Second Gun:

The Machine Gun: Development during World War II and Korean Conflict by the United States and their Allies, of full automatic machine gun systems and high rate of fire power driven cannon George Morgan Chinn,1951 The series of books entitled *The machine gun* was begun with the belief that the next best thing to actual knowledge is knowing where to find it The research summarized within the covers of these volumes has been compiled by the Bureau of Ordnance Department of the Navy in order to place in the hands of those rightfully interested in the art of automatic weapon design the world s recorded progress in this field of endeavor Vol II p v *Railway Guns of World War II* Steven J. Zaloga,2016-02-25 World War II marked the zenith of railway gun development Although many of the railway guns deployed at the start of the conflict were of World War I vintage Germany s ambitious development programme saw the introduction of a number of new classes including the world s largest the 80cm calibre Schwerer Gustav and Schwerer Dora guns which weighed in at 1 350 tons and fired a huge 7 ton shell This book provides an overview of the types of railway guns in service during World War II with a special focus on the German railway artillery used in France Italy and on the Eastern Front and analyzes why railway guns largely disappeared from use following the end of the war *Gun Rights* The New York Times Editorial Staff,2020-07-15 As the Second Amendment to the U S Constitution the right to bear arms may be considered a founding tenet of American life The expression of that right however has generated no end of debate The association of guns with injury murder suicide and accidents has prompted activists and lawmakers alike to propose and pass regulations about who can buy guns and how they can be used While one segment of the population wants to ban guns altogether another bristles at any infringement at all In between both extremes are multiple issues and perspectives that this thought provoking collection of articles examines in depth Media literacy questions and terms are included to help readers further analyze news coverage and reporting styles

Two-Gun Cohen Daniel S. Levy,2002-04 The Machine Gun George M. Chinn,1962 **British Naval Weapons of World War Two** Norman Friedman,2020-07-30 John Lambert was a renowned naval draughtsman whose plans were highly valued for their accuracy and detail by modelmakers and enthusiasts By the time of his death in 2016 he had produced over 850 sheets of drawings many of which have never been published These have now been acquired by Seaforth and this is the third of a planned series of albums on selected themes reproducing complete sheets at a large page size with an expert commentary and captioning The initial volumes concentrate on British naval weaponry used in the Second World War thus completing the project John Lambert was working on when he died His interest was always focused on smaller warships and his weapons drawings tend to be of open mountings the kind that present a real challenge to modelmakers rather than enclosed turret guns but he also produced drawings of torpedo tubes underwater weapons fire control directors and even some specific armament related deck fittings Following the earlier volumes on destroyer and escort armament this one covers the multitude of weapons carried by Coastal Forces many of which were improvised ad hoc or obsolescent but

eventually leading to powerful purpose designed weaponry An appendix covers the main deck guns carried by British submarines of this era The drawings are backed by introductory essays by Norman Friedman an acknowledged authority on naval ordnance while a selection of photographs adds to the value of the book as visual reference Over time the series will be expanded to make this unique technical archive available in published form a move certain to be welcomed by warship modellers enthusiasts and the many fans of John Lambert's work

The Naval History of Great Britain William James, 1826

Xin Loi, Viet Nam Al Sever, 2009-02-04 No one in Vietnam had to tell door gunner and gunship crew chief Al Sever that the odds didn't look good He volunteered for the job well aware that hanging out of slow moving choppers over hot LZs blazing with enemy fire was not conducive to a long life But that wasn't going to stop Specialist Sever From Da Nang to Cu Chi and the Mekong Delta Sever spent thirty one months in Vietnam fighting in eleven of the war's

sixteen campaigns Every morning when his gunship lifted off often to the clacking and muzzle flashes of AK 47s hidden in the dawn fog Sever knew he might not return This raw gritty gut wrenching firsthand account of American boys fighting and dying in Vietnam captures all the hell horror and heroism of that tragic war *Journal of the United States Artillery* ,1907
