*Knowing My Inner Self* Fazel Naghdy, 2014-06-06 Knowing my inner self is written for teenagers to assist them in their journey to discover inner self and to cultivate their hidden capacities as they blossom from childhood to maturity It explores answers to the fundamental questions that often occupy the mind of adolescents at some stage of their growth What am I Who am I What is the purpose of my life The concepts and issues associated with these questions are examined and their implications for teenagers are highlighted The content of the book is inspired by universal spiritual principles particularly the concepts taught by Bah u ll h the Prophet Founder of the Bah Faith The approach and pedagogy is the result of nearly twenty years of sharing these concepts with teenagers of different age groups in the Education for Peace Program offered by the Yerrinbool Bah Centre of Learning in Australia The style of writing is simple but logical and conclusions are reached through observation and reasoning It simulates as much as possible a tutor tutored relationship in which the tutor facilitates learning for an individual or a small group In summary the book represents a manual on practical spirituality for teenagers and a workbook of activities to assist the reader to assimilate the concepts and apply them to personal situations The book consists of four major parts a The emergence of human beings This section has its focus on the evolution of life on the earth Efforts are made in this section to distinguish between the facts and theories surrounding the concept of evolution b The nature of human beings Through observation and reasoning it is demonstrated that a pure materialistic view is far from adequate to explain all the characteristics of man c Cultivating inner capacities The cultivation of inner capacities identified as a major objective of human life is emphasised and practical steps to accomplish this are explored d A mystical journey The final part of the book looks into the mystical aspects of spiritual growth which is the process of drawing closer to God through knowledge and recognition of His Manifestation growing love of Him and serving His Cause The book consists of 24 chapters Each chapter starts with an introduction that highlights the key concepts addressed The topic covered in the chapter is then explored in sections of relatively short length The chapter then ends with a series of activities aimed at assisting the reader to assimilate the concepts The activities are designed to stimulate thought

and reflection at three levels acquisition of knowledge provided in each chapter analysis of this knowledge and the application of this knowledge particularly to personal situations      *Faith, Physics, and Psychology* John Fitzgerald Medina,2006 In *Faith Physics and Psychology* John Fitzgerald Medina offers a new understanding of the important role of religion and spirituality in the building of a global society      Baha'i and Globalisation Annika Hvithamar,Margit Warburg,Morten Warmind,2005-12-01 Globalisation has become a buzzword that typically refers to the intensifying integration of the world economy especially as midwifed by technological advances It also implies a growing political and cultural sense that all humanity is globally interdependent There have always been individuals of course who have advocated such awareness one of them being the founder of the Baha i faith who formulated a spiritual equivalent as the religion s central doctrine in the late 19th century Ye are the fruits of one tree and the leaves of one branch Its emphasis on global unification made Baha i an obvious candidate for a case study on new religions and globalisation The chapters in this volume fall into two sections diachronic and synchronic The first part is organised chronologically beginning with the emergence of the globalist tendency in the messianic vision of Babism the precursor to Baha i and concluding with an analytic history of its leaders changing attitudes to international politics The second part considers a variety of global themes in contemporary Baha i practice including global thought in Baha i writings the impact of the internet and the triumphalist and secular strains in Baha i identity Though five million members make it one of the world s most successful new religions Baha i has attracted little scholarly attention Most of the academics concentrating on Baha i have contributed to this volume which will appeal not only to students of modern religious movements but to anyone interested in the ways religions can adapt to and embrace the modern world
