

JEREMY RENNER

SECRET D'ÉTAT

The poster features a central, large photograph of Jeremy Renner as a man with a beard and slicked-back hair, wearing a dark jacket over a t-shirt. He has his hands on his hips and is looking slightly to the left with a serious expression. In the background, there are several smaller, overlapping black and white images: one showing the U.S. Capitol building; another showing a man in a military uniform; and others depicting action scenes like a motorcycle chase and a woman in a car. The overall composition is dynamic and suggests a fast-paced, action-oriented plot.

Shannan,2005-10 The authority of moral law is universal and obligates all Morality and law are the fundamental condition for social order States and nations are built upon law without which they perish John Paul II While each presidential assassination was a tragedy the last was most egregious involving conspiracy among politicians military corporate CEOs and organized crime Sixty six percent of Americans did not believe the official government report that one man acted alone in the assassination Substantial credible evidence points to a cover up by both elected and appointed officials Coup D état explores the premise of Mafia involvement and answers the question what if he lived What if he exposed them In all of history there has never been a nation quite like the United States America s founders

had a specific purpose in mind when they crafted the words that would guide the government of the new republic They created a form of government that has become the envy of the world In the United States the people elect their leaders who govern within constitutional guidelines If the people don't like the way a leader governs they can remove him peacefully through recall or at the next election In congressional districts all over the United States a handful of people continue to elect politicians who probably would not make it to office if more Americans voted In the election of 2000 the country was nearly torn apart when the election came down to a 561 vote difference Having risked their lives and fortune standing up against repressive England America's forefathers would probably not be pleased to see what their dream has become Morality and law are the fundamental conditions for social order Have we become so polarized that murdering a leader we disagree with is acceptable
