This volume offers 11 case studies of contemporary movements from around the world where religious secular and spiritual dynamics interplay in the postmodern condition of the 21st century as traditional and contemporary sources are combined in new and dynamic ways **Post-Secular Society** Gustaaf Geeraerts, 2017-07-28 Post Secular Society argues for several characteristics of the secular the experience of living in a secular age and the experience of living without religion as a normal condition Religion in the West is often seen as marked by both innovation and disarray In spite of differing approaches and perspectives of secularization rational choice and de secularization many scholars agree that the West is experiencing a general resurgence of religion across most Western societies Post Secular Society discusses the changes in religion related to globalization and New Age forms of popular religion The contributors review religion that is rooted in the globalized political economy and the relationship of post secularism to popular consumer culture Also reviewed is innovative discourse as a religious belief system theories of the post secular religious and spiritual well being and healing practices in Finland and environmentalism This paperback edition includes a new preface by Peter Nynas *The Postsecular Sacred* David Tacey, 2019-07-16 In *The Postsecular Sacred* Jung Soul and Meaning in an Age of Change David Tacey presents a unique psychological study of the postsecular adding a Jungian perspective to a debate shaped by sociology philosophy and religious studies In this interdisciplinary exploration Tacey looks at the unexpected return of the sacred in Western societies and how the sacred is changing our understanding of humanity and culture Beginning with Jung's belief that the psyche has never been secular Tacey examines the new desire for spiritual experience and presents a logic of the unconscious to explain it Tacey argues that what has fuelled the postsecular momentum is the awareness that something is missing and the idea that this could be buried in the unconscious is dawning on sociologists and philosophers While the instinct to connect to something greater is returning Tacey shows that this need not imply that we are regressing to superstitions that science has rejected The book explores indigenous spirituality in the context of the need to reanimate the world not by going back to the past but by being inspired by it There are chapters on ecopsychology and quantum physics and using Australia as a case study the book also examines the resistance of secular societies to becoming postsecular Approaching postsecularism through a Jungian perspective Tacey argues that we should understand God in a manner that accords with the time not go back to archaic rejected images of divinity The sacred is returning in an age of terrorism and this is not without significance in terms of the explosive impact of spirituality in our time Innovative and relevant to the world we live in this will be of great interest to academics and scholars of Jungian studies anthropology indigenous studies philosophy religious studies and sociology due to its transdisciplinary scope It would also be a useful resource for analytical psychologists Jungian analysts

and psychotherapists The Secular Journal of Thomas Merton Thomas Merton,1977 **Gender and the Journal** Cinthia Gannett,1992-02-06 This book explores the gendered historical and social contexts and discursive traditions that have characterized journals and diaries in academic discourse The tension between the term journal which has a variety of positive public and scholarly connotations and the term diary which is currently understood as a feminized trivial and confessional kind of writing inappropriate for school is a critical part of the problem This book uses the developing and shifting notions of diary and journal to explore several critical questions about the larger relations between gender language canonicity and academic discourse **Secularisations and Their Debates** Matthew Sharpe,Dylan Nickelson,2013-10-30 This volume explores timely topics in contemporary political and social debates including the new atheisms the debate between Habermas and the Pope on the fate of modernity and the impact of new scientific developments on traditional religions This book collects articles first presented at the Deakin University World in Crisis workshop held November 2010 by leading Australasian philosophers and theologians It addresses questions raised by the recent much touted return to religion including possible reasons for the return and its practical political and intellectual prospects Secularisation and Their Debates is not afraid to provide answers to such questions as Is religion only ever a force of political reaction in modernity or are there resources in it which progressive even secular social movements could engage with or adopt Are the new atheisms or on the opposite side the new fundamentalisms really novel phenomena or has religion only ever been artificially sidelined in the modern Western states Has modern liberalism only really been kidding itself about its non doctrinal neutrality between different faiths and if so what should follow This book will appeal to researchers in the philosophy of religion social sciences political philosophy and anthropology **Encyclopedia of Geomagnetism and Paleomagnetism** David Gubbins,Emilio Herrero-Bervera,2007-07-19 Understanding the process underlying the origin of Earth magnetic field is one of the greatest challenges left to classical Physics Geomagnetism being the oldest Earth science studies the Earth s magnetic field in its broadest sense The magnetic record left in rocks is studied in Paleomagnetism Both fields have applications pure and applied in navigation in the search for minerals and hydrocarbons in dating rock sequences and in unraveling past geologic movements such as plate motions they have contributed to a better understanding of the Earth Consisting of more than 300 articles written by ca 200 leading experts this authoritative reference encompasses the entire fields of Geomagnetism and Paleomagnetism in a single volume It describes in fine detail at an assessable level the state of the current knowledge and provides an up to date synthesis of the most basic concepts As such it will be an indispensable working tool not only for geophysicists and geophysics students but also for geologists physicists atmospheric and environmental scientists and engineers International Journal of Religion - Volume 1, Number 1 - November 2020 Jeffrey Haynes,Ahmet Erdi Ozturk,Eric M.
