Jorge Luis Borges

Secret Of Borges:

The Secret of Borges Julio Woscoboinik, Dora Carlisky Pozzi, 1998-10-29 The Secret of Borges approaches the complex labyrinthine writings of Jorge Luis Borges from a Freudian perspective The author searches for connections between the works of Borges by analyzing his writing and gathering information on his life from various sources including in depth interviews with those who worked as assistants for the blind writer This analysis examines in minute detail the writer's style and literary and rhetorical resources following Borges's path as he evolved from his narcissistic solipsism to the establishment of Oedipal links The author explores the track of fantasy associations the treatment of feminine characters in Borges's short stories the dreams and nightmares constantly retrieved and reiterated through his work memory and the challenges of self identification and the Borgean view of the problem of time *The Secret Books* Jorge Luis Borges, 1999 Contains over 40 black and white photos of books with excerpts from the writings of Jorge Luis Borges **A Study Guide for Jorge Luis Borges's "The Garden of Forking Paths"** Gale, Cengage Learning, **The Non-Philosophy of Gilles Deleuze** Gregg Lambert, 2002-08-01 The Non Philosophy of Gilles Deleuze takes up Deleuze's most powerful argument on the task of contemporary philosophy in the West Deleuze argues that it is only through a creative engagement with the forms of non philosophy notably modern art literature and cinema that philosophy can hope to attain the conceptual resources to restore the broken links of perception language and emotion In short this is the only future for philosophy if it is to repair its fragile relationship to immanence to the world as it is A sequence of dazzling essays analyze Deleuze's investigations into the modern arts Particular attention is paid to Deleuze's exploration of Leibniz in relation to modern painting and of Borges to an understanding of the relationship between philosophy literature and language By illustrating Deleuze's own approach to the arts and to modern literature in particular the book demonstrates the critical significance of Deleuze's call for a future philosophy defined as an art of inventing concepts **Test Tube Envy** J. Andrew Brown, 2005 The scientific disciplines considered range from nineteenth century phrenology and ethnography to twentieth century chemistry quantum mechanics cybernetics and chaos theory In so doing Brown critically engages the work of Foucault and other social and philosophical theorists as he examines the ways in which scientific prestige is manufactured and appropriated on the literary stage Jacket Atomic Light (shadow Optics) Akira Mizuta Lippit, 2005 With a taut poetic style Lippit produces speculative readings of secret and shadow archives and visual structures or phenomenologies of the inside charting the materiality of what both can and cannot be seen in the radioactive light of the twentieth century Three Versions of Judas Richard G. Walsh, 2016-04-01 Judas Iscariot known for his betrayal of Jesus is a key figure in the Gospel narratives As an insider become outsider Judas demarcates Christian boundaries of good and evil Three Versions of Judas examines the role of Judas in Christian myth making The book draws on Jorge Luis Borges Three Versions of Judas to present three Judases in the Gospels a Judas necessary to the divine plan a Judas who is a determined outsider denying himself for God's glory and a Judas who is demonic
