The Birth of the Archive Markus Friedrich, 2018-02-26
The Birth of the Archive traces the history of archives from their emergence in the Late Middle Ages through the Early Modern Period and vividly shows how archives permeated and fundamentally changed European culture Archives were compiled and maintained by peasants and kings merchants and churchmen and conceptions of archives were as diverse as those who used them The complex demanding job of the archivist was just as variable archivists might serve as custodians record keepers librarians legal experts historians scholars researchers public officials or some combination thereof navigating archives was often far from straightforward The shift of archival storage from haphazard collections of papers to the methodically organized institutionalized holdings of the nineteenth century was a gradual nonlinear process Friedrich provides an essential background to the history of archives over the centuries and

enriches the story of their evolution with chapters on key sociocultural aspects of European archival culture He discusses their meaning and symbolism in European thought early modern conceptions of the archive s function and questions of access and usability Exploring the close often vexed relationship between archives and political power Friedrich illustrates the vulnerability of archives to political upheaval and war He concludes with an introspective look at how historians used their knowledge of and work with archives to create distinct representations of themselves and their craft The Birth of the Archive engages with scholarship in political history the history of mentalities conceptions of space historiography and the history of everyday life in early modern Europe It has much to offer for specialists and scholars while the jargon free prose of this translation is also accessible to the general reader **New Commentary on the Code of Canon Law** John P.

Hoskin,Christopher Nugent Lawrence Brooke,Richard Barrie Dobson,2005 Contributions on fundamental aspects of medieval ecclesiastical history demonstrating the importance of primary documents The work of historians in providing new editions of primary documents and other aids to research has tended to go largely unsung yet is crucial to scholarship as providing the very foundations on which further enquiry can be based The essays in this volume conversely celebrate the achievements in this field by a whole generation of medievalists of whom the honoree David Smith is one of the most distinguished They demonstrate the importance of such editions to a proper understanding and elucidation of a number of problems in medieval ecclesiastical history ranging from thirteenth century forgery to diocesan administration from the church courts to the cloisters and from the English parish clergy to the papacy Contributors CHRISTOPHER BROOKE C C WEBB JULIA BARROW NICHOLAS BENNETT JANET BURTON CHARLES FONGE CHRISTOPHER HARPER BILL R H HELMHOLZ PHILIPPA HOSKIN BRIAN KEMP F DONALD LOGAN ALISON MCHARDY **Atomic Light (shadow Optics)** Akira Mizuta Lippit,2005 With a taut poetic style Lippit produces speculative readings of secret and shadow archives and visual structures or phenomenologies of the inside charting the materiality of what both can and cannot be seen in the radioactive light of the twentieth century **Encyclopedia of Case Study Research** Albert J. Mills,Gabrielle Durepos,Elden Wiebe,2010 This is the authoritative reference work in the field An interdisciplinary set it investigates the extensive history design and methods of case study research **The Constantinian Order of Saint George** Guy Stair Sainty,2018-12-01 According to legend the Constantinian Order is the oldest chivalric institution founded by Emperor Constantine the Great and governed by successive Byzantine Emperors and their descendants While this chronology was supported by multiple writers even into the twentieth

century it has little historical basis Nonetheless the Angeli Farnese and Bourbon families which held the Grand Mastership could legitimately claim Byzantine imperial descent albeit in the female line and the Order's cross replicates that seen by Constantine in the vision recorded by both Lactantius and Eusebius writing very soon after Maximian's defeat at the battle of the Milvian Bridge The Order's emergence in the middle of the sixteenth century when Christian Europe was under assault from a militant Ottoman empire gained Papal support almost immediately and by the end of the seventeenth century the Order had members across the Italian peninsula in Spain Bavaria Austria and Bohemia Croatia and Poland Today the majority of the Order's members are found in Italy and Spain but there are also members in Portugal France Belgium Great Britain and Luxembourg with smaller groups in the Netherlands Germany and Sweden as well as an expanding membership in the United States This work examines the conversion of Constantine and the histories of the Angeli Farnese and Bourbon Grand Masterships with extensive reference to hitherto unpublished documents in the Vatican archives and in the Farnese and Bourbon archives in Naples These serve to confirm the close relationship the Order had with the Church and the high regard in which it was held by successive Popes as well as its autonomy as a subject of canon law independent from any crown or temporal sovereignty This unique status has enabled its hereditary Grand Masters to maintain this dignity after the absorption of the former Kingdom of the Two Sicilies into a united Italy The Order's autonomy coupled with the Grand Master's close links to the Spanish Crown has meant that Spanish and Italian citizens as well as the citizens of several other states which have accorded the Order recognition may obtain official permission to wear the Order's decorations 2018 is the three hundredth anniversary of the Papal Bull *Militantis Ecclesiae* which confirmed and approved the previous Papal acts concerning the Order and laid out the rights and privileges of the Order its Grand Masters and members In the early 20th century Pope Saint Pius X and Benedict XV conferred further privileges on the Order approving the statutes while the then future Pope Pius XII had been admitted to the Order in 1913 Today the Order is engaged in works of charity in conformity with the Church's teachings and includes among its members some thirteen Cardinals as well as some thirty members of reigning or former reigning families

A Vietnamese Moses George E. Dutton, 2017 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more A Vietnamese Moses is the story of Philip Binh a Vietnamese Catholic priest who in 1796 traveled from Tonkin to the Portuguese court in Lisbon to persuade its ruler to appoint a bishop for his community of ex-Jesuits Based on Binh's surviving writings from his thirty-seven year exile in Portugal this book examines how the intersections of global and local Roman Catholic geographies shaped the lives of Vietnamese Christians in the early modern era The book also argues that Binh's mission to Portugal and his intense lobbying on behalf of his community reflected the agency of Vietnamese Catholics who vigorously engaged with church politics in defense of their distinctive Portuguese Catholic heritage George E Dutton demonstrates the ways in which Catholic beliefs histories and genealogies transformed how Vietnamese thought about

themselves and their place in the world This sophisticated exploration of Vietnamese engagement with both the Catholic Church and Napoleonic Europe provides a unique perspective on the complex history of early Vietnamese Christianity

Images of Change Teresa Delgado-Jermann,2023-03-02 Images of Change focuses on the visual propaganda employed by Catholic popes in Rome during the time of Tridentine Reform In 1563 at the Council of Trent the Catholic Church decided to reform its own use of imagery in response to Protestant criticism This volume examines how different sixteenth century popes dealt with church reform by looking at the variety of artworks that were commissioned particularly in the city of Rome the immediate sphere of influence of papal power Based on original research in the Vatican archives the book argues that because of the contradictory media strategies employed by individual popes the papacy began to lose its spiritual and temporal influence
