Hunter, 2005-08-16 Psalms examines the nature of the Psalms as a text in English dealing specifically with the problem of translation and various aspects of the techniques on reading with relation to traditional approaches within Biblical studies and contemporary literary theory Alastair Hunter also outlines a programmatic approach to reading and applies it to a selection of individual Psalms **Theory into Poetry**, 2022-05-20 At the beginning of the 21st century there is still no generally accepted comprehensive definition of the lyric or differentiated modern toolkit for its analysis The reception of poetry is largely characterised either by an empathetic identification of critics with the lyric persona or by

exclusive interest in formal patterning The present volume seeks to remedy this deficit All the contributors theorise the lyric to overcome the impasse of an impressionistic and narrowly formalistic critical debate on the genre Their papers focus on a variety of different questions the problem of establishing a framework for definition and classification the search for dynamic and potent critical approaches investigations of poetry's cultural performance and its fundamental relevance for the construction of group cohesion The essays collected in this volume offer a consciously polyphonic range of theories and interpretations suggesting to the reader a variety of theoretical frameworks and practical illustrations of how a discussion of poetry may be firmly grounded in modern literary theory Thinking Through Poetry Marjorie Levinson, 2018-07-04

Thinking through Poetry Field Reports on Romantic Lyric pursues two goals The title signals the contribution to debates about reading Do we think through by means of with poems sympathetically elaborating their surfaces Is this compatible with a second meaning thinking through poems to their end solving a problem getting to its root its deep truth Third can we square these surface and depth readings with a speculative philosophical criticism to which the poem carries us where through denotes a going beyond All three meanings of through are in play throughout The subtitle applies field first to Romantic studies since the 1980s a field that this project reflects upon from beginning to end Examples are drawn especially from Wordsworth but also from Coleridge and in assessing Romanticism's afterlife from Stevens Field also characterizes the shift from a unitary to a field concept of form during that time span a shift pursued through prolonged engagement with Spinoza Field thus underscores the synthesis of form and history the importance of analytic scale to that synthesis and the displacement of entity text by relation as the object of investigation While the book historically connects early nineteenth century intellectual trends to twentieth and twenty first century scientific revolutions its focuses on introducing new models to literary criticism Unlike accounts of the influence of science on literature or various literature X approaches literature and ecology literature and cognitive science it constructs its object of inquiry in a way cognate with work in non humanities disciplines thus highlighting a certain unity to human knowledge The claim is that specialists in literature should think the way distinguished scientists think and vice versa **The Writer's Craft, the Culture's Technology** , 2005-01-01

The Writer's Craft the Culture's Technology explores the multiple ways in which a culture's technological resources shape its literary productions Literature and style cannot be divorced from the particular technologised culture that sponsors them This has always been true as papers here on literature from earlier periods show But many of the papers focus on contemporary culture where literature vies for attention with film the internet and other multimodal cultural forms These essays from an international array of experts are stylistics based but not stylistics bound They should be of interest to all who are interested in discourse analytic commentaries on how technological horizons as always continue to shape the forms and functions of literature and other cultural productions *Self-Help To Treasure Trove A Collection of Poems (Volume-I) For Classes 9 and 10* Dr. Jaideep Randhawa, This book is written by Dr Jaideep Randhawa and it includes the following chapters It
