The Business of God Sheryl Johnson, Dannis Matteson, 2025-08-14 The theoretical framework of the Industrial Complex explores how institutions established with a purpose external to themselves can become focused on their own self perpetuation pursuing power growth and profits in ways that may well contradict and undermine that original purpose Much theorizing has engaged issues such as the military healthcare and prison industrial complexes This book explores the

framework of the Industrial Complex in relation to churches How do churches intended to in part worship God preach the gospel nurture discipleship and serve those in need become focused on factors such as profit accumulation limitless growth and expansion consolidation of power How do systems like colonialism capitalism white supremacy and patriarchy play a contributing role to these phenomena What are the impacts of the Church Industrial Complex on various facets of church life and parties involved and impacted Finally what can be done to resist these temptations and where are the corners of the church that have and continue to witness to an alternate approach This accessible book is designed for anyone who is concerned about these questions church leaders and members theological students and anyone who is curious about the dynamics at play in contemporary church life Truths Among Us Derrick Jensen, 2011-09-01 From Derrick Jensen acclaimed author of *Endgame* and *The Culture of Make Believe* comes a prescient thought provoking collection of interviews with ten leading writers philosophers teachers and activists To function in this society we are asked to live by lies that humans have the right to take what they want from the earth without giving back that knowledge is limited to that which can be quantified that corporations and governments know what is best for our future Our instinctive outrage at environmental collapse political conspiracy and corporate corruption is stifled by the double speak of popular opinion telling us that the progress of civilization demands unquestioning allegiance to those in power But the brave voices in *Truths Among Us* seek to help us acknowledge the values we know in our hearts are right and inspire within us the courage to act on them Among those who share their wisdom here is acclaimed sociologist Stanley Aronowitz who shows us that science is but one lens through which we can discover knowledge Luis Rodriguez poet and peacemaker asks us to embrace gang members as people instead of stereotypes while the brilliant Judith Herman helps us gain a deeper understanding of the psychology of abusers in whatever form they may take Paul Stamets reveals the power of fungi whose intelligence like that of so many nonhumans is often ignored And writer Richard Drinnon reminds us that our spiritual paths need not be narrowed by the limiting mythologies of Western civilization Following *How Shall I Live My Life* and *Resistance Against Empire* Jensen's third collection of interviews reinforces a simple premise with which he has long challenged his readers if we shut our ears and eyes to the cacophony of consumption oriented distractions and pause to listen to the wisdom of our own hearts the truths among us will reveal themselves Interviewees include George Gerbner Stanley Aronowitz Luis Rodriguez Judith Herman John Keeble Richard Drinnon Paul Stamets Marc Ian Barasch Martin Prechtel and Jane Caputi

Integrating Psychodrama and Systemic Constellation Work Ronald Anderson, Karen Carnabucci, 2011-10-15 Systemic Constellation Work is a rapidly growing experiential healing process that is being embraced by a variety of helping professionals worldwide This book explores the history principles and methodology of this approach and offers a detailed comparison with psychodrama explaining how each method can enhance the other

The Artist Inside Tom Crockett, 2009-04-22 A fresh new approach to tapping into our own creativity using the images and artifacts of our dreams Getting inspired is one of the toughest parts of

being an artist whether we're a beginner or a seasoned professional. But as Tom Crockett shows us in this new book, finding ideas for our artwork is easier than we think. By simply exploring the images of our sleeping and waking dream states, we can discover a wealth of ideas and inspiration that are more authentic and powerful because they reveal our underlying spiritual self. Recognizing the importance of allowing our spiritual side to infuse our art and the fulfillment this can bring, Tom Crockett has created a program to teach us all, no matter what level of artistic experience we have, how to bring art and spirit into one. The four different types of creative expression Crockett has identified—Finding, Arranging, Altering, and Making—open up artistic options for everyone, even for those of us who cannot yet imagine that we have the ability to create art. Filled with personal anecdotes from the author's creativity workshops and practical, easy-to-implement advice for tapping into our hidden creativity, *The Artist Inside* teaches us how to access the dreaming world to heighten creativity that we can create in each piece of artwork, a temporary home for the spirit. How creating a spiritual path can energize us and increase our intuitive capacity. When the process of making art is guided by the inner vision of our sleeping and waking dream states, we connect with something larger than ourselves and rediscover that creativity can be both a spiritual path and an important life tool.

The Spiral of Memory and Belonging Frank MacEowen, 2010-10-06 For all those who have felt the tug of memory or a connection to some time and place that came before, this book explores the depths of one's connections to ancestors, to the land, to the mysteries of life. Continuing with themes from his first book, *The Mist-Filled Path*, the author brings readers along as he journeys to Ireland for a shamanic conference and shares his experiences and how they tie into the meanings of Celtic traditions. Readers recognize connections to other spiritual traditions and how the Celtic shamanic teachings overlap with those of other indigenous peoples. They also discover ways to reconnect with their own heritage, to cull the good teachings and incorporate them into their personal spiritual practices. Offering evocative writing, a fresh look at ancient ideas, practical exercises, and guided meditations, *The Spiral of Memory and Belonging* makes a perfect entry point for readers seeking shamanic wisdom and guidance.

Nature and the Human Soul Bill Plotkin, 2010-10-04 Addressing the pervasive longing for meaning and fulfillment in this time of crisis, *Nature and the Human Soul* introduces a visionary ecopsychology of human development that reveals how fully and creatively we can mature when soul and wild nature guide us. Depth psychologist and wilderness guide Bill Plotkin presents a model for a human life span rooted in the cycles and qualities of the natural world, a blueprint for individual development that ultimately yields a strategy for cultural transformation. If it is true, as Plotkin and others observe, that we live in a culture dominated by adolescent habits and desires, then the enduring societal changes we so desperately need won't happen until we individually and collectively evolve into an engaged, authentic adulthood. With evocative language and personal stories, including those of elders Thomas Berry and Joanna Macy, this book defines eight stages of human life: Innocent, Explorer, Thespian, Wanderer, Soul Apprentice, Artisan, Master, and Sage, and describes the challenges and benefits of each. Plotkin offers a way of progressing from our current egocentric, aggressively competitive

consumer society to an ecocentric soul based one that is sustainable cooperative and compassionate At once a primer on human development and a manifesto for change Nature and the Human Soul fashions a template for a more mature fulfilling and purposeful life and a better world

Sacred Space, Sacred Sound Susan Elizabeth Hale, 2013-11-01 Visionary singer Susan Hale believes that early peoples deliberately built their structures to enhance natural vibrations She takes us around the globe from Stonehenge and New Grange to Gothic cathedrals and Tibetan stupas in New Mexico to explore the acoustics of sacred places But she says you don't have to go to the Taj Mahal The sacred is all around us and we are all sound chambers resonating with the One Song

The Return of Collective Intelligence Dery Dyer, 2020-01-07 Reveals how we can each reconnect to collective intelligence and return our world to wholeness balance and sanity Explains how collective intelligence manifests in flocks of birds instantaneous knowing in indigenous peoples and the power of sacred places Offers ways for us to reconnect to the infinite source of wisdom that fuels collective intelligence and underscores the importance of ceremony pilgrimage and initiation Draws on recent findings in New Paradigm science traditional teachings from indigenous groups from North South and Central America and Siberia as well as sacred geometry deep ecology and expanded states of consciousness For our ancestors collective intelligence was a normal part of life We see it today as the mysterious force that enables flocks of birds swarms of bees and schools of fish to function together in perfect synchrony communicating and cooperating at some undetectable level At its most subtle it's an instantaneous knowing shared by members of a group of the wisest course of action that will benefit all As Dery Dyer reveals collective intelligence still resides within each of us and it is the key to restoring balance and harmony to our world She shows how it occurs spontaneously when individuals who share a need and a purpose instinctively self organize into a group and function with no leader or central authority Such groups exhibit abilities much greater than what any of their members possess individually or what can be replicated with artificial intelligence Dyer explains due to an unquestioning dependence on technology modern humanity has forgotten how to connect with collective intelligence and fallen into collective stupidity otherwise known as mob mind or groupthink which is now endangering the interconnected web of life on Earth Drawing on recent findings in New Paradigm science traditional teachings from indigenous groups as well as sacred geometry deep ecology and expanded states of consciousness the author shows how the ability to think and act collectively for the highest good is hardwired in all living beings She explains how to release ourselves from enslavement by technology and use it more wisely toward the betterment of all life Underscoring the vital importance of ceremony pilgrimage and initiation she offers ways for us to reconnect to the infinite source of wisdom that fuels collective intelligence and which manifests everywhere in the natural world Revealing that once we relearn how to hear the Earth we can heal the Earth Dyer shows how each of us has a vital role to play in restoring our world to wholeness

Weather Shamanism Nan Moss, 2008-01-24 Creating an alliance and working partnership with the spirits of weather to restore well being and harmony to Earth and ourselves Reveals that intentionally or not we affect the weather not only

through our actions but also through our thoughts and emotions Explains shamanic techniques for working with the spiritual nature of weather Special section on weather dancing details both its ceremonial and therapeutic aspects With the growing consensus that global warming is a fact comes the realization that the increasingly violent weather we are experiencing is its chief manifestation Each storm each flood each blizzard seems to break 100 year old records for both intensity and damage Reducing emissions of greenhouse gases may be too little too late Through a unique blend of anthropological research shamanic journeys and personal stories and anecdotes Moss and Corbin show how humans and weather have always affected each other and how it is possible to influence the weather They present teachings directly from the spirits of weather that show how our thoughts and emotions affect weather energetics They also reveal the ceremonial and therapeutic aspects of weather dancing a practice used to communicate with the weather spirits Weather Shamanism is about transformation of ourselves and thus our world It is about how we can develop an expanded worldview that honors spiritual realities in order to create a working partnership with the spirits of weather and thereby help to restore well being and harmony to Earth

Beyond Conservation Peter Taylor, 2013 After decades of operating off the backfoot and protecting and conserving nature perceived as under threat conservationists are becoming proactive and creative in the face of habitat loss agricultural intensification and climate change Beyond Conservation offers a revolutionary agenda for both managing existing wildlands in Britain and for expanding and connecting such lands Central to this strategy is the imperative to rewild or restore and repair damaged habitat and ecosystems promote existing biodiversity and reintroduce vanished plant and animal species while working to reconcile human needs and livelihoods and the needs of nature
