## **Seeds Of Peace A Buddhist Vision For Renewing Society:**

Seeds of Peace Sulak Sivaraksa, 1992 *Seeds of Peace* is a critique of modern society and a proposal for a more humane and livable world. Sulak Sivaraksa of Thailand is one of Asia's leading social thinkers and social activists. His wide-ranging work includes founding the International network of Engaged Buddhists, inviting those in war zones from Burma and Sri Lanka to come for meditation retreats in Thai monasteries, and organizing poor workers throughout the Third World to discuss their hardships. In *Seeds of Peace*, Sulak draws on his study and practice of Buddhism to approach a wide range of subjects including economic development, the environment, Japan's role in Asia, and women in Buddhism. At once critical and compassionate, Sulak offers intelligent and creative alternatives to the destructive patterns of living so prevalent in the world today.

**Critical Terms for the Study of Buddhism** Donald S. Lopez Jr.,2009-11-15 Over the past century Buddhism has come to be seen as a world religion

exceeding Christianity in longevity and according to many philosophical wisdom Buddhism has also increasingly been described as strongly ethical devoted to nonviolence and dedicated to bringing an end to human suffering And because it places such a strong emphasis on rational analysis Buddhism is considered more compatible with science than the other great religions As such Buddhism has been embraced in the West both as an alternative religion and as an alternative to religion This volume provides a unique introduction to Buddhism by examining categories essential for a nuanced understanding of its traditions Each of the fifteen essays here shows students how a fundamental term from art to word illuminates the practice of Buddhism both in traditional Buddhist societies and in the realms of modernity Apart from Buddha the list of terms in this collection deliberately includes none that are intrinsic to the religion Instead the contributors explore terms that are important for many fields and that invite interdisciplinary reflection Through incisive discussions of topics ranging from practice power and pedagogy to ritual history sex and death the authors offer new directions for the understanding of Buddhism taking constructive and sometimes polemical positions in an effort both to demonstrate the shortcomings of assumptions about the religion and the potential power of revisionary approaches Following the tradition of *Critical Terms for Religious Studies* this volume is not only an invaluable resource for the classroom but one that belongs on the short list of essential books for anyone seriously interested in Buddhism and Asian religions     Energy, Governance and Security in Thailand and Myanmar (Burma) Adam Simpson, 2016-04-29 Across the world states are seeking out new and secure supplies of energy but this search is manifesting itself most visibly in Asia where rapid industrialisation in states such as China and India is fomenting a frantic scramble for energy resources Due to entrenched societal inequities and widespread authoritarian governance however the pursuit of national energy security through transnational energy projects has resulted in devastating impacts on the human and environmental security of local populations These effects are particularly evident in both Thailand and Myanmar Burma which located at the crossroads of Asia are increasingly engaged in the cross border energy trade Based on extensive fieldwork and theoretical analysis this ground breaking book proposes a new critical approach to energy and environmental security and explores the important role that both local and transnational environmental movements are playing in the absence of effective and democratic governments in providing activist environmental governance for energy projects throughout the region By comparing the nature of this activism under two very different political regimes it delivers crucial theoretical insights with both academic and policy implications for the sustainable and equitable development of the South's natural resources     *Striking a Balance* Michael C. Brannigan, 2010-01-01 *Striking a Balance* offers a lucid thoughtful and thoroughly engaging review of the major ethical teachings in the dominant Asian traditions Michael C Brannigan applies his extensive background and scholarship to craft a concise yet comprehensive introduction to Asian ethics covering the long standing traditions of Hinduism Buddhism Zen Buddhism Taoism and Confucianism     **Mixed Blessings** Amanda Whiting, Carolyn Evans, 2006-05-01 The essays in this

volume explore some of the diverse and contradictory ways that the lives of women in the Asia Pacific region are shaped by two powerful regimes religion and law and by the interactions between them They show that for women laws customary colonial post independence and international and religions indigenous or introduced Buddhism Christianity Islam and Confucianism have been a mixed blessing These diverse legal systems and religious doctrines and institutions have variously denied women authority and the capacity to participate fully in the public organization of social political and religious life they have furthermore constructed gender and familial relations in ways that subordinate women Yet they have also offered promises of women s empowerment and provided rules and procedures norms values and interpretations of sacred traditions to deliver those emancipatory promises Each chapter is devoted to a single state first the history and current framework of the national legal system is introduced then the place of religion in the state is explained and finally by means of precise and detailed case studies or examples each author explores how these sometimes competing sometimes colluding regimes constructed women and how women interpreted this positioning and sought to resituate themselves
