The foreground is dominated by a blurred, long-exposure light trail of a car's headlights and taillights, creating a sense of motion and urban energy. The title is printed in large, bold, white capital letters, while the subtitle is in smaller, orange capital letters. The author's name is at the bottom in white.

The Making of Sporting Cultures John Hughson, 2013-09-13 The Making of Sporting Cultures presents an analysis of western sport by examining how the collective passions and feelings of people have contributed to the making of sport as a way of life The popularity of sport is so pronounced in some cases that we speak of certain sports as national pastimes Baseball in the United States soccer in Britain and cricket in the Caribbean are among the relevant examples discussed Rather than regarding the historical development of sport as the outcome of passive spectator reception this work is interested in how sporting cultures have been made and developed over time through the active engagement of its enthusiasts This is to study the history of sport not only from below but also from within as a means to understanding the deep relationship between sport and people within class contexts the middle class as well as the working class Contestation over the making of sport along axes of race gender and class are discussed where relevant A range of cultural writers and theorists are examined in regard to both how their writing can help us understand the making of sport and as to how sport might be located within an overall cultural context in different places and times The book will appeal to students and academics within humanities disciplines such as cultural studies history and sociology and to those in sport studies programmes interested in the historical cultural and social aspects of sport This book was published as a special issue of Sport in Society

The Great Inversion and the Future of the American City Alan Ehrenhalt,2013-01-22 Eye opening and thoroughly engaging this is an indispensable look at American urban suburban society and its future In The Great Inversion Alan Ehrenhalt one of our leading urbanologists reveals how the roles of America s cities and suburbs are changing places young adults and affluent retirees moving in while immigrants and the less affluent are moving out and addresses the implications of these shifts for the future of our society Ehrenhalt shows us how the commercial canyons of lower Manhattan are

becoming residential neighborhoods and how mass transit has revitalized inner city communities in Chicago and Brooklyn He explains why car dominated cities like Phoenix and Charlotte have sought to build twenty first century downtowns from scratch while sprawling postwar suburbs are seeking to attract young people with their own form of urbanized experience
