Secret Of The Christian Way A Contemplative Ascent Through The Writings Of Jean Borella:

The Secret of the Christian Way Jean Borella,2001-02-01 A selection of key writings from the French religious philosopher Jean Borella **The Catholic Church and the World Religions** Gavin D'Costa,2011-04-28 There is no single standard textbook that outlines the official Roman Catholic theological position in relation to other religions which then explicates this orientation theologically and phenomenologically in relation to the four main religions of the world and the flowering of new religious movements in the west The present project will cover this serious gap in the literature After outlining the teaching of Vatican II and the magisterium since then chapter one each subsequent chapter will be divided equally between a an exposition of the history and features of the religion or movement being studied and b a serious theological analysis of these features showing how these religions do have elements in common as well as how they differ in fundamental ways from Catholicism *Harry Potter's Bookshelf* John Granger,2009-07-07 Harry Potter The name conjures up J K Rowling s wondrous world of magic that has captured the imaginations of millions on both the printed page and the silver screen with bestselling novels and blockbuster films The true magic found in this children s fantasy series lies not only in its appeal to people of all ages but in its connection to the greater world of classic literature Harry Potter s Bookshelf The Great Books Behind the Hogwarts Adventures explores the literary landscape of themes and genres J K Rowling artfully wove throughout her novels and the influential authors and stories that inspired her From Jane Austen s Emma and Charles Dickens s class struggles through the gothic romances of Dracula and Frankenstein and the detective mysteries of Dorothy L Sayers to the dramatic alchemy of C S Lewis J R R Tolkien and William Shakespeare Rowling cast a powerful spell with the great books of English literature that transformed the story of a young wizard into a worldwide pop culture phenomenon

Beauty for Truth's Sake Stratford Caldecott,2017-05-16 Based in the riches of Christian worship and tradition this brief eloquently written introduction to Christian thinking and worldview helps readers put back together again faith and reason truth and beauty and the fragmented academic disciplines By reclaiming the classic liberal arts and viewing disciplines such as science and mathematics through a poetic lens the author explains that unity is present within diversity Now repackaged with a new foreword by Ken Myers this book will continue to benefit parents homeschoolers lifelong learners Christian students and readers interested in the history of ideas **Guénonian Esoterism and Christian Mystery** Jean

Borella,2005-03 Rene Guenon s explication of the principles of an interior understanding of sacred forms has established his reputation in the West as the master theorist of esoterism But till now his doctrine has not been the focus of thorough study in Christian circles and this has had serious consequences Guenonian Esoterism and Christian Mystery is the first major work to combine an analysis of Guenon s ideas about esoterism with a critical examination of their application to Christianity in terms of data provided by Christianity itself But to accomplish this such data cannot simply be surveyed superficially it must be known firsthand hence the abundance of citations and references in this text Such an approach not only lets us

decide about certain issues but may also help us rediscover an all too misunderstood facet of the revelation of Christ Jean Borella taught philosophy at the University of Nancy until 1995 A Platonist by formation he has been strongly influenced by Guenon and Eastern metaphysics But his deepest inspiration derives from unceasing meditation on the Christian faith which led him to undertake the present searching critique of Guenonian Christianity A religious philosopher he strives to hear the reverberations awakened in human thought by revelation Rene Guenon was one of the great metaphysical minds of the last few centuries and it was a great loss to the Catholic Church when he converted to Islam Prof Borella shows in this landmark study exactly where Guenon s work remains of perennial value for Christians but also demonstrates the limitations and personal idiosyncrasies which led Guenon to distort some of the most important elements of Catholic and Orthodox doctrine Prof Borella s book may well stimulate the recovery of authentic metaphysics within the Church for which Guenon longed but which he despaired of seeing in his lifetime Stratford Caldecott Editor Second Spring Director UK of the G K Chesterton Institute for Faith Culture

Not Of This World: A Treasury Of Christi James S. Cutsinger,2010-08-01 Anthology of nearly two thousand years of Christian mystical writings from Catholic Eastern Orthodox and Protestant perspectives This profound and insightful book includes selected writings of Christian sages and saints from the Orthodox Roman Catholic Evangelical and Celtic branches of the Christian tradition They are presented from a perspective of the transcendent unity of denominations

Sacramental Presence after Heidegger Conor Sweeney,2015-01-19 Theology after Heidegger must take into account history and language as constitutive elements in the pursuit of meaning Quite often this prompts a hurried flight from metaphysics to an embrace of an absence at the center of Christian narrativity In this book Conor Sweeney explores the postmodern critique of presence in the context of sacramental theology engaging the thought of Louis Marie Chauvet and Lieven Boeve Chauvet is an influential postmodern theologian whose critique of the perceived onto theological constitution of presence in traditional sacramental theology has made big waves while Boeve is part of a more recent generation of theologians who even more wholeheartedly embrace postmodern consequences for theology Sweeney considers the extent to which postmodernism a la Heidegger upsets the hermeneutics of sacramentality asking whether this requires us to renounce the search for a presence that by definition transcends us Against both the fetishization of presence and absence Sweeney argues that metaphysics has a properly sacramental basis and that it is only through this reality that the dialectic of presence and absence can be transcended The case is made for the full but restless signification of the mother s smile as the paradigm for genuine sacramental presence

The Oxford Handbook of Catholic Theology Lewis Ayres,Medi Ann Volpe,2019-03-28 The Oxford Handbook of Catholic Theology provides a one volume introduction to all the major aspects of Catholic theology Part One considers the nature of theological thinking and the major topics of Catholic teaching including the Triune God the Creation and the mission of the Incarnate Word It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching The treatments in the first part of the Handbook

offer personal syntheses of Catholic teaching but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation Part Two focuses on the historical development of Catholic Theology An initial section offers essays on some of Catholic theology's most important sources between 200 and 1870 and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870 This comprehensive volume features fifty six original contributions by some of the best known names in current Catholic theology from the Americas Europe Asia and Africa The chapters are written in an engaging and easily comprehensible style functioning both as a scholarly reference and as a survey of the field There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts

The Seven Sacraments Stratford Caldecott, 2006 A bold new elegant invitation to enter into the mysteries of the Christian faith This graceful book explains to Catholics and non Catholics alike the mystical heart of the Catholic faith the Seven Sacraments *Choice*, 2000 **The Sense of the Supernatural** Jean Borella, 1998 Jean Borella explores the modernist crisis in Catholic theology its causes and implications and offers a solution to the fundamental dilemma of the Western Christian mind For three centuries philosophers and theologians tried to preserve God's transcendence by denying continuity between the natural and the supernatural This prolonged division allowed an illusory autonomy and an inclination towards totalitarian humanism The writings of Henri de Lubac referring to ancient and Eastern sources were instrumental in dispelling this illusion In this remarkable book Jean Borella lays the foundations for a theology of culture in the tradition of Newman and de Lubac and recalls us to the adventure of the Christian vocation to holiness re opening the place in us where God awaits our waiting on him **International Philosophical Quarterly**, 1961 **American Philosophical Quarterly** Nicholas Rescher, 2001 *The British National Bibliography* Arthur James Wells, 2002 Books in Print Supplement, 2002

Lumières de la théologie mystique Jean Borella, 2002 Grâce des exemples tels que Denys l'Aréopagite et Maître Eckhart J Borella pense au contraire de la théologie scolastique que la science du divin est insparable d'une sanctification de l'intelligence et de l'être tout entier Jean Borella : la révolution métaphysique Bruno Bérard, 2006-05-01 La métaphysique renaît perpétuellement de ses cendres Ni Galilée ni Kant ni Marx ni Freud ni le structuralisme n'auront pu la faire taire La révolution métaphysique c'est arrêter de penser avec des mots pour laisser les idées se penser en nous c'est convertir l'intelligence au symbole et ainsi découvrir que la métaphysique elle-même est subordonnée à la révélation Et c'est Jean Borella travers son œuvre sur 50 ans de j qui nous guide ici sur le chemin de cette conversion **Forthcoming Books** Rose Army, 2000 Aux sources bibliques de la métaphysique Jean Borella, 2015-04-15 Le but de Jean Borella n'est pas d'exposer le contenu d'une métaphysique accord ou tirée de l'écriture mais de se demander si la Bible n'enseignerait pas quelque chose sur la forme et la nature de la démarche métaphysique sur son évolution et ses métamorphoses depuis l'origine des temps Il s'agit de montrer que la rencontre de la Révélation judéo-chrétienne avec la philosophie grecque est l'événement majeur de l'

histoire intellectuelle de l'Occident ce qui permet de préciser ce qu'on peut entendre par métaphysique Marxisme et sens chrétien de l'Histoire Jean Borella, 2016-06-01 La doctrine de Marx continue alors même qu'elle n'a cessé d'être critiquée et de susciter l'intérêt voir l'adhésion d'un nombre croissant d'intellectuels L'idée d'un sens de l'Histoire notamment nourrit une littérature de recherche et un combat politique importants Mais qu'en est-il réellement A-t-on bien lu Marx Jean Borella qui cherche tisser des liens entre philosophie et foi chrétienne travaille dans cet ouvrage sortir des sentiers battus du marxisme orthodoxe pour mettre en regard les conceptions matérialistes et chrétiennes de l'Histoire
