Search for Truth in Early Modern France Rebecca M. Wilkin,2016-12-05 Grounded in medical juridical and philosophical texts of sixteenth and seventeenth century France this innovative study tells the story of how the idea of woman contributed to the emergence of modern science Rebecca Wilkin focuses on the contradictory representations of women from roughly the middle of the sixteenth century to the middle of the seventeenth and depicts this period as one filled with epistemological anxiety and experimentation She shows how skeptics including Montaigne Marie de Gournay and Agrippa von Nettesheim subverted gender hierarchies and or blurred gender difference as a means of questioning the human capacity to find truth while positivists who strove to establish new standards of truth for example Johann Weyer Jean Bodin and Guillaume du Vair

excluded women from the search for truth The book constitutes a reevaluation of the legacy of Cartesianism for women as Wilkin argues that Descartes opening of the search for truth even to women was part of his appropriation of skeptical arguments This book challenges scholars to revise deeply held notions regarding the place of women in the early modern search for truth their role in the development of rational thought and the way in which intellectuals of the period dealt with the emergence of an influential female public

Secrecy Hugh B. Urban, 2021-01-12 The powers of political secrecy and social spectacle have been taken to surreal extremes recently Witness the twin terrors of a president who refuses to disclose dealings with foreign powers while the private data of ordinary citizens is stolen and marketed in order to manipulate consumer preferences and voting outcomes We have become accustomed to thinking about secrecy in political terms and personal privacy terms In this bracing new work Hugh Urban wants us to focus these same powers of observation on the role of secrecy in religion With Secrecy Urban investigates several revealing instances of the power of secrecy in religion including nineteenth century Scottish Rite Freemasonry the sexual magic of a Russian born Parisian mystic the white supremacist Br der Schweigen or Silent Brotherhood movement of the 1980s the Five Percenters and the Church of Scientology An electrifying read Secrecy is the culmination of decades of Urban s reflections on a vexed ever present subject

Fables for the Patriarchs Jowen R. Tung, 2000 Exploring issues of gender in Tang dynasty literature and culture Jowen R Tung draws on a comprehensive range of historical literary and social texts to unravel the complex mechanisms of one of the world s oldest patriarchal systems The author reveals the profound damage inflicted by the masculine state ideology on its subjects by illuminating the problematics of male sexuality under the hovering phallus of the emperor the construct of male and female psyches within the pseudo monogamous household the logic of the collective unconscious in the literati s writings and a female tradition desperately trapped inside the law of the father Tung poses urgent questions about a civilization that builds itself upon the sacrifice of human lives and arrives at a rather dark interpretation of the Tang_ for many the epitome of the Chinese empire As such the book moves beyond the confines of gender studies to propose a heightened agenda for feminist studies which the author argues now stand at a critical conjecture
