Seeable Signs The Iconography Of The Seven Sacraments 1350 1544:

Seeable Signs Ann Eljenholm Nichols, 1994 Representations of the seven sacraments in medieval art examined in the context of theological didactic and liturgical sources **Sacramental Theology and the Decoration of Baptismal Fonts** Frances Altvater, 2017-06-23 Baptismal fonts were necessary to the liturgical life of the medieval Christian Baptism marked the entrance of the faithful into the right relation with the Catholic Church representing the main cultural institution of medieval society In the period between ca 1050 and ca 1220 the decoration of the font often had an important function to underscore the theology of baptism in the context of the sacraments of the Catholic Church This period witnessed a surge of concern about sacraments Just as religious thinkers attempted to delineate the sacraments and define their function in sermons and Sentence collections sculptural programs visualized the teaching of orthodox ideas for the lay audience This book looks at three areas of primary concern around baptism as a sacrament incarnation initiation and the practice of baptism within the institution of the Church and the images that embody that religious discussion Baptismal fonts have been recognized as part of the stylistic production of the Romanesque period and their iconography has been generally explored as moral and didactic Here the message of these fonts is set within a very specific history of medieval Catholic sacramental theology connecting erudite thinkers and lay users through their decoration and use **Pathos in Late-Medieval Religious Drama and Art** Gabriella Mazzon, 2018-05-23 Pathos as Communicative Strategy in Late Medieval Religious Drama and Art explores the strategies employed to trigger emotional responses in late medieval dramatic texts from several Western European traditions and juxtaposes these texts with artistic productions from the same areas with an emphasis on Britain The aim is to unravel the mechanisms through which pathos was produced and employed mainly through the representation of pain and suffering with mainly religious but also political aims The novelty of the book resides in its specific linguistic perspective which highlights the recurrent use of words structures and dialogic patterns in drama to reinforce messages on the salvific value of suffering in synergy with visual messages produced in the same cultural milieu [The Baptismal Font Canopy of St. Peter Mancroft, Norwich](#), 2023-10-16 The early 16th century baptismal font canopy of the church of St Peter Mancroft Norwich is one of only three such structures to survive anywhere in the British Isles This study inspired by the recent rediscovery of four attributable panels at the Philadelphia Museum of Art offers a trans temporal account of the canopy s initial creation and subsequent use mutilation and modification Written by a team of scholars in art architectural history art conservation heritage documentation literary studies and museum curation it explores the installation s multiple artistic ritual and cultural contexts from late medieval and early modern Europe to modern day North America Contributors are Benjamin Baaske Sarah Blick Kate Duffy Brent R Fortenberry Amy Gillette Jack Hinton Lesley Milner Peggy Olley Ellen K Rentz Behrooz Salimnejad Zachary Stewart Achim Timmermann Charles Tracy Kim Woods and Lucy Wrapson *Vanities of the Eye* Stuart Clark, 2009-01-15 Vanities of the Eye investigates the cultural history of the

senses in early modern Europe a time in which the nature and reliability of human vision was the focus of much debate In medicine art theory science religion and philosophy sight came to be characterised as uncertain or paradoxical mental images no longer resembled the external world Was seeing really believing Stuart Clark explores the controversial debates of the time from the fantasies and hallucinations of melancholia to the illusions of magic art demonic deceptions and witchcraft The truth and function of religious images and the authenticity of miracles and visions were also questioned with new vigour affecting such contemporary works as Macbeth a play deeply concerned with the dangers of visual illusion Clark also contends that there was a close connection between these debates and the ways in which philosophers such as Descartes and Hobbes developed new theories on the relationship between the real and virtual Original highly accessible and a major contribution to our understanding of European culture Vanities of the Eye will be of great interest to a wide range of historians and anyone interested in the true nature of seeing

Medieval Art

Veronica Sekules,2001-04-26 This refreshing new look at Medieval art conveys a very real sense of the impact of art on everyday life in Europe from 1000 to 1500 It examines the importance of art in the expression and spread of knowledge and ideas including notions of the heroism and justice of war and the dominant view of Christianity Taking its starting point from issues of contemporary relevance such as the environment the identity of the artist and the position of women the book also highlights the attitudes and events specific to the sophisticated visual culture of the Middle Ages and goes on to link this period to the Renaissance The fascinating question of whether commercial and social activities between countries encouraged similar artistic taste and patronage or contributed to the defining of cultural difference in Europe is fully explored

Lollards and Their Influence in Late Medieval England

Fiona Somerset,Jill C. Havens,Derrick G. Pitard,2003 Who were the Lollards What did Lollards believe What can the manuscript record of Lollard works teach us about the textual dissemination of Lollard beliefs and the audience for Lollard writings What did Lollards have in common with other reformist or dissident thinkers in late medieval England and how were their views distinctive These questions have been fundamental to the modern study of Lollardy also known as Wycliffism The essays in this book reveal their broader implications for the study of English literature and history

Broken Idols of the English Reformation , Painting the Sacred in the Age of Romanticism Cordula Grewe,2017-07-05 After a century of Rationalist scepticism and political upheaval the nineteenth century awakened to a fierce battle between the forces of secularization and the crusaders of a Christian revival From this battlefield arose an art movement that would become the torchbearer of a new religious art Nazarenism From its inception in the Lukasbund of 1809 this art was controversial It nonetheless succeeded in becoming a lingua franca in religious circles throughout Europe America and the world at large This is the first major study of the evolution structure and conceptual complexity of this archetypically nineteenth century language of belief The Nazarene quest for a modern religious idiom evolved around a return to pre modern forms of biblical exegesis and the adaptation of traditional systems of iconography Reflecting the era s historicist sensibility as much as the general revival of orthodoxy in the various Christian denominations the Nazarenes responded with great acumen to pressing contemporary concerns Consequently the artists did not simply revive Christian iconography but rather reconceptualized what it could do and say This creativity and flexibility enabled them to intervene forcefully in key debates of post revolutionary European society the function of eroticism in a Christian life the role of women and the social question devotional practice and the nature of the Church childhood education and bible study and the burning issue of anti Judaism and modern anti Semitism What makes Nazarene art essentially Romantic is the meditation on the conditions of art making inscribed into their appropriation and reinvention of artistic tradition Far from being a reactionary move this self reflexivity expresses the modernity of Nazarene art This study explores Nazarenism in a series of detailed excavations of central works in the Nazarene corpus produced between 1808 and the 1860s The result is a book about the possibility of religious meanin

Julian of Norwich Kevin Magill,2006-07-13 Julian of Norwich was a fourteenth century woman who at the age of thirty had a series of vivid visions centred around the crucified Christ Twenty years later while living as an anchoress in a church she is believed to have set out these visions in a text called the Showing of Love Going against the current trend to place Julian in the category of mystic a classification which defines her visions as deeply private psychological events this book sets Julian s thinking in the context of a visionary project used to instruct the Christian community Drawing on recent developments in philosophy that debate the objectivity and rationality of vision and perception Kevin J Magill gives full attention to the depth and richness of the visual language and modes of perception in the Showing of Love In particular the

book focuses on the ways in which Julian presented her vision to the Christian society around her demonstrating the educative potential of interaction between the isolated anchoress and the wider community Challenging Julian's identification as a mystic and solitary female writer this book argues that Julian engaged in a variety of educative methods oral visual conversational mnemonic alliterative that extend the usefulness of her text

Baptism and Spiritual Kinship in Early Modern England Will Coster, 2017-03-02 Despite the importance of the subject to contemporaries this is the first monograph to look at the institution of godparenthood in early modern English society Utilising a wealth of hitherto largely neglected primary source data this work explores godparenthood using it as a framework to illuminate wider issues of spiritual kinship and theological change It has become increasingly common for general studies of family and religious life in pre industrial England to make reference to the spiritual kinship evident in the institution of godparenthood However although there have been a number of important studies of the impact of the institution in other periods this is the first detailed monograph devoted to the subject in early modern England This study is possible due to the survival contrary to many expectations of relatively large numbers of parish registers that recorded the identities of godparents in the sixteenth and seventeenth centuries By utilising this hitherto largely neglected data in conjunction with evidence gleaned from over 20

000 Wills and numerous other biographical legal and theological sources Coster has been able to explore fully the institution of godparenthood and the role it played in society This book takes the opportunity to study an institution which interacted with a range of social and cultural factors and to assess the nature of these elements within early modern English society It also allows the findings of such an investigation to be compared with the assumptions that have been made about the fortunes of the institution in the context of a changing European society The recent historiography of religion in this period has focused attention on popular elements of religious practice and stressed the conservatism of a society faced with dramatic theological and ritual change In this context a study of godparenthood can make a contribution to understanding how religious change occurred and the ways in which popular religious practice was affected
