**"The" Secret King** Karl Maria Wiligut,2005     The Secret King Stephen E. Flowers,Michael Moynihan,2007 The first book to explode many myths surrounding the popular idea of Nazi occultism The Secret King presents the actual esoteric rituals used by Heinrich Himmler's SS under the influence of rune magician Karl Maria Wiligut the Secret King of Germany This seminal work also traces the troubled histories of those who promoted and espoused these twisted beliefs     **The Secret King** Karl Maria Wiligut,2001     *Nazi Occultism* Stéphane François,2023-03-14 Nazi Occultism provides a serious scholarly study of a topic that is often marred by sensationalism and misinformation The Morning of the Magicians by Pauwels and Bergier 1960 gave rise to the idea that a secret society with wide powers the Thule society was the hidden and ignored centre of Nazism The influence of this very real small group is however only a fantasy a myth The author a historian specializing in neo Nazism looks back on this speculative construction its origins its ideological tinkering and the practices which have succeeded in forming a sort of radical and sulphurous counterculture which has created a fascination with esotericism and Nazism and the SS To better understand it he also paints a portrait of some of the authors who contributed to this extremist subculture such as the Italian esotericist Julius Evola the Argentine anthropologist Jacques Marie de Mahieu Chilean neo Nazi Miguel Serrano and the writer Jean Paul Bourre This book will appeal to scholars researchers and activists as well as general readers with an interest in the history of Nazism and the occult     **Secrets of the Holy Lance** Jerry E. Smith,George Piccard,2005 Neither debunking nor worshiping Smith pierces the veil of myth and mystery around the Holy Lance the spear that pierced the side of Jesus Christ on the cross Illustrations     *Histories of the Hidden God* April D DeConick,Grant Adamson,2016-04-08 In Western religious traditions God is conventionally conceived as a humanlike creator lawgiver and king a being both accessible and actively present in history Yet there is a concurrent and strong tradition of a God who actively hides The two traditions have led to a tension between a God who is simultaneously accessible to humanity and yet inaccessible a God who is both immanent and transcendent present and absent Western Gnostic esoteric and mystical thinking capitalizes on the hidden and hiding God He becomes the hallmark of the mystics Gnostics sages and artists who attempt to make accessible to humans the God who is secreted away *Histories of the Hidden God* explores this tradition from antiquity to today The essays focus on three essential themes the concealment of the hidden God the human quest for the hidden God and revelations of the hidden God     **Secret Agent 666** Richard B. Spence,2008 Aleister Crowley is best known today as a founding father of modern occultism and his influence can be found everywhere in popular culture Crowley also known as the Great Beast has been the subject of several biographies some painting him as a misunderstood genius others as a manipulative charlatan None of them have looked seriously at his career as an agent of British Intelligence Using documents gleaned from British American French and Italian archives *Secret Agent 666* sensationally reveals Crowley's role in many government plots     **The Return of Odin** Richard Rudgley,2018-03-13 A controversial examination of the influence

and presence of the Norse god Odin in contemporary history and culture Documents Odin s role in the rise of Nazi Germany the 1960s counterculture revolution nationalist and ecological political movements and the occult revival Examines the spiritual influence of Odin in relation to Jesus Christ Profiles key individuals instrumental in the rise of the modern pagan renaissance Exploring the influence of the Norse god Odin in the modern world Richard Rudgley reveals Odin s central role in the pagan revival and how this has fueled a wide range of cultural movements and phenomena including Nazi Germany the 1960s counterculture revolution the Lord of the Rings the ecology movement and the occult underground Rudgley argues that it is Odin and not Jesus Christ who is the single most important spiritual influence in modern Western civilization He analyzes the Odin archetype first revealed by Carl Jung s famous essay on Wotan in the context of pagan religious history and explains the ancient idea of the Web a cosmic field of energies that encompasses time space and the hidden potentials of humanity the pagan equivalent to the Tao of Eastern tradition The author examines the importance of the concept of wyrd which corresponds to fate or destiny exploring techniques to read destiny such as the Runes as well as the existence of yoga in prehistoric and pagan Europe which later produced the Norse Utisetan an ancient system of meditation Rudgley documents how the Odin archetype came into play in Nazi Germany with the rise of Hitler and the pagan counterculture of the 1960s He examines how the concept of subterranean and mythic realms such as the Hollow Earth Thule and Agartha and mysterious energies like Vril were manifested in both occult and profane ways and investigates key occult figures like Madame Blavatsky Guido von List and Karl Wiligut He provides pagan analyses of Tolkien and the Lord of the Rings and documents the impact the Odin archetype has had on nationalist and fascist groups in America and Europe Examining pagan groups in Europe and America that use the Norse template Rudgley reveals true paganism as holistic and intimately connected with the forces at work in the life of the planet Showing how this green paganism can be beneficial for dealing with the adverse consequences of globalization and the ongoing ecological crisis he explains how when repressed the Odin archetype is responsible for regressive tendencies and even mass psychosis a reflection of the unprecedented chaos of Ragnarok but if embraced the Odin archetype makes it possible for like minded traditions to work together in the service of life

Marriage and Fatherhood in the Nazi SS Amy Carney,2018-01-01 Marriage and Fatherhood in the Nazi SS by Amy Carney is the first work to significantly assess the role of SS men as husbands and fathers These families contributed to the transformation of the SS into a racially elite family community that was poised to serve as the new aristocracy of the Third Reich

*Hammer of the Gods* David Lührssen,2012-02-01 Public interest in Adolf Hitler and all aspects of the Third Reich continues to grow as new generations ponder the moral questions surrounding Nazi Germany and its historical legacy One aspect of Nazism that has not received sufficient attention from historians of the Third Reich is the doctrine s origins in the Thule Society and its covert activities A Munich occult group with a political agenda the Thule Society was led by Rudolf von Sebottendorff a German commoner who had been adopted by nobility during a sojourn in the Ottoman Empire After returning to Europe

Sebottendorff embraced a form of theosophy that stressed the racial superiority of Aryans The Thule Society attempted to establish an anti Semitic working class front for disseminating its esoteric ideas and founded the German Workers Party which Hitler would later transform into the National Socialist German Workers Nazi Party Several of the society s members eventually assumed prestigious posts in the Third Reich David Lührssen has written the first comprehensive study of the society s activities its cultural roots and its postwar ramifications in a historical critical context Both general readers and academics concerned with European cultural and intellectual history will find that Hammer of the Gods opens new perspectives on nineteenth and twentieth century Europe [Hitler's Master of the Dark Arts](#) Bill Yenne,2010-10-14 A history of Nazi Germany s SS and its leader examining the groups mystical cult aspects and Himmler s rise through the ranks of power Hitler s Nazi Party at its evil roots embraced a bizarre interpretation of ancient European paganism blending it with fragments of other traditions from sources as diverse as tenth century Saxon warlords nineteenth century spiritualism and early twentieth century fringe archeology Even the swastika the hated symbol of Nazism had its roots in ancient symbolism its first recorded appearance carved into a mammoth tusk twelve thousand years before Hitler came to power At the heart of the evil was Hitler s witch doctor Heinrich Himmler and his stranger than fiction cult the deadly SS The mundanely named Schutzstaffel literally protective squadron was the very essence of Nazism and their threatening double lightning bolt was one of the most dreaded symbols of the Third Reich With good reason what the SS was truly protecting was the ideology of Aryan superiority Hitler s Master of the Dark Arts is the first history of the SS and its leader to focus on the mystical cult aspects of the organization It follows Himmler s transformation of the SS from a few hundred members in 1929 to over fifty thousand black uniformed Aryans by the mid 1930s Concurrent with its expansion and its eventual independence from the brown shirts of the SA Himmler infused the Black Knights with a mishmash of occult beliefs and lunatic fringe theories that would have been completely laughable except that they were also used to justify the Final Solution [Gods of the Blood](#) Mattias Gardell,2003-06-27 An ethnographic study of the development of racist paganism in the United States during the 1990s examining the economic cultural and political developments racist paganism reacts to or makes use of [Grimoires](#) ,2010-09-23 What is a grimoire The word has a familiar ring to many people particularly as a consequence of such popular television dramas as Buffy the Vampire Slayer and Charmed But few people are sure exactly what it means Put simply grimoires are books of spells that were first recorded in the Ancient Middle East and which have developed and spread across much of the Western Hemisphere and beyond over the ensuing millennia At their most benign they contain charms and remedies for natural and supernatural ailments and advice on contacting spirits to help find treasures and protect from evil But at their most sinister they provide instructions on how to manipulate people for corrupt purposes and worst of all to call up and make a pact with the Devil Both types have proven remarkably resilient and adaptable and retain much of their relevance and fascination to this day But the grimoire represents much more than just magic To understand the history of

grimoires is to understand the spread of Christianity the development of early science the cultural influence of the print revolution the growth of literacy the impact of colonialism and the expansion of western cultures across the oceans As this book richly demonstrates the history of grimoires illuminates many of the most important developments in European history over the last two thousand years

*The Extreme Right in Europe* Uwe Backes, Patrick Moreau, 2011-12-07 The present work deals not only with the well organized right extremism in modern Europe as well as with its function in proper political parties but equally includes two additional broader approaches the militant branches and subcultures that exist including some paramilitary phenomena in Eastern Europe and the broad realm of their political ideas and cultural trends and the influence they exert on European political culture

**The Italian Far Right from 1945 to the Russia-Ukraine Conflict** Nicola Guerra, 2023-12-19 The Italian Far Right from 1945 to the Russia Ukraine Conflict provides a comprehensive account of the postwar parliamentary and extra parliamentary far right in Italy This book explores the ideology movements and activism of the extreme right and neo fascists The recent victory in the Italian parliamentary elections of the post fascist party Fratelli d Italia and its leader Giorgia Meloni highlights the importance of such research The book examines why some of these movements participated with CIA backing in the Strategy of Tension in the years of the Cold War where terrorist actions aimed to keep Italy in NATO and prevent the Communist Party from coming to power while other extreme right groups vehemently opposed this and what they considered the dangerous Americanization of the country It debunks the myth that there was a unified postwar fascist movement in Italy but instead excavates the complex battles within the extreme right as well as with their opponents from the left and the authorities This study is necessary to clarify the history and ideological dynamics of a political area still too often shrouded in mystery and whose geopolitical role is still poorly understood and generally underestimated The analysis is contextualized in the present day by looking at the different perspectives of the Italian far right on the Russian invasion of Ukraine The book will be of interest to researchers of political history the Cold War and Italian history and politics

Nordicism and Modernity Gregers Einer Forssling, 2020-11-28 This book offers a complete narrative of the development of Nordicism from its roots in the National Romantic movement of the late eighteenth century through to its most notorious manifestation in Nazi Germany and finally to the fragmented forms that still remain in contemporary society It is distinctive in treating Nordicism as a phenomenon with its own narrative rather than as discreet episodes in works studying aspects of Eugenics Nationalism Nazism and the reception history of Old Norse culture It is also distinctive in applying to this narrative a framework of analysis derived from the parallel theories of Roger Griffin and Zygmunt Bauman to examine Nordicism as a process of myth creation protecting both the individual and society from the challenges and terror of an ever changing and accelerating state of modernity
