Scott, 2011-01-03 This is an inspirational memoir by a Registered Nurse whose career ended with one incident and diagnosis of Post Traumatic Stress Disorder after a string of trauma victims in a Australian rural hospital mortuary The search for her identity without nursing will take you through her childhood memories her adventures as a bush nurse in a remote ski resort travels abroad and the

adversity faced with an injured husband raising three toddlers Using her father s wisdom and her strong beliefs life comes full circle reminding us we can overcome death loss and labels by living life share this story that took her on full circle and has to be told so others can overcome tough times combating death and labels by living life BOOK REVIEW The memoir of an accomplished bush nurse and nursing supervisor inspired by the career ending encounter with a particularly gruesome death Scott s memoir opens with her receiving a diagnosis of post traumatic stress disorder a condition induced by her first hand exposure to the severely damaged corpse of a swimmer Facing the prospect of not returning to work Scott ruminates on her life leading up to that moment She takes us through her happy girlhood on a farm painting lush imagery one of the book s strong suits The young Margaret makes for an endearing presence the forbearance and no nonsense work ethic that will later assist her is evident in her youth While Scott shares a few relevant memories from farm life such as the bandage she instinctively created when her father lost a finger and the demise of various animals many events described at length distract from the central theme The author covers her decision to enter nursing strongly colored by her desire to travel via bush nursing her early schooling and the acquisition of her first nursing jobs While details concerning the niche brand of skier injury nursing she s acquainted with in her pioneering work at a remote resort are interesting in their own right they re not well blended with the book s main focus and the inclusion of the non nursing related minutiae of her many travels and friendships take the narrative further from an examination of the psychological toll inherent in regularly confronting death A purported brush with telepathic communication serves to jolt focus from practical nursing entirely Suffering from a lack of integration with the rest of the memoir s subject matter this instance brings the credibility of surrounding observations into question Scott s return in the final chapter to the aphorism that death just happens should inspire one to live emphatically but it feels forced rather than a graceful punctuation of the grand arc of her story Also Scott s sentence structure throughout much of the book is confused in terms of subject verb agreement tense and singularity plurality which makes the text unnecessarily challenging Scott covers independently interesting topics but the book would greatly benefit from improved focus and grammatical polishing Kirkus Discoveries Post traumatic stress disorder is commonly assumed to be an unwelcome souvenir of battle but PTSD also affects people who have never heard a bomb explode or a rifle shot fired in anger Margaret J Scott enjoyed most of her duties as a respected and hard working nursing supervisor in an Australian hospital What she didn t realize was the enormous strain her job put on her psyche Apparently after studying the hospital mortuary stats with the hospital s occupational health and safety officer the numbers I had been involved in were excessive I was supposed to have snapped years prior He went on to say I had been working a 93 percent rate of trauma the analogy he used was in Beirut Lebanon the medical and nursing are monitored to work only 30 percent trauma in any given year I had been doing this for over fifteen

Proceedings of the International Conference on Women in Health, June 16-18, 1975, Washington, D.C. ,1976 **If Asylum Walls Could Speak** Sandy Bayley nee Williams,2015-07-25 Sandy embarked on her mental health

nursing career in Parkside Hospital in 1964 as a naive seventeen year old child and stepped into another world a world of entrenched culture such as the deep division of the sexes and women incarcerated for infidelity and labelled morally insane doomed to spend the rest of their lives in the asylum Pencil baths gang showers and group bathing and how a young window cleaner saw more than he expected to and fled The stately matron in her crisply starched whites and fearsome charge nurses who evoked terror among the junior staff Sandy relates hilarious tales of bodies being transported in the dead of night to the hospital mortuary by some very unconventional means The camaraderie and the close knit community of the hospital made it a home to many but asylum to most With 1 300 beds and the ridiculous ratio of fifty patients to one nurse on night duty she still had time to knit between rounds Sandy rolled up her sleeves and got on with the job and fifty years later she is still rolling with the punches literally **Pamphlet** ,1923
