The Secular City Harvey Cox, 1966 **The Secular City** Harvey Cox, 2013-09-08 Since its initial publication in 1965 *The Secular City* has been hailed as a classic for its nuanced exploration of the relationships among the rise of urban civilization the decline of hierarchical institutional religion and the place of the secular within society Now half a century later this international best seller remains as relevant as when it first appeared The book's arguments that secularity has a positive effect on institutions that the city can be a space where people of all faiths fulfill their potential and that God is present in both the secular and formal religious realms still resonate with readers of all backgrounds For this brand new edition Harvey Cox provides a substantial and updated introduction He reflects on the book's initial stunning success in an age of political and religious upheaval and makes the case for its enduring relevance at a time when the debates that *The Secular City* helped ignite have caught fire once again *The Secular City* Harvey Gallagher Cox, 1966 **The Secular City** T. D. Hemming, 1994 Central to the Enlightenment is the ideal of the Secular City in militant reply to the *Civitas Dei* of St Augustine The essays in this volume illustrate the elaboration of that vision both in the planning and depiction of actual cities and in the speculation on social justice to which Voltaire in particular devoted himself *The Secular City* Harvey Cox, 1990

The Secular City Harvey Gallagher Cox, 1965 Scaling the Secular City J. P. Moreland, 1987-02-01 This volume offers up to date arguments for God's existence and for Jesus's deity and resurrection answers to objections to Christian theism and discussions of four key issues **The Charismatic City and the Public Resurgence of Religion** N. Wariboko, 2014-09-11 Two powerful and interrelated transnational cultural expressions mark our epoch Charismatic spirituality and global city This book demonstrates how these two forces can be used to inform ethical design of cities and their common social lives to best support human flourishing spirituality and social and ecological wellbeing of their residents **Exploring the Postsecular**, 2010-05-17 The re emergence of the religious in secular domains has led prominent scholars such as Jürgen Habermas and Charles Taylor to speculate about a new postsecular age The alleged shift from the secular to the postsecular is most visible in the spheres of urban public space governance and civil society This volume addresses contemporary relations between

religion politics and urban societies primarily from a theoretical perspective while also paying attention to empirical manifestations of the central conceptual ideas The primary focus is the relations between public religion deprivatization of religion and theorizations of modernity and modernities with the secondary and closely related focus on theorizing postsecular urbanism including the role of faith based organizations FBOs in cities Contributors include Justin Beaumont James A Beckford Luke Bretherton Paul Cloke Candice Dias Wilhelm Gr b Maaïke de Haardt Jason Hackworth Christoph Jedan Kim Knott Michiel Leezenberg Bernice Martin David Martin Gregor McLennan Arie L Molendijk Nihan zdemir S nmez Martijn Oosterbaan Andy F Sanders Anke Schuster and Hetty Zock

Religion and the Global City David Garbin, Anna Strhan, 2017-06-29 This is the first book to explore how religious movements and actors shape and are shaped by aspects of global city dynamics Theoretically grounded and empirically informed Religion and the Global City advances discussions in the field of urban religion and establishes future research directions David Garbin and Anna Strhan bring together a wealth of ethnographically rich and vivid case studies in a diversity of urban settings in both Global North and Global South contexts These case studies are drawn from both classical global cities such as London and Paris and also from large cosmopolitan metropolises such as Bangalore Rio de Janeiro Lagos Singapore and Hong Kong which all constitute in their own terms powerful sites within the informational cultural and moral networked economies of contemporary globalization The chapters explore some of the most pressing issues of our times globalization and the role of global neo liberal regimes urban change and in particular the dramatic urbanization of Global South countries and religious politics and religious revivalism associated for instance with transnational Islam or global Pentecostal Charismatic Christianity

Prophetic Fragments Cornel West, 1988 This collection of writings drawn from a wide variety of sources reveals the intellectual depth and breadth of the author The articles include political commentary cultural critique literary analysis extended book reviews and even a short story by West All of these are held together by a prophetic Afro American Christian perspective The value of this book is that it provides easy access to a significant selection of the author s corpus Religious Studies Review October 1989 This volume collects over 50 articles book reviews and addresses by a Union Seminary theologian The most eloquent pieces are those in which West explains and interprets his more personally felt tradition of Afro American Protestantism Library Journal

Religious Pluralism and the City Helmuth Berking, Silke Steets, Jochen Schwenk, 2018-04-05 Religious Pluralism and the City challenges the notion that the city is a secular place and calls for an analysis of how religion and the city are intertwined It is the first book to analyze the explanatory value of a number of typologies already in use around this topic from holy city to secular city from fundamentalist to postsecular city By intertwining the city and religion urban theory and theories of religion this is the first book to provide an international and interdisciplinary analysis of post secular urbanism The book argues that given the rise of religiously inspired violence and the increasing significance of charismatic Christianity Islam and other spiritual traditions the master narrative that modern societies are secular societies has lost its empirical

plausibility Instead we are seeing the pluralization of religion the co existence of different religious worldviews and the simultaneity of secular and religious institutions that shape everyday life These particular constellations of religious pluralism are above all played out in cities Including contributions from Peter L Berger and Nezar Alsayyad this book conceptually and empirically revokes the dissolution between city and religion to unveil its intimate relationship and offers an alternative view on the quotidian state of the global urban condition **The Asian City: Processes of Development, Characteristics and Planning**

Beaumont,Christopher Baker,2011-06-16 This book reflects the wide spread belief that the twenty first century is evolving in a significantly different way to the twentieth which witnessed the advance of human rationality and technological progress including urbanisation and called into question the public and cultural significance of religion In this century by contrast religion faith communities and spiritual values have returned to the centre of public life especially public policy governance and social identity Rapidly diversifying urban locations are the best places to witness the emergence of new spaces in which religions and spiritual traditions are creating both new alliances but also bifurcations with secular sectors Postsecular Cities examines how the built environment reflects these trends Recognizing that the turn to the postsecular is a contested and multifaceted trend the authors offer a vigorous open but structured dialogue between theory and practice but even more excitingly between the disciplines of human geography and theology Both disciplines reflect on this powerful but enigmatic force shaping our urban humanity This unique volume offers the first insight into these interdisciplinary and challenging debates *Visualising a Sacred City* Ben Quash,Aaron Rosen,Chloe Reddaway,2016-11-25 William Blake famously imagined

Jerusalem builded here in London But Blake was not the first or the last to visualise a shimmering new metropolis on the banks of the River Thames For example the Romans erected a temple to Mithras in their ancient city of Londinium medieval Londoners created Temple Church in memory of the Holy Sepulchre in which Jesus was buried and Christopher Wren reshaped the skyline of the entire city with his visionary dome and spires after the Great Fire of London in 1666 In the modern period the fabric of London has been reweven in the image of its many immigrants from the Caribbean South Asia Eastern Europe and elsewhere While previous books have examined literary depictions of the city this is the first examination of the religious imaginary of the metropolis through the prism of the visual arts Adopting a broad multicultural and multi

faith perspective and making space for practitioners as well as scholars its topics range from ancient archaeological remains and Victorian murals and cemeteries to contemporary documentaries and political cartoons **20th-Century Theology** Stanley J. Grenz,Roger E. Olson,2010-01-26 Stanley J Grenz and Roger E Olson offer a sympathetic guide and a critical assessment of the significant theologies and theologians of the 20th century They trace the shifts in theology as it has moved back and forth between God's immanence and God's transcendence **Theologies of the 21st Century** David L. Smith,2014-10-02 What theologies are popular and formative of Christian thinking in the present day How should they be assessed by those Christians who want to be in the world without being of the world Theologies of the 21st Century begins with an overview of the historical roots from which current theological thinking has developed and then moves on to a detailed evaluation of the chief doctrinal and practical emphases taking an evangelical biblical perspective that seeks to be at once both critical and irenic *Pentecostalism and Politics in Africa* Adeshina Afolayan,Olajumoke Yacob-Haliso,Toyin Falola,2018-06-29 As the epicenter of Christianity has shifted towards Africa in recent decades Pentecostalism has emerged as a particularly vibrant presence on the continent This collection of essays offers a groundbreaking study of the complex links between politics and African Pentecostalism Situated at the intersection between the political the postcolonial and global neoliberal capitalism contributors examine the roots of the Pentecostal movement's extraordinary growth how Pentecostalism intervenes in key social and political issues such as citizenship party politics development challenges and identity and conversely how politics in Africa modulate the Pentecostal movement Pentecostalism and Politics in Africa offers a wide ranging picture of a central dimension of postcolonial African life opening up new directions for future research
