**Broken Time, Fragmented Space** Anna Maria Torriglia, 2002-12-15 Broken Time Fragmented Space A Cultural Map for Post war Italy examines how the artists and intellectuals of post war Italy dealt with the shameful heritage of their fascist upbringing and education by trying to craft a new cultural identity for themselves and the country The continuities between the culture of the fascist and post fascist periods were however far greater than what intellectuals were ready to admit creating an uncomfortable sometimes schizophrenic relation to time as a painful urge to erase the past Drawing on a variety of critical approaches Torriglia investigates the efforts to reconstruct a personal as well as a collective self by analyzing both canonical and lesser known cinematic and literary texts Organized around four main themes the use of language the interaction between personal and public spheres the perceptual categories of history and memory and the reconstruction of the female identity the study also includes historical introductions and sociological commentary that provides an extensive and captivating picture of the cultural production in 1950s Italy a period that has not yet been extensively studied

*Prehistoric Future* Ralph Ubl,2013-11-06 One of the most admired artists of the twentieth century Max Ernst was a proponent of Dada and founder of surrealism known for his strange evocative paintings and drawings In *Prehistoric Future* Ralph Ubl approaches Ernst like no one else has using theories of the unconscious surrealist automatism Freudian psychoanalysis the concept of history as trauma to examine how Ernst s construction of collage departs from other modern artists Ubl shows that while Picasso Braque and Man Ray used scissors and glue to create collages Ernst employed techniques he himself had forged rubbing and scraping to bring images forth onto a sheet of paper or canvas to simulate how a screen image or memory comes into the mind s view In addition Ernst scoured the past for obsolete scientific illustrations and odd advertisements to illustrate the rapidity with which time passes and to simulate the apprehension generated when rapid flows of knowledge turn living culture into artifact Ultimately Ubl reveals Ernst was interested in the construction and phenomenology of both collective and individual modern history and memory Shedding new light on Ernst s working methods and the reasons that his pieces continue to imprint themselves in viewers memories *Prehistoric Future* is an innovative work of critical writing on a key figure of surrealism

**A Forest of Symbols** Andrei Pop,2019-09-27 A groundbreaking reassessment of Symbolist artists and writers that investigates the concerns they shared with scientists of the period the problem of subjectivity in particular In *A Forest of Symbols* Andrei Pop presents a groundbreaking reassessment of those writers and artists in the late nineteenth century associated with the Symbolist movement For Pop symbolist denotes an art that is self conscious about its modes of making meaning and he argues that these symbolist practices which sought to provide more direct access to viewers and readers by constant revision of its material means of meaning making brushstrokes on a canvas words on a page are crucial to understanding the genesis of modern art The symbolists saw art not as a social revolution but as a revolution in sense and how to conceptualize the world The concerns of symbolist painters and poets were shared to a remarkable degree by theoretical scientists of the period who were dissatisfied with the strict empiricism dominant in their disciplines which made shared knowledge seem unattainable The problem of subjectivity in particular of what in one s experience can and cannot be shared was crucial to the possibility of collaboration within science

and to the communication of artistic innovation Pop offers close readings of the literary and visual practices of Manet and Mallarmé of drawings by Ernst Mach William James and Wittgenstein of experiments with color by Bracque and Van Gogh and of the philosophical systems of Frege and Russell filling in a startling but coherent picture of the symbolist heritage of modernity and its consequences **Kanzi's Primal Language** P. Segerdahl, W. Fields, S. Savage-Rumbaugh, 2005-08-05

Sue Savage Rumbaugh's work on the language capabilities of the bonobo Kanzi has intrigued the world because of its far reaching implications for understanding the evolution of the human language This book takes the reader behind the scenes of the filmed language tests It argues that while the tests prove that Kanzi has language the even more remarkable manner in which he originally acquired it spontaneously in a culture shared with humans calls for a re thinking of language emphasizing its primal cultural dimensions How to Seduce a Woman Tatiana Busan, 2025-03-31

Murphy, 2020-09-15 When D H Lawrence wrote his classic study of American literature he claimed that youth was the true myth of America Beginning from this assertion Emily A Murphy traces the ways that youth began to embody national hopes and fears at a time when the United States was transitioning to a new position of world power In the aftermath of World War II persistent calls for the nation to grow up and move beyond innocence became common and the child that had long served as a symbol of the nation was suddenly discarded in favor of a rebellious adolescent This era marked the beginning of a crisis of identity where literary critics and writers both sought to redefine U S national identity in light of the nation s new global position The figure of the adolescent is central to an understanding of U S national identity both past and present and of the cultural forms e g literature that participate in the ongoing process of representing the diverse experiences of Americans In tracing the evolution of this youthful figure Murphy revisits classics of American literature including J D Salinger s *The Catcher in the Rye* and Vladimir Nabokov s *Lolita* alongside contemporary bestsellers The influence of the adolescent on some of America s greatest writers demonstrates the endurance of the myth that Lawrence first identified in 1923 and signals a powerful link between youth and one of the most persistent questions for the nation What does it mean to be an American *Beyond Recognition* Craig Owens, 1992 On the arts and postmodernism

Liang, 2010-07-12 This book argues that modernity first arrived in late nineteenth century Shanghai via a new spatial configuration This city s colonial capitalist development ruptured the traditional configuration of self contained households towns and natural landscapes in a continuous spread producing a new set of fragmented as well as fluid spaces In this process Chinese sojourners actively appropriated new concepts and technology rather than passively responding to Western influences Liang maps the spatial and material existence of these transient people and reconstructs a cultural geography that spreads from the interior to the neighbourhood and public spaces In this book the author discusses the courtesan house as a surrogate home and analyzes its business gender and material configurations examines a new type of residential neighbourhood and shows how its innovative spatial arrangements transformed the traditional social order and hierarchy surveys a range of public spaces and highlights the mythic perceptions of industrial marvels the adaptations of colonial spatial types the emergence of an urban public and the spatial fluidity between elites and masses Through reading contemporaneous literary and visual sources the book charts a hybrid modern development that stands in contrast to the positivist conception of modern progress As such it will be a provocative read for scholars of Chinese cultural and architectural history Law, Text, Terror Peter Goodrich, Lior

Barshack, Anton Schutz, 2013-10-18 The essays collected here under the governing signs Law Text Terror have their origins in a singular and topical desire Their motive is most immediately that of acknowledging the massive and eccentric contribution of the philologist psychoanalyst and Romanist jurist Pierre Legendre to the study of legal institutions and juridical practices He has unceasingly asked the question why law and in endeavouring to answer that question in the course of over twenty five

books published during the last forty years he has traversed a unique and uniquely idiosyncratic body of disciplines and knowledges relevant to the symbolic forms and institutional functions of the Western legal order These essays reflect that singularity of drive as well as that diversity of scholarly interests by taking up playing with varying and developing the themes of text and terror law and territory that Legendre either introduced or made peculiarly his own
