**of the Beats** David Stephen Calonne,2017-08-17 The first comprehensive study to explore the role of esoteric occult alchemical shamanistic mystical and magical traditions in the work of major Beat authors **Ecopoetics** Angela Hume,Gillian Osborne,2018-03-15 *Ecopoetics Essays in the Field* makes a formidable intervention into the emerging field of ecopoetics The volume's essays model new and provocative methods for reading twentieth and twenty first century ecological poetry and poetics drawing on the insights of ecocriticism contemporary philosophy gender and sexuality studies black studies Native studies critical race theory and disability studies among others As a volume this book makes the compelling argument that ecopoetics should be read as coextensive with post 1945 poetry and poetics rather than as a subgenre or movement within it It is essential reading for any student or scholar working on contemporary literature or in the environmental humanities today Back cover *Audiobooks, Literature, and Sound Studies* Matthew Rubery,2011-05-09 This is the first scholarly work to examine the cultural significance of the talking book since the invention of the phonograph in 1877 the earliest machine to enable the reproduction of the human voice Recent advances in sound technology make this an opportune moment to reflect on the evolution of our reading practices since this remarkable invention Some questions addressed by the collection include How does auditory literature adapt printed texts What skills in close listening are necessary for its reception What are the social consequences of new listening technologies In sum the essays gathered together by this collection explore the extent to which the audiobook enables us not just to hear literature but to hear it in new ways Bringing together a set of reflections on the enrichments and impoverishments of the reading experience brought about by developments in sound technology this collection spans the earliest adaptations of printed texts into sound by Charles Dickens Thomas Hardy and other novelists from the late nineteenth century to recordings by contemporary figures such as Toni Morrison and Barack Obama at the turn of the twenty first century As the voices gathered here suggest it is time to give a hearing to one of the most talked about new media of the past century **Beautiful Enemies** Andrew Epstein,2006-09-21 Although it has long been commonplace to imagine the archetypal American poet singing a solitary Song

of Myself much of the most enduring American poetry has actually been preoccupied with the drama of friendship In this lucid and absorbing study Andrew Epstein argues that an obsession with both the pleasures and problems of friendship erupts in the New American Poetry that emerges after the Second World War By focusing on some of the most significant postmodernist American poets the New York School poets John Ashbery Frank O Hara and their close contemporary Amiri Baraka Beautiful Enemies reveals a fundamental paradox at the heart of postwar American poetry and culture the avant garde s commitment to individualism and nonconformity runs directly counter to its own valorization of community and collaboration In fact Epstein demonstrates that the clash between friendship and nonconformity complicates the legendary alliances forged by postwar poets becomes a predominant theme in the poetry they created and leaves contemporary writers with a complicated legacy to negotiate Rather than simply celebrating friendship and poetic community as nurturing and inspiring these poets represent friendship as a kind of exhilarating maddening contradiction a site of attraction and repulsion affinity and rivalry Challenging both the reductive critiques of American individualism and the idealized heavily biographical celebrations of literary camaraderie one finds in much critical discussion this book provides a new interpretation of the peculiar dynamics of American avant garde poetic communities and the role of the individual within them By situating his extensive and revealing readings of these highly influential poets against the backdrop of Cold War cultural politics and within the context of American pragmatist thought Epstein uncovers the collision between radical self reliance and the siren call of the interpersonal at the core of postwar American poetry

**Burroughs Unbound** S. E. Gontarski, 2021-11-18 In addition to contributing significantly to the growing field of Burroughs scholarship Burroughs Unbound also directly engages with the growing fields of textual studies archival research and genetic criticism asking crucial questions thereby about the nature of archives and their relationship to a writer's work These questions about the archive concern not only the literary medium In the 1960s and 1970s Burroughs collaborated with filmmakers sound technicians and musicians who helped re contextualized his writings in other media Burroughs Unbound examines these collaborations and explores how such multiple authorship complicates the authority of the archive as a final or complete repository of an author's work It takes Burroughs seriously as a radical theorist and practitioner who critiqued drug laws sexual practice censorship and what we today call a society of control More broadly his work continues to challenge our common assumptions about language authorship textual stability and the archive in its broadest definition

**The Universal Machine** Fred Moten, 2018-07-26 Taken as a trilogy consent not to be a single being is a monumental accomplishment a brilliant theoretical intervention that might be best described as a powerful case for blackness as a category of analysis Brent Hayes Edwards author of Epistrophies Jazz and the Literary Imagination In The Universal Machine the concluding volume to his landmark trilogy consent not to be a single being Fred Moten presents a suite of three essays on Emmanuel Levinas Hannah Arendt and Frantz Fanon in which he explores questions of freedom capture and selfhood In trademark style Moten considers these thinkers alongside artists and musicians such as William Kentridge and Curtis Mayfield while interrogating the relation between blackness and phenomenology Whether using Levinas's idea of escape in unintended ways examining Arendt's antiblackness through Mayfield's virtuosic falsetto and Anthony Braxton's musical language or showing how Fanon's form of phenomenology enables black social life Moten formulates blackness as a way of being in the world that evades regulation Throughout The Universal Machine and the trilogy as a whole Moten's theorizations of blackness will have a lasting and profound impact

**Fieldworks** Lytle Shaw, 2013-01-22 Fieldworks offers a historical account of the social rhetorical and material attempts to ground art and poetry in the physicality of a site Arguing that place oriented inquiries allowed poets and artists to develop new experimental models of historiography and ethnography Lytle Shaw draws out the shifting terms of this practice from World War II to the present through a series of illuminating case studies Beginning with the alternate national genealogies unearthed by William Carlos Williams in Paterson and Charles Olson in Gloucester Shaw demonstrates how subsequent poets sought to ground such inquiries in concrete social formations to in effect live the poetics of place Gary Snyder in his back to the land familial compound Kitkitdizze Amiri Baraka in a black nationalist community in Newark Robert Creeley and the poets of Bolinas California in the capacious now of their poet run town Turning to the work of Robert Smithson who called one of his essays an appendix to Paterson and who in turn has exerted a major influence on poets since the 1970s Shaw then traces the emergence of site specific art in relation both to the poetics of place and to the larger linguistic turn in the humanities considering poets including Clark Coolidge Bernadette Mayer and Lisa Robertson By putting the poetics of place into dialog with site specificity in art Shaw demonstrates how poets and artists became experimental explicators not just of concrete locations and their histories but of the discourses used to interpret sites more broadly It is this dual sense of fieldwork that organizes Shaw's groundbreaking history of site specific poetry
