Seduce Eva Gizowska, 2003 Thoughtful lovers bring extra pleasure both to themselves and to that special person in their life Here are ideas to enhance sensitivity and become a better lover Titles in this wisdom filled four book series are illustrated with beautiful full page color photos and art each illustration complementing a pithy self help tip on an attractive two page spread The advice given in any of the consecutively numbered tips can be read within a minute or two but the wisdom presented can have a beneficial on its reader for the entire day 1 2 or month or perhaps even a lifetime A sample tip from one of the four volumes in the series advises 1 2 Listen to your body Your body is very good at giving you clear messages about how it feels If you 1 2 are in the habit of rushing around at top speed try slowing down a little You 1 2 will feel calmer and more in control of your life 1 2 Any one or all four of these books make wonderful gifts to special friends including the special friend we all possess ourselves

Three Seductive Ideas Jerome Kagan, 2000-04-07 Do the first two years of life really determine a child's future development Are human beings like other primates only motivated by pleasure And do people actually have stable traits like intelligence fear anxiety and temperament This book the product of a lifetime of research by one of the founders of developmental psychology takes on the powerful assumptions behind these questions and proves them mistaken Ranging with impressive ease from cultural history to philosophy to psychological research literature Jerome Kagan weaves an argument that will rock the social sciences and the foundations of public policy Scientists as well as lay people tend to think of abstract processes like intelligence or fear as measurable entities of which someone might have more or less This approach in Kagan's analysis shows a blindness to the power of context and to the great variability within any individual subject to different emotions and circumstances Infant determinism is another widespread and dearly held conviction that Kagan contests This theory with its claim that early relationships determine lifelong patterns underestimates human resiliency and adaptiveness both emotional and cognitive and of course fails to account for the happy products of miserable childhoods and vice versa The last of Kagan's targets is the vastly overrated pleasure principle which he argues can hardly make sense of unselfish behavior impelled by the desire for virtue and self respect the wish to do the right thing Written in a lively style that uses fables and fairy tales history and science to make philosophical points this book challenges some of our most cherished notions about human nature

Lift Off Sarah Merson, 2003 Good health though regular exercise body fitness and wholesome appetizing diet are just a few of the ways to enhance and maintain physical and mental energy Titles in this wisdom filled four book series are illustrated with beautiful full page color photos and art each illustration complementing a pithy self help tip on an attractive two page spread The advice given in any of the consecutively numbered

The Gardens of Adonis Marcel Detienne, 2021-10-12 Rich with implications for the history of sexuality gender issues and patterns of Hellenic literary imagining Marcel Detienne's landmark book recasts long standing ideas about the fertility myth of Adonis The author challenges Sir James Frazer's thesis that the vegetation god Adonis whose premature death was mourned by women and whose resurrection marked a joyous occasion represented the annual cycle of growth and decay in agriculture Using the analytic tools of structuralism Detienne shows instead that the festivals of Adonis depict a seductive but impotent and fruitless deity whose physical ineptitude led to his death in a boar hunt after which his body was found in a lettuce patch Contrasting the festivals of Adonis with the solemn ones dedicated to Demeter the goddess of grain he reveals the former as a parody and negation of the institution of marriage Detienne considers the short lived gardens that Athenian women planted in mockery for Adonis's festival and explores the function of such vegetal matter as spices mint myrrh cereal and wet plants in religious practice and in a wide selection of myths His inquiry exposes among many things attitudes toward sexual activities ranging from perverse acts to marital relations *Continent*, 1913 *The Interior*, 1913 Issues for Jan 12 1888 Jan 1889 include monthly Magazine supplement
