Activities,1965 **Rebel Lands of Cuba** Joanna Swanger,2015-05-06 The book is a comparative history of twentieth century Cuban campesinos in two regions in Cuba marked by extreme differences in race gender and land tenure Oriente and Escambray It explores the ways these differences articulated with state formation from the pre revolutionary period of 1934 1959 and then 1959 1974 and seeks to explain why campesinos in Escambray having been active in the insurrection against Batista later turned to stage a massive counter revolution against the government headed by Fidel Castro Although campesinos in both regions had been equally ignored by pre 1959 governments for different reasons they developed two distinct understandings of what the role of the state should be in response to political neglect Rich archival sources many of which have not been accessed previously document the unique shape of land struggles in each region in the 1930s through the 1950s The author argues that because of the way race and gender and a collectivist land tenure tradition in Oriente mapped nicely onto the goals of the 1959 Revolution Oriente became a kind of revolutionary showcase In Escambray on the other hand a construct of white masculinity tied to private property ownership directly contravened the goals of the Revolution which fueled the counter revolution and also led to brutal state repression in the area Fidel! Sheldon B. Liss,2019-04-08 The author of this book takes a highly original approach to understanding the past three decades of Cuban history he offers an analysis and interpretation of the prolific writings and speeches of Fidel Castro and of numerous interviews with him Through Castro s own words Sheldon Liss examines the evolution of the Cuban leader s political and soci

U.S. Presidents and Latin American Interventions Michael Grow,2008-06-10 Lyndon Johnson invaded the Dominican Republic Richard Nixon sponsored a coup attempt in Chile Ronald Reagan waged covert warfare in Nicaragua Nearly a dozen times during the Cold War American presidents turned their attention from standoffs with the Soviet Union to intervene in Latin American affairs In each instance it was declared that the security of the United States was at stake but as Michael Grow demonstrates these actions had more to do with flexing presidential muscle than responding to imminent

danger From Eisenhower's toppling of Arbenz in Guatemala in 1954 to Bush's overthrow of Noriega in Panama in 1989 Grow casts a close eye on eight major cases of U S intervention in the Western Hemisphere offering fresh interpretations of why they occurred and what they signified The case studies also include the Bay of Pigs fiasco Reagan's invasion of Grenada in 1983 and JFK's little known 1963 intervention against the government of Cheddi Jagan in British Guiana Grow argues that it was not threats to U S national security or endangered economic interests that were decisive in prompting presidents to launch these interventions Rather each intervention was part of a symbolic geopolitical chess match in which the White House sought to project an image of overpowering strength to audiences at home and abroad in order to preserve both national and presidential credibility As Grow also reveals that impulse was routinely reinforced by local Latin American elites such as Chilean businessmen or opposition Panamanian politicians who actively promoted intervention in their own self interest LBJ's loud lament What can we do in Vietnam if we can't clean up the Dominican Republic reflected just how preoccupied our presidents were with proving that the U S was no paper tiger and that they themselves were fearless and forceful leaders Meticulously argued and provocative Grow's bold reinterpretation of Cold War history shows that this special preoccupation with credibility was at the very core of our presidents approach to foreign relations especially those involving our Latin American neighbors

Activities,1963 *The New Cold War, China, and the Caribbean* Scott B. MacDonald,2022-07-15 This book examines the slide into a new Cold War in the Caribbean The primary argument is that the Caribbean s geopolitics have shifted from a period of relative great power disinterest in the aftermath of the Cold War to a gradual movement into a new Cold War in which a global rivalry between the U S and China is acted out regionally The result of this is a gradual polarization of countries in the Caribbean as they are increasingly pressured to choose between Washington and Beijing this being very evident during the Trump years It can be argued that the U S focus on the Caribbean in the late 1990s through the early 21st century diminished leaving the region open to a China ready and eager to do business and guided by a diverse set of objectives The book brings the reader into a discussion on international relations with a main focus on U S Chinese relations being played out in the Caribbean an important strategic region for the North American country **Lecture Bulletin of the Institute of Social Economics** ,1899 **Veterinary Medicine** ,1915 **First Lessons in American History** Samuel Eagle Forman,1916 American Journal of Veterinary Medicine ,1915
