Security Implications Of A Global Chemical Weapons Ban:

Security Implications Of A Global Chemical Weapons Ban Joachim Krause, 1991-11-05 *The Chemical Weapons Taboo* Richard M. Price, 2018-09-05 Richard M Price asks why among all the ominous technologies of weaponry throughout the history of warfare chemical weapons carry a special moral stigma Something more seems to be at work than the predictable resistance people have expressed to any new weaponry from the crossbow to nuclear bombs Perceptions of chemical warfare as particularly abhorrent have been successfully institutionalized in international proscriptions and Price suggests understanding the sources of this success might shed light on other efforts at arms control To explore the origins and meaning of the chemical weapons taboo Price presents a series of case studies from World War I through the Gulf War of 1990 1991 He traces the moral arguments against gas warfare from the Hague Conferences at the turn of the century through negotiations for the Chemical Weapons Convention of 1993 From the Italian invasion of Ethiopia to the war between Iran and Iraq chemical weapons have been condemned as the poor man's bomb Drawing upon insights from Michel Foucault to explain the role of moral norms in an international arena rarely sensitive to such pressures he focuses on the construction of and mutations in the refusal to condone chemical weapons *Chemical Disarmament And U.s. Security* Brad Roberts, 1992-07-20 A study of chemical disarmament and US security **A History of Chemical and Biological Weapons** Edward M. Spiers, 2010-04-30 Following the 9 11 attacks and the anthrax letters that appeared in their wake the threat posed by the widespread accessibility of chemical and biological weapons has continually been used to stir public fear and opinion by politicians and the media alike In *Chemical and Biological Weapons* Edward M Spiers cuts through the scare tactics and hype to provide a thorough and even handed examination of the weapons themselves the various types and effects and their evolution from World War I to the present Spiers describes the similarities and differences between the two types of weapons and how technological advancements have led to tactical innovations in their use over time As well he gives equal attention to the international response to the proliferation of chemical and biological weapons analyzing global efforts aimed at restraining their use such as deterrence and disarmament and the effectiveness of these approaches in the twentieth century Using Iraq as a case study Spiers also investigates its deployment of chemical weapons in the Iran Iraq War and the attempts by the international community to disarm Iraq through the United Nations Special Commission and the United States led war in 2003 A timely and balanced historical survey *Chemical and Biological Weapons* will be of interest to readers studying the proliferation and use of chemical and biological warfare and the reactions of the international community throughout the last several decades *Chemical and Biological Weapons* E. Spiers, 1994-08-16 his previous forays into this subject have made him the *Chemical Biological Weapons* professionals author and this book does nothing to diminish this view It is also timely *British Army Review* An analysis of the proliferation of chemical and biological weapons which examines the attractions and utility of these weapons for some developing states the difficulties encountered in trying to control their

spread and the lessons from the Rabta controversy and the Gulf War It reviews the evolution of American chemical weapons policy under the Bush administration the implications of the Chemical Weapons Convention and the problems posed by the inherently dynamic nature of these weapons and their tactical flexibility

Agents of War Edward M. Spiers,2020-11-05 Often described as the misuse of science chemical and biological weapons have incurred widespread opposition over the years Despite condemnation from the United Nations governments and the disarmament lobby they remain very real options for rogue states and terrorists In this new edition of Agents of War Edward M Spiers has expanded and updated this much needed history with two new chapters on political poisoning and chemical weapons in the Middle East Spiers breaks new ground by presenting his analysis in both historical and contemporary contexts giving a comprehensive chronological account of why where and when such weapons were used or suspected to be deployed

[Integrated Middle East Regional Approaches to Unconventional Arms Control and Disarmament](#) Laura Drake,1999-10-12 The topic of biological weapons and the issues of arms control and disarmament are addressed in Middle East regional perspective This requires that the subject be dealt with not as a separate category but within the overall context of the Middle East military balance This taken into consideration the different approaches to unconventional and mixed arms control are addressed in terms of how they affect the national interests of regional states and in what form they are most likely to appear as increasing rather than diminishing their security The US USSR nuclear arms control effort during the Cold War is advocated as a process model for the Middle East It provides a way to disarm the most heavily armed regional powers of their most dangerous weapons without damaging their respective national interests The voluntarism inherent in this approach respects the sovereignty of the region s several states thereby overcoming both the Israeli distrust of international organizations and treaties and the Arab distrust of the partiality of the American superpower The further recommendation to marry the US USSR arms control negotiation model to the Middle East theater and its long history of negotiated military agreements beginning with the Arab Israeli armistice agreements in 1948 49 contains the additional benefit of separating the military requirements of arms control from the political shackles of a declining Middle East peace process Israel s objection is that the Arms Control and Regional Security Committee part of the multilateral track of the peace process does not include states like Iran Iraq Syria and Libya the states by which Israel says it

is most threatened The remodeling of Middle East arms control according to Cold War standards enables the inclusion of those proliferating states which are not prepared to enter into political and economic normalization or security cooperation with Israel but whose arms races with Israel and with one another are creating an ever more dangerous regional environment

Disarmament and Arms Limitation Obligations Serge Sur, 1994 This work deals with the difficulties of enforcing arms limitation obligations It examines the changing international system multilateral and regional treaty provisions the prospects for developing international mechanisms and the way that domestic law interacts with international obligations

The Persian Gulf After the Cold War Mohammed E. Ahrari, James Noyes, 1993-10-30 This is a comprehensive examination of the strategic affairs of the Persian Gulf since the Gulf War of 1991 The authors conclude that the arms race in the Persian Gulf should be controlled but maintain it is likely to continue because of the clashing strategic perspectives of Saudi Arabia and Iran and because of the sustained willingness of all major suppliers to find new revenue sources for their declining defense industries in the post Cold War decade They also argue that the U S should not adopt a policy of isolating or ignoring Iran in its endeavors to find security arrangements in the Persian Gulf and that a weakened Iraq has become a major source of instability in the Persian Gulf
