Strategies and Structure of the Luxury Clothing and Accessories Sector Mirela Orlovic, 2003-07-04 Inhaltsangabe Introduction The luxury goods industry is a fascinating field As Jean Louis Dumas Hermès chairman and CEO of Hermès explains Le luxe c'est créer un rêve qui perdure In addition to the dream dimension that defies scientific analysis the luxury goods companies have kept highly secretive Alain D Perrin President and CEO at Cartier International elucidates One of our strengths is our ability to maintain a certain mystery about the economic entity which is the company We bring magic and dreams to consumers who don't want to see their favourite brands discussed in the media and lacking any sense of the romantic Systematic research confines itself mainly to specialised marketing literature especially that of French scholars But recent developments have raised various questions and call for more systematic research in diverse fields Over the past two decades luxury companies in particular in the clothing sector have had to face an increasingly turbulent environment On the supply side French dominance especially in the haute couture sector has been challenged as competition has increased mainly from Italian and American fashion houses
