The miracle of the supermarket has never been more apparent. Like the doctors and nurses who care for the sick, suddenly the men and women who stock our shelves and operate our warehouses are understood as essential workers providing a quality of life we all too easily take for granted. But the sad truth is that the grocery industry has been failing these workers for decades. In this page-turning expose, author Benjamin Lorr pulls back the curtain on the highly secretive grocery industry. Combining deep sourcing, immersive reporting, and sharp, often laugh-out-loud prose, Lorr leads a wild investigation asking what it takes to run a supermarket. How does our food get on the shelves? And who suffers for our increasing demands for convenience and efficiency? In this journey, we learn the secrets of Trader Joe's success from Trader Joe himself. Drive with truckers caught in a job they call sharecropping on wheels. Break into industrial farms with activists to learn what it takes for a product to earn certification labels like fair trade and free range. Follow entrepreneurs as they fight for shelf space, learning essential tips, tricks, and traps for any new food business. Journey with migrants to examine shocking forced labor practices through their eyes. The product of five years of research and hundreds of interviews across every level of the business, *The Secret Life of Groceries* is essential reading for those who want to understand our food system, delivering powerful social commentary on the inherently American quest for more and compassionate insight into the lives that provide it.

Big Hunger Andrew Fisher, 2018-04-13 How to focus anti hunger efforts not on charity but on the root causes of food insecurity improving public health and reducing income inequality Food banks and food pantries have proliferated in response to an economic emergency The loss of manufacturing jobs combined with the recession of the early 1980s and Reagan administration cutbacks in federal programs led to an explosion in the growth of food charity This was meant to be a stopgap measure but the jobs never came back and the emergency food system became an industry In *Big Hunger* Andrew Fisher takes a critical look at the business of hunger and offers a new vision for the anti hunger movement From one perspective anti hunger leaders have been extraordinarily effective Food charity is embedded in American civil society and federal food programs have remained intact while other anti poverty programs have been eliminated or slashed But anti hunger advocates are missing an essential element of the problem economic inequality driven by low wages Reliant on corporate donations of food and money anti hunger organizations have failed to hold business accountable for offshoring jobs cutting benefits exploiting workers and rural communities and resisting wage increases They have become part of a hunger industrial complex that seems as self perpetuating as the more famous military industrial complex Fisher lays out a vision that encompasses a broader definition of hunger characterized by a focus on public health economic justice and economic democracy He points to the work of numerous grassroots organizations that are leading the way in these fields as models for the rest of the anti hunger sector It is only through approaches like these that we can hope to end hunger not just manage it

Why Diets Fail (Because You're Addicted to Sugar) Nicole M. Avena, PhD, John R. Talbott, 2013-12-31 This revolutionary eating plan reveals definitive proof that sugar is addictive and presents the first science based program to cut out the sugar stop the cravings that cause most diets to eventually fail and lose weight permanently If you're like most people you've tried a few or maybe many different diets without success The truth is most diets work for a while but there's usually a point at which the dietary restrictions become too difficult to maintain Why? Because whether you're following a low carb paleo gluten free or even an all liquid green juice diet the addictive nature of sugar causes cravings to take over and sabotage your diet of the moment In *Why Diets Fail* Dr Nicole M Avena and John R Talbott reveal definitive proof that sugar is addictive and present the first science based program to stop the cravings and lose weight permanently A neuroscientist and food addiction expert Dr Avena has conducted groundbreaking research showing that sugar triggers the same responses in the brain as addictive drugs like cocaine nicotine and alcohol And like those other substances the more sugar you eat the more you need to get the

same pleasurable feelings No wonder your last diet didn't stick Avena and Talbott's eight step plan walks you through the process of going sugar free and surviving the make or break withdrawal period those first few weeks when your body feels the absence of its favorite sweetener most acutely An easy to use Sugar Equivalency Table developed by Talbott lists the amount of sugar in hundreds of common foods so you know precisely what to eat and what to avoid And when it comes to what you can eat you have a lot to choose from In fact you'll probably eat more on this diet than you normally do while continuing to lose weight This science based program is the diet to end all diets It will help you break the yo yo dieting cycle end those maddening sugar cravings and develop a new longing for the good food that will keep you fit healthy and happy

The Business of Food Gary Allen, Ken Albala, 2007-10-30 The business of food and drink is for better and worse the business of our nation and our planet and to most consumers how it works remains largely a mystery This encyclopedia takes readers as consumers behind the scenes of the food and drink industries The contributors come from a wide range of fields and the scope of this encyclopedia is broad covering from food companies and brands to the environment health science and technology culture finance and more The more than 150 essay entries also cover those issues that have been and continue to be of perennial importance Historical context is emphasized and the focus is mainly on business in the United States Most entries include Further Reading The frontmatter includes an Alphabetical List of Entries and a Topical List of Entries to allow the reader to quickly find subjects of interest Numerous cross references in the entries and blind entries provide other search strategies The person and subject index is another in depth search tool Sample entries Advertising Agribusiness Altria Animal Rights Betty Crocker Celebrity Chefs Chain Restaurants Commodities Exchange Cooking Technology Culinary Tourism Eco terrorism Environmental Protection Agency Ethnic Food Business European Union Flavors and Fragrances Food Safety Food Service Industry Genetic Engineering Internet Labor and Labor Unions Marketing to Children McDonald's Meat Packing North American Free Trade Agreement Nutrition Labeling Organic Foods Poultry Industry Slow Food SPAM Television Trader Joe's Tupperware TV Dinners Whole Foods Williams Sonoma Wine Business
