830s the growth of Catholic nationalism in Ireland and the emergence of liberalism in Britain thwarted the efforts to unify the nation around the established Churches Within the national Churches themselves moreover voices began calling for independence from the State connection leading to the Oxford Movement in England and the Disruption of the Church of Scotland *Kind Neighbours: Scottish Saints and Society in the Later Middle Ages* Tom

Turpie, 2015-08-31 In *Kind Neighbours* Tom Turpie explores devotion to Scottish saints and their shrines in the later middle ages He provides fresh insight into the role played by these saints in the legal and historical arguments for Scottish independence and the process by which first Andrew and later Ninian were embraced as patron saints of the Scots *Kind Neighbours* also explains the appeal of the most popular Scottish saints of the period and explores the relationship between regional shrines and the Scottish monarchy Rejecting traditional interpretations based around church led patriotism or crown patronage Turpie draws on a wide range of sources to explain how religious political and environmental changes in the later middle ages shaped devotion to the saints in Scotland The Cathedrals and Churches of the Rhine M.
