Twin Peaks Franck Boulègue,2017-01-15 Few contemporary television shows have been subjected

to the critical scrutiny that has been brought to bear on David Lynch and Mark Frost's Twin Peaks since its debut in 1990. Yet the series and the subsequent film *Fire Walk With Me* are sufficiently rich that it's always possible for a close analysis to offer something new and that's what Franck Boulgoue has done with *Twin Peaks: Unwrapping the Plastic*. Through Boulgoue's eyes we see for the first time the world of Twin Peaks as a coherent whole, one that draws on a wide range of cultural source material including surrealism, transcendental meditation, Jungian psychoanalysis, mythology, fairy tales, and much, much more. The work of a scholar who is also a fan, the book should appeal to any hardcore Twin Peaks viewer. **Rookie on Love** Tavi Gevinson, 2018. Teenage girls' perspectives on aspects of their lives, their loves, and their relationships. **The Post-Zombie** C. Wylie Lenz, Angela Tenga, Kyle William Bishop, 2025-05-22. The living dead have come a long way from the shambling corpses depicted by George A. Romero. While traditional zombie monsters continue to flourish, thanks in part to the ongoing popularity of *The Walking Dead* universe, the global community now features reanimated zombies, resurrected zombies, protagonist zombies, robotic zombies, romantic zombies, fake zombies, zombie-adjacent monsters, and post-zombie zombies. This collection of scholarly essays considers recent and contemporary examples of zombies in fiction, literature, popular culture, and politics from around the world and makes the case that because of the evolution of the undead, the zombie remains an important allegorical feature of horror fiction, satire, and ideological perspectives. **TV Trivia Word Search Puzzles** Ilene J. Transmedia is a technique of delivering a single piece of content in individual parts via different media and communication platforms: books, films, TV shows, games, live performances, etc. In the book, transmedia is considered as a case in point for the need to rethink library cataloguing and metadata practices in a new heterogeneous information environment where the ability to bring together information from various sources into a meaningful whole becomes a critical information skill. Transmedia sheds new light on some of the long-existing questions of bibliographic information organisation, the definition of work, modelling of bibliographic relationships, subject analysis of fiction, etc., and introduces libraries to new transient and interactive media forms such as interactive fiction, gaming events, or performances. The book investigates how various theories and practices of bibliographic information organisation can be applied to transmedia, focusing on the solutions provided by the new bibliographic conceptual model IFLA LRM, as well as linked open data models and standards. It strongly advocates collaborative practices and reuse of knowledge that underpin an emerging vision of the library catalogue as a mediation tool that assembles links and integrates information across a variety of communication contexts. Explores transmedia from the point of view of information organisation. Presents one of the first extensive analyses of the IFLA LRM bibliographic conceptual model. Uses examples of recent publishing practices to assess current bibliographic data models, standards, formats, and technologies. **Wrapped in Plastic** Andy Burns, 2015-02-01.
