See Under A Novel:

See Under: Shoah Marc De Kesel, Bettine Siertsema, Katarzyna Szurmiak, 2014-08-28 Did the first generation Holocaust writers not warn us against the risks of imagination Does it not create an illusion that the unimaginable can be imagined the unrepresentable represented Clearly this warning has not been taken up by David Grossman Fully embracing imagination's power his novel See under Love offers a profound reflection on how the twenty first century can assume the heritage of the Shoah and remember the unmemorable in a proper way The essays in this volume reflect on this one novel though each from its own angle Focusing on one single novel shows the surplus value of a multispectral reflection on one central problem in this case the allegedly inconceivable and unspeakable nature of the Shoah

Dreaming in Books Andrew Piper, 2009-08 Examining novels critical editions gift books translations and illustrated books as well as the communities who made them Dreaming in Books tells a wide ranging story of the book's identity at the turn of the nineteenth century In so doing it shows how many of the most pressing modern communicative concerns are not unique to the digital age but emerged with a particular sense of urgency during the bookish upheavals of the romantic era In revisiting the book's rise through the prism of romantic literature Piper aims to revise our assumptions about romanticism the medium of the printed book and ultimately the future of the book in our so called digital age Pub desc

Novel Science Adelene Buckland, 2013-04-12 Novel Science is the first in depth study of the shocking groundbreaking and sometimes beautiful writings of the gentlemen of the heroic age of geology and of the contribution these men made to the literary culture of their day For these men literature was an

essential part of the practice of science itself as important to their efforts as mapmaking fieldwork and observation The reading and writing of imaginative literatures helped them to discover imagine debate and give shape and meaning to millions of years of previously undiscovered earth history Borrowing from the historical fictions of Walter Scott and the poetry of Lord Byron they invented geology as a science discovered many of the creatures we now call the dinosaurs and were the first to unravel and map the sequence and structure of stratified rock As Adelene Buckland shows they did this by rejecting the grand narratives of older theories of the earth or of biblical cosmogony theirs would be a humble science faithfully recording minute details and leaving the big picture for future generations to paint Buckland also reveals how these scientists just as they had drawn inspiration from their literary predecessors gave Victorian realist novelists such as George Eliot Charles Kingsley and Charles Dickens a powerful language with which to create dark and disturbing ruptures in the too seductive sweep of story

The Arab and Jewish Questions Bashir Bashir, Leila Farsakh, 2020-12-15 Nineteenth century Europe turned the political status of its Jewish communities into the Jewish Question as both Christianity and rising forms of nationalism viewed Jews as the ultimate other With the onset of Zionism this question migrated to Palestine and intensified under British colonial rule and in the aftermath of the Holocaust Zionism's attempt to solve the Jewish Question created what came to be known as the Arab Question which concerned the presence and rights of the Arab population in Palestine For the most part however Jewish settlers denied or dismissed the question they created to the detriment of both Arabs and Jews in Palestine and elsewhere This book brings together leading scholars to consider how these two questions are entangled historically and in the present day It offers critical analyses of Arab engagements with the question of Jewish rights alongside Zionist and non Zionist Jewish considerations of Palestinian identity and political rights Together the essays show that the Arab and Jewish questions and the Israeli Palestinian conflict in which they have become subsumed belong to the same thorny history Despite their major differences the historical Jewish and Arab questions are about the political rights of oppressed groups and their inclusion within exclusionary political communities a question that continues to foment tensions in the Middle East Europe and the United States Shedding new light on the intricate relationships among Orientalism anti-Semitism Islamophobia colonialism and the impasse in the Israeli Palestinian conflict this book reveals the inseparability of Arab and Jewish struggles for self determination and political equality Contributors include Gil Anidjar Brian Klug Amal Ghazal Ella Shohat Hakem Al Rustom Hillel Cohen Yuval Evri Derek Penslar Jacqueline Rose Moshe Behar Maram Masarwi and the editors Bashir Bashir and Leila Farsakh

Women's Diaries as Narrative in the Nineteenth-Century Novel Catherine Delafield, 2016-07-22 First published in 2009 this book investigates the cultural significance of nineteenth century women's writing and reading practices Beginning with an examination of non-fictional diaries and the practice of diary writing it assesses the interaction between the fictional diary and other forms of

literary production such as epistolary narrative the periodical the factual document and sensation fiction The discrepancies between the private diary and its use as a narrative device are explored through the writings of Frances Burney Elizabeth Gaskell Anne Bront Dinah Craik Wilkie Collins and Bram Stoker It also considers women as writers readers and subjects and demonstrates ways in which women could become performers of their own story through a narrative method which was authorized by their femininity and at the same time allowed them to challenge the myth of domestic womanhood This book will be of interest to those studying 19th century literature and women in literature *Revolutionary Aftereffects* Megan Swift, 2022-05-30 Thirty years after the fall of the Soviet Union the 1917 Revolution still looms large not only because Russians remain divided over whether the revolution arrived forcibly or inevitably and whether it was a colossally tragic or colossally generative event but also because its social cultural scientific and even moral residues remain everywhere in Putins Russia *Revolutionary Aftereffects* looks at the ways in which 1917 has been and continues to be commemorated in Russia Although post Soviet Russia has emphasized its complete break with the past this study of the memorialization and legacy of 1917 explores a fundamental continuity underlying an apparent discourse of discontinuity in post socialist Russia Contributors provide insight into the continuing reverberations of the revolution from a variety of disciplinary perspectives including history and literary studies as well as heritage studies anthropology geography and sociology Collectively these essays demonstrate the changing nature of the revolution s memorialization in the Soviet Union and post Soviet Russia and the ambivalence and contradictions within those narratives **Modern Science Fiction: A Critical Analysis** James Gunn, Michael R. described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin's own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin's thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive
