Secret Sun A Novel Of Japan:

The Secret Sun Fred Hiatt,1992 When a young American journalist working in Toyko comes across long hidden information indicating that Japan was working on its own atomic bomb during WWII he becomes the target of disinformation blackmail and eventually murder A masterful fast paced stylish thriller in the manner of John le Carre **Japan-Bashing** Narrelle Morris,2013-01-11 The aim of this book is to examine and analyse the phenomenon of Japan bashing from its invention and popularisation in the United States in the late 1970s to the emergence of other national variants including in Australia and Japan to its gradual decline in the late 1990s It is the first major book length study of Japan bashing from a multinational perspective one that attempts to place Japan bashing in its proper historical context and to examine its operation and legacy in the twenty first century Despite its importance in the study of discourses about Japan as well as in understanding broader global changes in the late twentieth century and beyond the phenomenon of Japan bashing remains largely neglected in published writings Moreover it is a far more complex phenomenon than has been assessed thus far While on first glance Japan bashing merely seems to recall other periods in which Japan has been viewed as a dangerous other to the West such as the Western emphasis on the yellow peril from the late nineteenth century as well as Allied anti Japanese propaganda during World War II Japan bashing also had its own distinctive characteristics Moreover while Japan bashing is often described as a quaint historical rather than a pressing contemporary phenomenon it is actually by no means extinct The ongoing influence of Japan bashing also has parallels in other bashing phenomena such as China bashing This book will be of interest to scholars and postgraduate students in Japanese studies and international relations **Tokyo Business Today** ,1992-07 **The Lost Book of Sun Yatsen and Edwin Collins** Patrick Anderson,2016-11-25 Sun Yatsen 1866 1925 occupies a unique position in modern Chinese history he is equally venerated as the founding father of the nation by both the mainland Communist government and its Nationalist rival in Taiwan The first president of the Republic of China in 1911 12 the peasant born yet Western trained Dr Sun was also a dedicated political theorist constantly in search of the ideal political and constitutional blueprint to underpin his incomplete revolution A decade before the public emergence in Japan of his Three Principles of the People and weeks before even his first slim publication in 1897 Kidnapped in London Sun was already hard at work in the Reading Room of the British Museum planning his most ambitious book yet a comprehensive political treatise in English on the tyrannical misgovernment of the Chinese nation by the Manchus of the Qing Dynasty Started then abandoned twice over destined never to be completed let alone published we can only conjecture what title this revolutionary book might have had The Lost Book of Sun Yatsen and Edwin Collins is the first study of this lost work in all scholarship Western or Chinese It draws its originality and its themes from three primary sources all presented here for the first time The first is a series of interconnected lost writings co authored by Sun Yatsen between 1896 and 1898 The second is the mass of lost political interviews with and articles dedicated to Sun Yatsen and his politics first published in the British press

in the aftermath the dramatic world famous rescue of Sun from inside the Chinese Legation in London in 1896 The third source is the Apostle of the Simple Life for Children the Anglo Jewish Rabbi Edwin Collins 1858 1936 a devotee and practitioner of Jean Jacques Rousseau s mile and the New Education movement it inspired who became Sun s writing collaborator of choice during his years of political exile from China Drawing on this wealth of neglected material Patrick Anderson s book offers a genuinely fresh perspective on Sun Yatsen and his political motivations and beliefs **Far Eastern Economic Review** ,1996 遠東經濟評論 遠東經濟評論,遠東經濟評論. 遠東經濟評論,1994 **The New York Times Book Review** ,1992-10 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback **Vril: Secrets of the Black Sun** David Hatcher Childress,2024-03-04 Childress reveals numerous secrets of the Black Sun in this final volume in his series about the Fourth Reich David Childress popular author and star of the History Channel show Ancient Aliens unveils the amazing story of the German flying disks designed and built during WWII It was not until 1989 that a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft including the Vril Haunebu and Andromeda Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe What the Ralf Ettl document dump shows us is what many have suspected for a long time that WWII did not end in the manner in which we have been told and a remnant of the Nazi military particularly the SS continued to operate aircraft and submarines around the world in the decades after the end of the war This volume closes with how the SS operates today in the Ukraine and how the Wagner second in command Dimitry Utkin killed in the fiery crash of Yevgeny Prigozhin s private jet between Moscow and St Petersburg in August of 2023 had SS tattoos on his shoulders and often signed his name with the SS runes Chapters include Secrets of the Black Sun The Extra Territorial Reich The Rise of the SS The SS Never Surrendered Secret Submarines Antarctica Secret of the Vril The Marconi Connection Spectre the SS and 007 Yellow Submarine Ukraine and the Battalion of the Black Sun more Includes an 8 page color section Over 120 photographs and diagrams **The Eagle and the Rising Sun** Alan Schom,2004 On Saturday August 2 1941 the Washington Post reported that President Franklin D Roosevelt would depart the next day for a fishing vacation aboard his yacht Potomac By the morning of August 5 the Potomac was sailing toward the fishing waters off Cape Cod but the president was not on board Having quietly disembarked in the middle of the night the president now joined by his top military advisors was headed for Newfoundland where the U S and British governments would meet in a secret summit to coordinate their military efforts although the United States had yet to declare war on Germany The British were appalled at the state of American preparedness one British colonel remarking They have a long way to go before they can play any decisive part in the war But ready or not the United States would be catapulted into World War II within a matter of months Alan Schom s

superb histories and biographies have been lauded for their dramatic sweep their focus on extraordinary personalities and their refreshingly iconoclastic perspective Schom begins this magisterial account of World War II in the Pacific by demonstrating an ironic paradox on one hand the American government and people were as inadequately prepared for war as any major power ever has been on the other the Japanese high command plunged headlong into the Pacific campaign despite clear evidence from their own analysts that Japan had too little oil and too feeble an economy to prevail against the United States It was a war that should not have been fought Schom recounts a tense saga of diplomatic maneuvering strategic blunders and pivotal successes played out in the halls of the White House Downing Street and the Imperial Palace as well as on the seas and shores of the Pacific Key figures in the war come vividly to life in a series of brilliant biographical sketches Emperor Hirohito a devotee of Western pursuits such as golf and jazz who hungered to expand Japan's global reach the destructively egotistical General Douglas MacArthur whose splendid achievements in World War I stood in stark contrast to his incompetent leadership in the Philippines Rear Admiral Kelly Turner whose realism and tactical savvy played a crucial role in turning the tide of the war and the cool headed Admiral Tanaka Raizo who repeatedly slipped through the Allied net transporting troops and supplies to and from Guadalcanal The Eagle and the Rising Sun embraces the broad strategic concerns of the war and the telling details and turning points of individual engagements As Rear Admiral Thomas Marfiak Ret CEO and publisher of the U S Naval Institute writes in the Foreword From time to time we are privileged to be given extraordinary insights into the history of our age Alan Schom has given us a tapestry into which he has woven figures of immense proportions yet he has not lost sight of their humanity He writes in the grand tradition of Barbara Tuchman's The Guns of August Book jacket

The Bizarre and the Wondrous from the Land of the Rising Sun! BOYE LAFAYETTE. DE MENTE, 2010-12-22 The Bizarre and the Wondrous from the Land of the Rising Sun highlights unique aspects of Japan ancient and modern that have made the country fascinating to Westerners since they first stumbled upon the islands in 1543 These unusual attractions range from high tech robots that do such things as act as tourist guides and perform delicate surgery to festivals that go back more than two thousand years and strike many foreign visitors as being bizarre Among the celebrations that could be labeled as bizarre are annual fertility festivals that feature authentic looking replicas of the male penis carved in wood from purse size versions to ones that are over two meters long and weigh up to 800 pounds The best known of the fertility festivals is the one staged each March 15 by the Tagata Shrine near the city of Nagoya The largest wooden penis is carved anew each year and after the ceremony is kept on display in the main shrine building until the following year when it is sold to private buyers On the day of the festival the large version of the erect male organ is pulled through the streets on a wheeled cart by up to 12 men to the delight of raucous crowds and child bearing age women who try to touch the replica in order to increase their chances of becoming pregnant Other penis replicas are edible versions made like candy and cookies that are sold to visitors as snacks and souvenirs to take home Also on the incredible side is a legend

that the young Jewish man now known and worshipped by Christians as Jesus Christ the son of God did not die on the cross that in fact he lived and died in Herai Village in Japan According to the Christian Bible Jesus was born in Israel There is no further mention of him in the Bible until he is 12 years old when he appears at a Jewish synagogue and lambasts the rabbis for their un-Christian like behavior The next mention of Jesus in the Bible is when he is in his early 30s and shows up at the Jordan River to be baptized by John a well known Jewish preacher According to the Japanese legend Jesus and his brother Isukiri spent most of those missing years in Japan returning to Judea when Jesus was 34 years old The story goes on to say that after he was betrayed to the Roman authorities he fled back to Japan and it was his brother who was crucified The story adds that Jesus married a Japanese girl became a rice farmer and lived the rest of his life in Herai later renamed Shingo There is a tomb in Herai that has long been known as the burial place of Jesus Jehova the son of Mary In the book *De Mente* goes on to explain how the legend and the tomb became known to present day Japanese authorities and was publicized in English for the first time in 1935 *De Mente* says he learned about the story in Tokyo in the early 1950s when he was editor of a monthly cultural magazine including seeing a photograph of documentary evidence from a museum in Herai Other fascinating stories in the book include how the infamous secret agents and assassins known as *ninja neen jah* became a major part of Japanese history why and how Japan became the first nation in the world to have a national network of roadside inns spaced one day's march apart why the Japanese are so skilled at producing arts and crafts of extraordinary beauty why single Japanese girls and men have a hard time hooking up why Japan's *izakaya* are more fun than Irish pubs why rice and other vegetables grow on top of buildings how the Japanese came up with a new reason for wearing clothes and some 50 plus other fascinating stories

New Japan, the Land of the Rising Sun Samuel Mossman,1873
Germany's Last Mission to Japan Joseph M Scalia,2009-03-01 When U 234 slipped out of a Norwegian harbor in March 1945 destined for Japan it was loaded with some of the most technically advanced weaponry and electronic detection devices of the era along with a select group of officials En route word came that Germany had surrendered and the boat s commander suddenly found himself with a rogue submarine a precious assortment of cargo and two Japanese naval officers still at war This dramatic account of the voyage offers an intriguing look at the individuals involved One of these individuals was Luftwaffe General Ulrich Kessler who was a member of Von Stauffenberg s Valkyrie conspiracy to assassinate Hitler Kessler was aboard U 234 to escape the wrath of Hitler because he had been tabbed by Von Stauffenberg to replace Hermann Goering as the commander of the Luftwaffe Scalia draws on U S Navy interrogation records European and Japanese archives and interviews with former U 234 crew members and other principals to develop a full portrait of the group He also evaluates the technology of the armament on board which included 560 kg of uranium oxide whose presence continues to provoke questions about a Nazi plan to build an atom bomb in Japan
