Secrets Of The Sphinx Mysteries Of The Ages Revealed:

The Zodiac Conspiracy Atara, Dr Atara, 2011-11 The appearance of an astronomer who was discussing the 13th constellation on national TV last year caused a huge outcry from the public The big question was How can my sun sign be different Many people concluded that the astronomer did not know what he was talking about People wanted to know how their Sun sign could be different than what they had been told all these years Actually the astronomer was very correct he was telling everyone the truth as indicated by the science of astronomy which the psychological art of astrology is based upon There are 13 constellations and has always been 13 This is why the book also features a section on Ophiuchus which is the 13th constellation and the only constellation sign named after a human being Imhotep an African Egyptian There has been a conspiracy of silence among Western astrologers to misrepresent the history of astrology and ignore the truth of astronomy Since astrologers did not adhere to the science of astronomy as dictated by the constellations they created an alternative paradigm called the Koch zodiac system which only acknowledges 12 constellations and therefore 12 signs Astrologers who live in the Eastern part of the world practice the truth of astronomy by using the Sidereal zodiac system Most people in the Western world actually believe that on January 1st their Sun sign is Capricorn However the truth is that the Sun is actually in the constellation of Sagittarius This is the truth of astronomy and the sidereal zodiac system So if you were born on January 1st of any year your Real Sun Sign is Sagittarius not Capricorn This book shows everyone who wants to continue believing in their old sign while embracing the truth of their Real Sun Sign how to blend these two systems so that who you REALLY ARE and what you are destined to learn about yourself is anchored in the truth It is a gentle reminder that you are not living your most authentic self Are you the Virgo Selfless Servant or Aquarius The Giver Read the Zodiac Conspiracy and be introduced to the truth and Your Real Sun Sign

Illustrated Manly P. Hall, 2021-06-14 Manly Palmer Hall was a writer lecturer mystic philosopher founder of the Philosophical Research Society an expert in tarot readings and a Freemason He wrote a series of occult books that became famous due to the author s breadth of knowledge Among his books The Lost Keys of Freemasonry and The Secret Teachings of All Time An Encyclopedic Exposition of Hermetic Kabbalistic and Rosicrucian Symbolic Philosophy are best known His books are primarily informational and contain numerous illustrations and original texts describing mystical components Freemasonry symbols Rosicrucians documents recipes by alchemists and Kabbalistic rules The Lost Keys of Freemasonry The Secret Teachings of All Ages Characteristically American Joy Giguere, 2014-06-30 Prior to the nineteenth century few Americans knew anything more of Egyptian culture than what could be gained from studying the biblical Exodus Napoleon s invasion of Egypt at the end of the eighteenth century however initiated a cultural breakthrough for Americans as representations of Egyptian culture flooded western museums and publications sparking a growing interest in all things Egyptian that was coined Egyptomania As Egyptomania swept over the West a relatively young America began assimilating Egyptian culture into its own national identity creating a hybrid national heritage that would vastly affect the memorial landscape of the nineteenth and twentieth centuries Far more than a study of Egyptian revivalism this book examines the Egyptian style of commemoration from the rural cemetery to national obelisks to the Sphinx at Mount Auburn Cemetery Giguere argues that Americans adopted Egyptian forms of commemoration as readily as other neoclassical styles such as Greek revivalism noting that the American landscape is littered with monuments that define the Egyptian style s importance to American national identity Of particular interest is perhaps America s greatest commemorative obelisk the Washington Monument Standing at 555 feet high and constructed entirely of stone making it the tallest obelisk in the world the

Washington Monument represents the pinnacle of Egyptian architecture's influence on America's desire to memorialize its national heroes by employing monumental forms associated with solidity and timelessness. Construction on the monument began in 1848 but controversy over its design which at one point included a Greek colonnade surrounding the obelisk and the American Civil War halted construction until 1877. Interestingly Americans saw the completion of the Washington Monument after the Civil War as a mending of the nation itself melding Egyptian commemoration with the reconstruction of America. As the twentieth century saw the rise of additional commemorative obelisks the Egyptian Revival became ensconced in American national identity. Egyptian style architecture has been used as a form of commemoration in memorials for World War I and II the civil rights movement and even as recently as the 9/11 remembrances. Giguere places the Egyptian style in a historical context that demonstrates how Americans actively sought to forge a national identity reminiscent of Egyptian culture that has endured to the present day.

The Secret Doctrine Volume II Anthropogenesis H. P. Blavatsky The Secret Doctrine is the seminal work of the Theosophical Movement and established Blavatsky as one of the most vocal and outspoken advocates of the Wisdom Teachings of the East. Almost every contemporary spiritual movement can trace its lineage back to the impulses expressed most consummately in this Blavatsky's Magnum Opus. Based upon a disclosure and exposition of the hitherto unknown and academically quite controversial Stanzas of Dzyan The Secret Doctrine elaborates on the teachings first brought to the world through the Masters Koot Humi and Morya and introduced in A. P. Sinnett's Esoteric Buddhism to which Blavatsky continuously refers and clarifies. In the two volumes the first being Cosmogogenesis she portrays a sweeping vision of the evolution of humanity and the cosmos out of the spirit unfolding in rounds and cycles of descent and reascent from and to the spirit through cycles of reincarnation. This ebook edition has been meticulously prepared with over 1000 footnotes linked from within the text. This complex and challenging work is presented in a highly readable format that invites a fresh approach to the text. Volume I Cosmogogenesis
