Secret Between Us Women And Competition:

Cheating on the Sisterhood Lauren Rosewarne, 2009-05-14 Drawing on the author's own experience as the other woman in an affair with an otherwise committed man, this contemporary feminist study is the first to label the role of the two-timing male as sexual terrorist. *Cheating on the Sisterhood: Infidelity and Feminism* is a feminist analysis of the imbroglio of sexual politics, brute sociobiology, and pop-mediated passion that is conjured up when a married man cheats on his wife with a younger single woman. Drawing frankly on her own experience as the other woman, Lauren Rosewarne scrutinizes the alternate readings of the politics of cheating in terms of feminism's program of gender equality. Arguing that contemporary feminism does not automatically endorse or reject any particular choices, she shows what happens when all three parties to the classic triangle happen to be feminists, each trotting out a different set of feminist arguments to justify, vilify, and rationalize his or her actions. Is the other woman this book asks just a tool of the cheating man's assertion of gender dominance over both his mate and his mistress, and a willy-nilly traitor to the sisterhood?

From Soul to Hip Hop Tom Perchard, 2017-07-05 The essays contained in this volume address some of the most visible, durable, and influential of African American musical styles as they developed from the mid-1960s into the 21st century. Soul, funk, pop, R&B, and hip hop practices are explored both singly and in their many convergences, and in writings that have often become regarded as landmarks in black musical scholarship. These works employ a wide range of methodologies, and taken together they show the themes and concerns of academic black musical study developing over three decades. While much of the writing here is focused on music and musicians in the United States, the book also documents important and emergent trends in the study of these styles as they have spread across the world. The volume maintains the original publication format and pagination of each essay, making for easy and accurate cross-reference and citation. Tom Perchard's introduction gives a detailed overview of the book's contents and of the field as a whole, situating the present essays in a longer and wider tradition of African American music studies. In bringing together and contextualising works that are always valuable but sometimes difficult to access, the volume forms an excellent introductory resource for university music students and researchers.

Generations Devoney Looser, E. Ann Kaplan, In universities and colleges across the country, feminists are debating their histories and future legacies. Some older feminists accuse younger ones of being overly theoretical, insufficiently political, and ungrateful to previous generations. The younger ones consider their foremothers naive or elitist. *GENERATIONS* explores these conflicts and challenges between older and younger feminist scholars.

The Institution of Literature Jeffrey Williams, 2002-01-01 Leading voices in literary and cultural studies examine the study of literature at the college level, including the fate of theory, the rise of cultural studies, the academic star system, and the difficult job market.

productive and satisfying **Woman's Inhumanity to Woman** Phyllis Chesler, 2009-05-01 Man's inhumanity to man the phrase is all too familiar But until Phyllis Chesler's now classic book a profound silence prevailed about woman's inhumanity to woman Women's aggression may not take the same form as men's but girls and women are indeed aggressive often indirectly and mainly toward one another They judge harshly hold grudges gossip exclude and disconnect from other women Like men women are exposed to the messages of misogyny and sexism that permeate cultures worldwide Like men women unconsciously buy into negative images that can trigger abuse and mistreatment of other women But like other social victims many do not realize stereotyping affects members within the victimized group as well as those outside the group They do not realize their behavior reflects society's biases How women view and treat other women matters Are women oppressed Yes Do oppressed people internalize their oppressors attitudes Without a doubt Prejudice must first be acknowledged before it can be resisted or overcome More than men women depend upon one another for emotional intimacy and bonding and exclusionary and sexist behavior enforces female conformity and discourages independence and psychological growth Continuing the pioneering work begun in *Women and Madness* Chesler's bestselling book that broke the story on double standards in psychology *Woman's Inhumanity to Woman* draws on important studies revolutionary theories literature and hundreds of original interviews Chesler urges us to look within to treat other women realistically ethically and kindly and to forge bold and compassionate alliances This is a necessary next step for women without which they will never be liberated

Benenson,2014-01-08 The question of exactly what sex

differences exist and whether they have a biological foundation has been one of our culture's favorite enduring discussions. It should. After a baby is born, a parent's first concern is for its physical health. The next concern is its sex. Only in the most modern societies does sex not virtually guarantee the type of future life a new human being will have. Even in modern societies, one's sex usually plays a large role in the path a life follows. Scientists have published thousands of papers on the subject with the general conclusion being that men and women are mostly the same; whatever differences exist have been socialized and what differences exist have to do with women bearing children and men being physically stronger. In *Warriors and Worriers*, psychologist Joyce Benenson presents a new theory of sex differences based on thirty years of research with young children and primates around the world. Her innovative theory focuses on how men and women stay alive. Benenson draws on a fascinating array of studies and stories that explore the ways boys and men deter their enemies while girls and women find assistants to aid them in coping with vulnerable children and elders. This produces two social worlds for each sex which sets humans apart from most other primate species. Human males form cooperative groups that compete against outgroups while human females exclude other females in their quest to find mates, female family members to invest in their children and keep their own hearts ticking. In the process, Benenson turns upside down the familiar wisdom that women are more sociable than men and that men are more competitive than women.

The issue of gender inequality in architecture has been part of the profession's discourse for many years, yet the continuing gender imbalance in architectural education and practice remains a difficult subject. This book seeks to change that. It provides the first ever attempt to move the debate about gender in architecture beyond the tradition of gender segregated diagnostic or critical discourse on the debate towards something more propositional, actionable and transformative. To do this, *A Gendered Profession* brings together a comprehensive array of essays from a wide variety of experts in architectural education and practice touching on issues such as LGBT age, family status and gender biased awards.

Ruptures: Anti-colonial & Anti-racist Feminist Theorizing Njoki Wane, Jennifer Jagire, Zahra Murad, 2014-02-07 This book provides tools and theoretical frameworks to make sense of how the world is regulated, governed, controlled with regard to the exclusivity of certain members of the society and in particular women from marginalized groups. This book therefore engages readers by asking thought provoking questions to interrogate issues of marginality and oppression in society. The book as a collective provides an intellectual discourse on feminism, anticolonial thought and anti racism. This book is a must read for scholars, activists, theorists and researchers who are seeking to rupture the borders of confinement and move beyond the imaginary margins created by organized structures in society.
